Geography And Transition In The Post Soviet Republics:

Geography and Transition in the Post-Soviet Republics Michael J. Bradshaw, 1997 This collection of essays follows on from the Soviet Union A New Regional Geography published in 1991 It examines the events that have taken place since 1994 in the context of theoretical developments in contemporary geography Written by authorities from all over the world it brings us up to date with the events in the former Soviet Union and uncertainty over the future Geography in America at the Dawn of the 21st Century Gary L. Gaile, Cort J. Willmott, 2005 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 47 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of the recent scholarship of American geographers While it focuses on work since 1990 it additionally includes related prior work and work by non American geographers The initial Geography in America was published in 1989 and has become a benchmark reference of American geographical research during the 1980s This latest volume is completely new and features a preface written by the eminent geographer Gilbert White The NEBI YEARBOOK 2001/2002 P. Joenniemi, Lars Hedegaard, A. Östhol, Bjarne Lindström, K. Peschel, C.-E. Stalvant, 2013-03-09 Thorvald Stoltenberg President of the Norwegian Red Cross Chairman of the Editorial Advisory Board Despite the very optimistic language on the imminence of new accessions to the European Union that came out of the June 2001 European Council in Gothenburg it will serve no good purpose to neglect the fact that EU membership for the Central and Eastern European applicants remains a difficult process Painful experience makes it prudent to exercise caution in predicting developments within the European Union Negotiations may drag out snags may appear and something may happen on the way to ratification So perhaps it is wise to take a broader view of European integration and therefore integration within the North European Barents and Baltic Sea region that is the focus of this Yearbook EU membership for those countries that are able to satisfy the Copenhagen requirements and the chapters of the *acquis communautaire* that have subsequently been specified is certainly a prize worth fighting for But all is not lost if some of the applicants end up not joining the Union as a result of the current enlargement round Even more important than formal membership is the process of growing together that has taken place simultaneously with the membership negotiations We are dealing here with integration in the real world of trade investments division of labour politics environment hard and soft security people to people relations etc **East Central Europe and the former Soviet Union** Michael Bradshaw, Alison Stenning, 2016-04-15 A comprehensive introduction to the important economic social and political processes and development issues in this increasingly popular area of study Employing a groundbreaking thematic approach the book centres its discussion on the interrelation between contemporary

development theories and continuing transition issues in this huge and complex region **Theorizing Transition** John Pickles, Adrian Smith, 2005-08-31 Examining transformations using a variety of perspectives Theorizing Transition provides both a rich empirical map of the dimensions of post Communism and raises important theoretical issues about how we interpret these changes **Mapping Modernities** Alan Dingsdale, 2013-02-01 When the communist governments of Eastern Europe and the Soviet Union collapsed between 1989 and 1991 there was a revived interest in a region that had been largely neglected by western geographers Mapping Modernities draws on the resulting work and other original theoretical and empirical sources to describe interpret and explain the place and spatial order of modernities in Central and Eastern Europe since 1920 to give a theoretically underpinned regional geography of the area The book interprets the geography of Central and Eastern Europe from 1920 to 2000 in terms of spatial modernity It details the individual and collective development of places produced within the three modernising projects of Nationalism Communism and Neo liberalism **Russia's Economic Transitions** Nicolas Spulber, 2003-04-10 Russia s Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy s development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy s ownership pattern in the hopes of providing a better basis for subsequent development The treatment s originality impartiality and historical breadth have cogent economic social and political relevance **A History of Russia Volume 1** Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss s accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps fully updated bibliographies accompanying each chapter as well as a general bibliography a glossary and chronological and genealogical lists **The Changing Geopolitics of Eastern Europe** Dr A H Dawson, Rick Fawn, 2013-11-05 This work covers the uncertain geopolitical situation of some countries of Central and Eastern Europe including some of those which are hoping to enter the European Union in the near future some for which entry is far off and some which may never seek or be eligible for membership **Environmental Resources And Constraints In The Former Soviet Republics** Philip Pryde, 2019-06-03 The rapid changes in the former Soviet Union have rendered most pre 1992 works on its environment obsolete A more specifically geographic approach that highlights the particular situation in

each republic and region is offered by Philip R Pryde's new work *Environmental Resources and Constraints in the Former Soviet Republics* Focusing bro **Economic Transition in Russia and the New States of Eurasia** Bartłomiej Kamiński, 1996 This volume covers the economic progress made by the new states of the former Soviet Union in the transition from command to market economies Topics discussed include political and economic adjustments the domestic dimension macropolicies restructuring and regional and world integration **Central Asia on Display** European Society for Central Asian Studies. International Conference, 2004 Despite its geostrategic importance and its easier accessibility since the dissolvent of the Soviet Union Central Asia has nevertheless remained a white spot on the map of western scholarship and public awareness Bringing together papers presented at the VII ESCAS Conference this volume aims to shed light on the historical political cultural and socio economic development of this region Scholars from within and outside Central Asia discuss a wide range of topics covering historical processes and events on the one hand and present developments of regional and global concern on the other *A History Of Russia Volume 2* Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world **Diasporas and Transportation of Homeland Conflicts** Élise Féron, Bahar Baser, 2024-05-07 This book explores the transformation and reinvention of conflict generated diaspora groups politics in countries of residence Numerous narratives link diasporas and conflicts diasporas are seen alternatively as peace wreckers or peace makers as products of forced migration related to conflicts or as targets of securitization policies Transported conflicts occurring within and between diasporas in their countries of residence however remain relatively underexplored tend to be misunderstood and often associated with criminal or terrorist activities The chapters in this volume draw our attention to various interconnected temporalities explaining patterns of conflict transportation such as the temps long of diasporic mobilisation the here and now of what is happening in both host and home countries and micro temporalities and diasporans life trajectories Finally the contributions demonstrate that patterns shapes and even occurrence of conflict transportation vary according to scale and space Highly politicized forms of confrontation are not necessarily representative of everyday interactions between diaspora groups which can entail discrete but tangible forms of cooperation and even solidarity This edited volume calls for nuancing our approach to the links between diasporas and conflicts to avoid falling into the essentialisation trap The chapters in this book were originally published in *Ethnopolitics* **Economic Transition in Russia and the New States of Eurasia** Anjum Siddiqui, 2007 Examines the economies and geo political developments of India Pakistan Afghanistan Nepal Bangladesh Sri Lanka and Bhutan This work focuses on three core areas of importance trade and development in the post WTO era of globalization

