Lacanian Theory of Discourse Mark Bracher,Marshall W. Alcorn,Ronald Corthell,Françoise Massardier-Kenney,1997-03 This collection introduces and develops Lacanian thought concerning the relations among language subjectivity and society Lacanian Theory of Discourse provides an account of how language both interacts with and constitutes structures of subjectivity producing specific attitudes and behaviors as well as significant social effects The

Four Lacanian Discourses Jeanne Lorraine Schroeder,2008-08-18 This book proposes a taxonomy of jurisprudence and legal practice based on the discourse theory of Jacques Lacan In the anglophone academy the positivist jurisprudence of H L A Hart provides the most influential account of law But just as positivism ignores the practice of law by lawyers even within the academy the majority of professors are also not pursuing Hart s positivist project Rather they are engaged in policy oriented scholarship that tries to explain law in terms of society s collective goals or in doctrinal legal scholarship that does not try to describe what law is or to supply justifications for it but which examines the internal logic of law Lacan s discourse theory has the power to differentiate the various roles of the practicing lawyer and the legal scholar It is also able to explain the striking lack of communication between diverse schools of legal scholarship and between legal academia and the legal profession Although extremely influential in Europe and South America Lacanian theory remains largely unexplored in the English speaking world outside of the field of comparative literature In taking up the jurisprudential ramifications of Lacan s work The Four Lacanian Discourses thus constitutes an original contribution to current theoretical and practical understandings of law

Philosophy and Psychoanalytic Theory Bert Olivier,2009 The essays brought together in this volume are written from the dual perspectives of philosophy and psychoanalytic theory Sometimes more weight is given to the one perspective than to the other and vice versa but always with the conviction that the rational argumentative and hermeneutic interpretive approach of philosophy requires the sobering influence of psychoanalytic theory s conception of the human being as a split subject prone to the laws of the unconscious no less than to those of reason Topics range from the question concerning the relation between discourse evil and the agency of the subject to that of the non relativistic ethical positioning of the psychotherapist from the problem of overcoming relativism by way of a poststructuralist understanding of language to that of a cogent Derridean philosophical response to global terrorism and from a Lacanian understanding of narrative identity of human knowledge as paranoiac and of trauma literature to a Kristevan perspective on nature as abject in the light of the degradation of ecosystems globally

The Resistant Object of Architecture Petra Čeferin, 2020-12-30 Architecture's role is becoming increasingly limited to serving the all-pervasive system of globalised capitalism and becoming a constituent complicit part of its mechanism *The Resistant Object of Architecture* addresses this problem and does so in a way that represents a marked departure from predominant responses which as the book shows do not address the core issue The book addresses this problem by focusing on the question what is architecture and responds to this question by developing the immanent structural logic of architecture that enables it to work not only as an instrumental

thinking practice but as a practice of creative thinking This means that it alone determines its issues problems and priorities and precisely because of that it has the capacity and cogency to destabilise indeed pierce holes in the system in which it operates The Resistant Object of Architecture draws on various theoretical sources from the psychoanalysis of Jacques Lacan and the philosophy of Alain Badiou to contemporary architectural theory In contrast to the predominant view of today it demonstrates that architecture has an affirmative transformative capacity This book is an ideal read for those interested in architectural theory and history analysis of contemporary architecture and philosophy of architecture **Research on**

Lacan and Michel Foucault are often cast as intellectual adversaries their legacies marked by differences in method lineages and analytical priorities Yet beneath their distinct projects lies a shared ambition to decenter the Western conception of the subject while critically engaging with the notion of subjectivity in post Kantian thought This book examines Foucault s critical project through the lens of Lacan s theory of the four discourses introduced in Seminar XVII The Other Side of Psychoanalysis 1969 70 Divided into two parts Reading Foucault through Lacan unfolds as a dialogue between the discourses of the Hysteric and the Analyst Part I The Hysteric reframes Foucault s genealogical critique from the early to mid 1970s as a form of hysterical questioning directed at Kant s transcendental legacy and its aftermath Through an exploration of how violence and embodied resistance interact in a discursive framework Part I uncovers the epistemological fractures that mark the modern subject Part II The Analyst examines Foucault s redefinition of Kantian critique as a historically situated engagement with the present Building on Lacan s claim that analytic experience begins with the hystericization of discourse this section views Foucault s re alignment with Kant as retroactively constituting the transformation from Hysteric to Analyst Addressing themes such as parrhesia transference and the ethics of speaking Part II examines discourse as a social link that transcends fixed identities to inhabit new modes of being Drawing on newly available English translations of Foucault s lectures and Lacan s seminars this book bridges two key trajectories in French thought and offers valuable insights for
