The Lambton Worm Joan Henderson,1989 **Durham** Martin Dufferwiel,2011-11-25 The historic City of Durham is now over 1 000 years old With its magnificent Norman Cathedral and Castle it has become a world famous tourist attraction the outstanding importance of which was recognised in 1987 when it was designated by UNESCO as a World Heritage site Martin Dufferwiel's book is a celebration of this unique City and of the Country that has grown up around it from the day in AD 995 when a group of monks carrying the coffin of St Cuthbert settled on what was then known as the Dunholm to the present time From the original site on the high wooded rock a settlement began to take shape It was one which would be swelled by pilgrims and made wealthy by their offerings and which would eventually become one of the most important sites of religious pilgrimage and military power in England Many events and people have throughout the last millennium lit up the long story of Durham in both fact and fable This book recalls some of them Wars saints kings and mythical beasts are all included in this tale of over 1 000 years as are surveyors locomotive engineers and miners It is all here from the long sagas of the Wars of the Roses and the English Civil War to the legendary Lambton Worm from Canute the Great Viking Emperor to murder most foul at Gutty Throat Farm and from the ravages of William the Conqueror to the bizarre plan to turn Durham City into a port Steam locomotives for the Tsar of Russia and Dixieland in the USA both had their origins here in Durham and both feature in this book Dragon Martin Arnold,2018-06-15 From the fire breathing beasts of North European myth and legend to the Book of Revelation's Great Red Dragon of Hell from those supernatural agencies of imperial authority in ancient China to the so called dragon women who threaten male authority dragons are a global phenomenon one that has troubled humanity for thousands of years These often scaly beasts take a wide variety of forms and meanings but there is one thing they all have in common our fear of their formidable power and as a consequence our need either to overcome appease or in some way assume that power as our own In this fiery cultural history Martin Arnold asks how these unifying impulses can be explained Are they owed to our need to impose order on chaos in the form of a dragon slaying hero Is it our terror of nature writ large unleashed in its most destructive form Or is the dragon nothing less than an expression of that greatest and most disturbing mystery of all our mortality Tracing the history of ideas about dragons from the earliest of times to Game of Thrones Arnold explores exactly what it might be that calls forth such creatures from the darkest corners of our collective imagination **The History of the Lambton Worm ...
