Lambs Farm Annual Benefit *Harvesting the Spirit*

Guests brought their country charm to the Harold Washington Library Winter Garden on November 9 to celebrate the remarkable men and women of Lambs Farm at our annual benefit, Harvesting the Spirit 2019.

During the event, guests enjoyed a gourmet dining experience and silent and live auctions. The auctions had one-of-a-kind trips, weekend getaways, handcrafted artwork and items that were made with a mission by Lambs Farm Participants.

Guests could also partake in the popular grub grab, wine toss

or step on the dance floor in hopes to win the gold coin during the heads or tails game.

Each year, a Participant is awarded the Living Legacy Award for embodying our Co-Founders' belief that given the opportunity, people with developmental disabilities could learn, grow and become contributing members of society.

Tom Durbin was chosen as this year's honoree for his outstanding achievements. Tom is known for being a hardworking employee, amazing athlete and great friend. He always strives to do his best and has far exceeded the expectations anyone has ever had for him.

On the Horizon of World Literature

Emily Sun,2021-04-06

On the Horizon of World Literature compares literary texts from asynchronous periods of incipient literary modernity in different parts of the world Romantic England and Republican China These moments were oriented alike by world literature as a discursive framework of classifications that connected and re organized local articulations of literary histories and literary modernities World literature thus provided and continues to provide a condition of possibility for conversation between cultures as well as for their mutual provincialization The book offers readings of a selection of literary forms that serve also as textual sites for the enactment of new socio political forms of life The literary manifesto the tale collection the familiar essay and the domestic novel function as testing grounds for questions of both literary aesthetic and socio political importance What does it mean to attain a voice What is a common reader How does one dwell in the ordinary What is a woman In different languages and activating heterogeneous literary and philosophical traditions works by Percy Bysshe Shelley Lu Xun Charles and Mary Lamb Lin Shu Zhou Zuoren Jane Austen and Eileen Chang explore the far from settled problem of what it means to be modern in different lifeworlds Sun s book brings to light the disciplinary historical impact world literature has had in shaping literary traditions and practices around the world The book renews the practice of close reading by offering the model of a deprovincialized close reading loosened from confinement within monocultural hermeneutic circles By means of its own focus on England and China the book provides methods useful for comparatists working between other Western and non Western languages It establishes the critical significance of Romanticism for the discipline of literary studies and opens up new paths of research in global Romanticism and global nineteenth century studies And it offers a new approach to analyzing the cosmopolitan character of the literary and cultural transformations of early twentieth century China *Textual*

Transformations in Children's Literature Benjamin Lefebvre,2013-01-04 This book offers new critical approaches for the study of adaptations abridgments translations parodies and mash ups that occur internationally in contemporary children s culture It follows recent shifts in adaptation studies that call for a move beyond fidelity criticism a paradigm that measures the success of an adaptation by the level of fidelity to the original text toward a methodology that considers the adaptation to be always already in conversation with the adapted text This book visits children s literature and culture in order to consider the generic pedagogical and ideological underpinnings that drive both the process and the product Focusing on novels as well as folktales films graphic novels and anime the authors consider the challenges inherent in transforming the work of authors such as William Shakespeare Charles Perrault L M Montgomery Laura Ingalls Wilder and A A Milne into new forms that are palatable for later audiences particularly when for perceived ideological or political reasons the textual transformation is not only unavoidable but entirely necessary Contributors consider the challenges inherent in transforming stories and characters from one type of text to another across genres languages and time offering a range of new models that will inform future scholarship *Adapting Canonical Texts in Children's Literature* Anja Müller,2013-02-14 Adaptations of

canonical texts have played an important role throughout the history of children's literature and have been seen as an active and vital contributing force in establishing a common ground for intercultural communication across generations and borders. This collection analyses different examples of adapting canonical texts in or for children's literature encompassing adaptations of English classics for children and young adult readers and intercultural adaptations of children's classics across Europe. The international contributors assess both historical and transcultural adaptation in relation to historically and regionally contingent concepts of childhood. By assessing how texts move across age-specific or national borders, they examine the traces of a common literary and cultural heritage in European children's literature. 1818-1834. Appendices:

Shakespeare in the Victorian Periodicals Kathryn Prince, 2011-02-11 Based on extensive archival research, *Shakespeare in the Victorian Periodicals* offers an entirely new perspective on popular Shakespeare reception by focusing on articles published in Victorian periodicals. Shakespeare had already reached the apex of British culture in the previous century, becoming the national poet of the middle and upper classes, but during the Victorian era he was embraced by more marginal groups. If Shakespeare was sometimes employed as an instrument of enculturation imposed on these groups, he was also used by them to resist this cultural hegemony.

Shakespeare for Young People Abigail Rokison-Woodall, 2015-01-01 The search to find engaging and inspiring ways to introduce children and young adults to Shakespeare has resulted in a rich variety of approaches to producing and adapting Shakespeare's plays and the stories and characters at their heart. *Shakespeare for Young People* is the only comprehensive overview of such productions and adaptations and engages with a wide range of genres, including both British and American examples. Abigail Rokison covers stage and screen productions, shortened versions, prose narratives, and picture books, including Manga animations and original novels. The book combines an informative guide to these interpretations of Shakespeare, discussed with critical analysis of their relative strengths. It also includes extensive interviews with directors, actors, and writers involved in the projects discussed.