macroeconomic adjustment and economic growth and more

Diverse Spaces of Childhood and Youth Ruth

Evans, Louise Holt, 2016-04-08 *Diverse Spaces of Childhood and Youth* focuses on the diverse spaces and discourses of children and youth globally. The chapters explore the influence of gender, age and other socio-cultural differences such as race, ethnicity and migration trajectories on the everyday lives of children and youth in a range of international contexts. These include the diverse urban environments of Istanbul, Copenhagen, Helsinki, Toronto, London and Bratislava and the contrasting rural settings of Ghana and England. The analyses of children's, young people's, parents' and professionals' experiences and discourses provide critical insights into how gender and other socio-cultural differences intersect. The importance of everyday practices and performances in the formation of children's and young people's identities is revealed through, for example, friendships and everyday sociality, mobilities and movements across space in both rural and urban environments. The volume shows how discourses of childhood, particularly those associated with risk, intersect with difference. The recognition of young people's agency and participation is central to many of the chapters whilst also raising methodological questions about how discourses of childhood and youth are researched. Overall, the book provides an original contribution to geographies of children, youth and families and research on diversity and difference in global contexts. This book was published as a special issue of *Children's Geographies*.

Historical Dictionary of the Russian Federation

Robert A. Saunders, 2019-09-20 Straddling Europe and Asia, the Russian Federation is the largest country in the world and home to a panoply of religious and ethnic groups from the Muslim Tatars to the Buddhist Buryats. Over the past 40 years, Russia has experienced the most dramatic transformation of any modern state. The second edition of *Historical Dictionary of the Russian Federation* provides insight into this rapidly developing country. This volume includes coverage of pivotal movements, events and persons in the late Soviet Union (1985-1991) and contemporary Russia (1991-present). This second edition of *Historical Dictionary of the Russian Federation* contains a chronology, an introduction and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion and culture. This book is an excellent resource for students, researchers and anyone wanting to know more about Russia.

Russian-Speakers in Post-Soviet Latvia Ammon Cheskin, 2016-01-18 The political shocks of the 2014 Ukrainian crisis have been felt in many former Soviet countries, not least Latvia where over 35 per cent of the population are native Russian speakers. At a time when analysts and commentators are unsure about Russia's future plans to intervene on behalf of their compatriots, this study provides a detailed political and cultural analysis of Russian-speaking identity in Latvia. By using Russian speakers in Latvia as a specific case study, this volume also offers a fresh methodological approach to the study of discourses and discursive strategies. It outlines a coherent methodology to study the evolution of discourses over time rather than a single de-contextualised and static time period. Drawing on media analysis, elite interviews, focus groups and survey data, this volume situates the identity strategies of Russian speakers within the transformations of the post-Soviet

era By assessing political cultural and economic links with their home state Latvia and their potential kin state Russia it offers important insights into the complex identity positions of Latvia s Russian speakers and how these positions have evolved in Latvia since the late Soviet period At a historical moment when many will question the loyalty of Russian speakers to their various host states this book provides a timely scholarly account of ethnic politics in Latvia It also offers a methodological framework that allows for the mapping of trends in discursive strategies exploring how they evolve through time

The Legacy Structure of Russia's One Hundred Year Transformation David Foley, 2018-11-16 Research and analysis of the post Soviet Russian experience of political economic and social change have generally focused attention on the complications and influences of the Soviet legacy on the transition process with most early main stream studies emphasizing the difficulties of the adoption of the institutions of democracy and a free market economy to the centralized command and control legacy structures carried over from that adjacent system to the more recent analyses that have attempted to explain why the Putinist hybrid authoritarian democracy emerged to take control of the Russian state The complex nature of the Russian experience of political social and economic change had yet to be explained as a long term legacy analysis until now with the linkages presented in this study of the legacies and structures that have defied attempts at reform by the Bolsheviks the Soviets and the modern Republicans The political geography of Russia represents a districting system that defines the people and places and represents an influential legacy structure that has had a long reach from the Russia of Imperialism to the Russia of Putinism and the twenty first century A clearer understanding of the influences the Imperial legacy brings to the Russian transformation enables the student of post Soviet Russian transition an opportunity to contextualize the strong linkages of historical governance structures with the one hundred years of Bolshevik and Soviet system capture and the struggles of transformation faced by the government and people of Russia today

The Russian Far East and Pacific Asia M. J. Bradshaw, 2013-07-04 This major study assesses prospects for economic recovery in the Russian Far East evaluating foreign trade and investment political and economic forces patterns of resource supply and needs in Pacific Asia and potential competitors It concludes that this unfulfilled potential has as much to do with conditions in Russia as the downturn caused by the Asian crisis
