In most chess games white has the privilege of attacking first but there are ways for black to turn the tables right from the start In this exciting repertoire of gambits black immediately seizes the initiative from White s hands and begins powerful attacks *My First Chess Opening Repertoire for Black* Vincent Moret,2017-09-28 Every chess player needs to decide which openings he or she is going to play But where do you start The risk of drowning in the turbulent sea of chess opening theory is only too real for beginning amateurs Often your goals and ambitions will be misguided If you are trying to win in 20 moves copy what s in fashion among top GM s or memorize variations you are wasting your time Most likely you will never get to play your preparation and end up aimlessly switching from one opening to the other After the success of his volume for White experienced French chess trainer Vincent Moret now provides a complete ready to go chess opening repertoire for Black It consists of a sound set of lines that do not outdate rapidly do not require memorization and are easy to digest for beginners and post beginners To show the typical plans and the underlying ideas in the various lines of his repertoire Moret not only selected games of Grandmasters He also uses games of young improving players to highlight the errors they tend to make

*An Explosive Chess Opening Repertoire for Black* Jouni Yrjola,Jussi Tella,2001 This book equips the reader with everything he needs to know to play Black in a game of chess Two experienced Finnish players have described an exciting repertoire based on the move 1 d6 in reply to whatever White s first move happens to be Black s strategy is hypermodern and dynamic White is encouraged to seize space while Black develops his pieces rapidly and actively waiting for the ideal moment to attack and destroy White s central bastion The variations advocated have been proven in top level play and have quick strike potential if White is at all careless or imprecise The repertoire is based around the Pirc Defence and the variations 1 d4 d6 2 c4 e5 and 1 d4 d6 2 Nf3 Bg4 which fit seamlessly together with 1 d6 systems against White s various flank openings

**Hypermodern Opening Repertoire for White** Eric Schiller,1999

**Complete Defense to Queen Pawn Openings**

Eric Schiller, This aggressive counterattacking repertoire covers Black opening systems against virtually every opening except for 1 e4 plus most flank games based on the exciting and powerful Tarrasch Defense which helped win Kasparov and Spassky championships Black learns the Classical Tarrasch Symmetrical Tarrasch Asymmetrical Tarrasch Marshall and Tarrasch gambits and Tarrasch without Nc3 to achieve early equality or even an outright advantage in the first few moves This is an important opening book for aggressive players looking for an edge 288 pages *A Vigorous Chess Opening Repertoire for Black* Or Cohen,2014-05-22 In amateur chess games the most popular opening move for White is 1 e4 and the most reliable reply for Black is 1 e5 says FIDE Master Or Cohen In this book Cohen has created a vibrant and robust opening repertoire for Black after 1 e5 based on the Petroff Defence Cohen presents inventive ways for Black to fight for the initiative in this dependable opening He covers the entire spectrum the main variations as well as the most unexpected and bizarre

sidelines In case White does not allow the Petroff Cohen offers a set of recommendations for Black that is no less important and principled his repertoire against the Vienna and the King s Gambit for example is new and explosive Most amateur White players faced with the Petroff will think that they will have an easy time based on the peaceful reputation of this great opening among top grandmasters Black players who have studied Or Cohen s book will make their life quite miserable

be misguided Trying to win in 20 moves copying what s in fashion among top GM s or memorizing variations are a waste of time Most likely you will never play your preparation or end up by jumping from one opening to the other Experienced French chess trainer Vincent Moret provides a complete ready to go chess opening repertoire for White with a sound set of lines that do not outdate rapidly do not require memorization and are easy to digest for beginning players and other amateurs In this complete and user friendly guide Moret has selected relatively aggressive variations that will enhance your tactical vision To show the typical plans and demonstrate underlying ideas and key motifs Moret not only selected games of Grandmasters For instructional purposes he also uses games of young players to highlight the errors they tend to make

**Side-stepping Mainline Theory** Gerard Welling,Steve Giddins,2019-09-05 The average chess player spends too much time on studying opening theory In his day World Champion Emanuel Lasker argued that improving amateurs should spend about 5% of their study time on openings These days club players are probably closer to 80% often focusing on opening lines that are popular among grandmasters Club players shouldn t slavishly copy the choices of grandmasters GMs need to squeeze every drop of advantage from the opening and therefore play highly complex lines that require large amounts of memorization The main necessity for club players is to emerge from the opening with a reasonable position from which you can simply play chess and pit your own tactical and positional understanding against that of your opponent Gerard Welling and Steve Giddins recommend the Old Indian Hanham Philidor set up as a basis for both Black and White They provide ideas and strategies that can be learned in the shortest possible time and require the bare minimum of maintenance and updating They deliver exactly what you need rock solid positions that you know how to handle By adopting a similar set up for both colours with similar plans and techniques you further reduce study time With this compact and straightforward opening approach Welling and Giddins argue club players will have more time to focus on what is really decisive in the vast majority of non grandmaster games tactics positional understanding and endgame technique *World Champion Openings* Eric Schiller,1997 **My First Chess Opening Repertoire** Christof Sielecki,2024-10-10 In *My First Chess Opening Repertoire* you will learn how to play the opening This book gives you a compact and easy to learn repertoire for White starting with the move 1 e4 And it gives you a similar repertoire for Black with answers to all of White s approaches For beginners and improvers for anyone with a rating up to 1200 or even higher there is probably no better guide than Christof Sielecki who

has already published four opening books and more than a dozen courses on the Chessable platform He knows exactly what his students need and has indeed received thousands of five star ratings The author strikes the perfect balance between fun easy to understand and theoretically sound opening choices And he keeps it entertaining with attacking and counterattacking lines First you ll learn the general opening principles that will guide you in any situation even if your opponent doesn t play the exact moves in the book Then you ll learn specific variations that will improve both your opening play and your general understanding of chess With White you will start with 1 e4 and build your repertoire around timeless opening principles with logical moves that almost play themselves With Black for example you will study the Sicilian Defence an opening that guarantees you the most interesting games and the most attacking opportunities This repertoire will allow you to hit the ground running

*Unorthodox Chess Openings* Eric Schiller,1998 This inclusive guide to every unorthodox opening used by chess players contains more than 500 weird contentious controversial unconventional arrogant and outright strange openings A powerful part of any chess player s arsenal these tricky tacky surprises fly in the face of tradition 1 000 illustrations and diagrams
