ENGLISH HISTORICAL REVIEW

This book aims to demonstrate how the crisis evident in British military aviation in the early years of the First World War was inherent in the entire development of aviation in the years preceding the conflict After outlining the work of the early pioneers and the growth of an aviation industry as a branch of armaments Dr Driver considers the objectives of the War Office in increasingly seeking to divert design development to their research establishment at Farnborough He shows how the resultant virtual state monopoly in design and procurement had disastrous consequences for aircraft innovation and development suffocating both competition and initiative and leading to the maintenance of inadequate aircraft by the Royal Flying Corps following the outbreak of war The continuing dispute and its culmination in the Fokker Scourge controversy of 1915 1916 graphically characterise the strained development of military industrial relations in this area

Dr HUGH DRIVER gained an MA in War Studies from King's College London and a D Phil in modern history at Oriel College Oxford

The Lanchester Legacy: 1895 to 1931 Chris S Clark, 1995 Volumes 1 and 2 are a history of the Lanchester automobile written by Chris Clark Volume 3 examines Frederick Lanchester's

contributions in engineering and science Royal Historical Society Annual Bibliography of British and Irish History Royal historical society (GB).,1998 The Royal Historical Society s Annual Bibliography of British and Irish History provides a comprehensive and authoritative survey of books and articles on historical topics published in a single calendar year The volume covers all periods of British and Irish history from Roman Britain to the late twentieth century and also includes a section on imperial and commonwealth history It is the most complete and up to date bibliography of its type and an indispensable tool for historians **The British National Bibliography** Arthur James Wells,2003 *On the Nonlinear Dynamics of Disc Brake Squeal* Nathan Michael Kinkaid,2004 **Birmingham** Carl Chinn,2003 This bibliography is an important contribution to the democratisation of Birmingham s history It brings together the knowledge and expertise of nineteen historians and other experts each of whom gives an overview of a major topic and a list of essential sources or a guide to collections of source materials Together they open up the city s past to researchers of all kinds BACK COVER A History of Aerodynamics John D. Anderson, Jr,1999-01-28 From the Foreword John Anderson s book represents a milestone in aviation literature For the first time aviation enthusiasts both specialists and popular readers alike possess an authoritative history of aerodynamic theory Not only is this study authoritative it is also highly readable and linked to the actual and more familiar story of how the airplane evolved The book touches on all the major theorists and their contributions and most important the historical context in which they worked to move the science of aerodynamics forward Von Hardesty Smithsonian Institution From the reviews Something of the unexpected quality of this book can be inferred from its full title A History of Aerodynamics and Its Impact on Flying Machines Pilots tend to suppose that the science of aerodynamics began empirically somewhere around the time of Lilienthal and the Wrights and that aerodynamics and manned flight are roughly coeval It is therefore surprising to come upon a photograph of the Wright Flyer as late as page 242 of the 478 page volume Peter Garrison Flying This book successfully straddles the boundary that separates a text book from a history book It is of equal interest to both the aerodynamicist and the layman The textual balance achieved by the author has resulted in a book that is enjoyable and educational Earl See American Aviation Historical Society Newsletter Clay Lancaster's Kentucky: Architectural Photographs of a Preservation Pioneer James D. Birchfield,2007 The Lancaster Bar ,1873 **The King, the Crown, and the Duchy of Lancaster** Helen Castor,2000-08-03 In 1399 Henry Bolingbroke duke of Lancaster seized the throne of England to become Henry IV From 1399 therefore the Lancastrian kings unlike their royal predecessors commanded not only the public authority of the crown but also the private power of the Duchy of Lancaster Until now this has been seen simply as an advantage to the Lancastrian crown and as an uncontroversial part of the evolution of a royal affinity during the later middle ages However this study makes clear that profound tensions existed between the role of the king and that of his alter ego the duke of Lancaster This book examines the complex relationship between the king the crown and the Duchy of Lancaster at both a national and a local level focusing particularly on the north midlands and East Anglia

and in so doing sheds light on the nature and functioning of the late medieval English monarchy
