Land Of The Maya:

LAND OF THE MAYA-SIDE 1 NATIONAL GEOGRAPHIC.,1989 **The Plundered Land of the Maya** Robert Reinhold,1973 **Governing Maya Communities and Lands in Belize** Laurie Kroshus Medina,2024-05-17 Confronting a debt crisis the Belizean government has strategized to maximize revenues from lands designated as state property privatizing lands for cash crop production and granting concessions for timber and oil extraction Meanwhile conservation NGOs have lobbied to establish protected areas on these lands to address a global biodiversity crisis They promoted ecotourism as a market based mechanism to fund both conservation and debt repayment ecotourism also became a mechanism for governing lands and people even state actors themselves through the market Mopan and Q'eqchi' Maya communities dispossessed of lands and livelihoods through these efforts pursued claims for Indigenous rights to their traditional lands through Inter American and Belizean judicial systems This book examines the interplay of conflicting forms of governance that emerged as these strategies intersected state performances of sovereignty over lands and people neoliberal rule through the market and Indigenous rights claiming which challenged both market logics and practices of sovereignty **Yucatan, Land of the Maya** Mexico. Dirección General de Turismo,1953 *Yucatán, the land of the Maya* Mexico. Dirección General de Turismo,1952 **Where the Sky Is Born** Karen Ross,Jeanine Kitchel,2004-09 The journey of Jeanine Kitchel and her husband as they traveled to the Yucatan in 1985 and a decade later left their Silicon Valley jobs to pursue a relaxed lifestyle in Puerto Morelos a small fishing village on the Quintana Roo Coast south of Cancun Journey to the Republic of Guatemala; Land of the Maya Kalman Dubov,2023-05-10 The Central American country of Guatemala was populated by the Maya people whose empire extended from Honduras to the south to today's southern Mexico Remnants of their presence are found throughout this region with monumental architecture cities palaces and great pyramids Wherever one looks the explosion of growth and development captures the viewer in its thrall Even the many glyphs adorning these sites with their unique writing style are a marvel to behold They lived here for an estimated two thousand years and then in the early 16th century the Spanish came and conquered these people By then their greatness had already ended in the midst of the 10th century when their culture and civilization collapsed But they retained their culture by way of thousands of pictographic books which detailed their way of life and their advancements But the Spaniards zealous in their Catholicism sought out and destroyed every such book they could find and burned them all Except for three such books known as the Maya Codices Historians and scholars began the slow process of deciphering the Maya past Great effort was expended and the reality of their lives culture kings wars and daily practice began to emerge And the world was astounded by the emerging picture Perhaps a first in the world was their mathematical calculation with zero a phenomenal achievement Interestingly the glyph of the zero depicted a woman what mathematical genius was she to use zero in calculations Their astronomy of the heavenly spheres was astoundingly precise as was their knowledge of geometry and trigonometry Their religion however

included human sacrifices following the practice of other nearby civilizations such as the Aztecs the Inca in South America and others The Spaniards stopped such worship and offerings and now subjugated these people into serfdom called *encomiendas* or enforced working for the conquistadors and their descendants Independence from Spain came in 1821 but the Mayan living conditions did not change The country became divided between the Spanish descendants now known as the *Criollos* the middle class known as *Ladinos* not to be confused with Jews in 9th century Castilian Spain and the Maya and other indigenous The social distance from the upper to lower classes was immense And that distance came forward during Guatemala's Civil War from 1960 to 1996 The violence and massacres during this period was so evil the president of the country Rios Montt was charged and convicted of Genocide the first time a country charged its own leader with this crime At a previous age and time the face of Guatemala presented immense achievements Today violence crime and cultural penury is self evident Guatemala is a third world country where the majority of its people live in great poverty while the upper class has the land its abundance and vast wealth

William Edmond Gates,1910 *The Americana* ,1923 *War in the Land of True Peace* Brent K. S. Woodfill,2019-05-23 For the ancient and modern Maya the landscape is ruled by powerful entities in the form of geographic features like caves mountains springs and abandoned cities spirits who must be entreated through visits and rituals for permission to plant harvest build or travel their territories Consequently such places have served as points of domination and resistance over the millennia and nowhere is this truer than in Guatemala's Northern Transversal Strip the subject of Brent K S Woodfill's *War in the Land of True Peace* This strategic region with its wealth of resources fertile soil petroleum and the only noncoastal salt in the Maya lowlands is the site of some of the most sacred Maya places and thus also the focus of some of the signal struggles for power in Maya history In *War in the Land of True Peace* Woodfill delves into archaeology epigraphy ethnohistory and ethnography to write the biographies of several of these places covering their histories from the rise of the Preclassic Maya through the spread of transnational corporations in our time Again and again the region known since Spanish conquest as

Vera Paz or True Peace has seen incursion by a foreign group including the great Maya cities of Tikal and Calakmul the Hapsburg Empire Guatemalan military dictatorships and contemporary corporations seeking to expand its power Each outsider intentionally or not used the Maya need for access to these places to ensure loyalty And each time local Maya pushed back to reclaim the sacred places for their own From early struggles to remove foreign influence to present day battles over land tenure and indigenous run ecotourism parks this book documents a continuity in Maya culture over several thousand years and illuminates the world view with its sense of personhood and religion so different from the West s that informs this enduring culture *Decolonizing Development* Joel Wainwright, 2011-07-22 Winner of the 2010 James M Blaut Award in recognition of innovative scholarship in cultural and political ecology Honors of the CAPE specialty group Cultural and Political Ecology *Decolonizing Development* investigates the ways colonialism shaped the modern world by analyzing the relationship between colonialism and development as forms of power Based on novel interpretations of postcolonial and Marxist theory and applied to original research data Amply supplemented with maps and illustrations An intriguing and invaluable resource for scholars of postcolonialism development geography and the Maya Religious Transformation in Maya Guatemala John P. Hawkins, 2021-05-01 Mayas and indeed all Guatemalans are currently experiencing the collapse of their way of life This collapse is disrupting ideologies symbols life practices and social structures that have undergirded their society for almost five hundred years and it is causing rapid and massive religious transformation among the K'iche' Maya living in highland western Guatemala Many Maya are converting to Christian Pentecostal faiths in which adherents and leaders become bodily agitated during worship Drawing on over fifty years of research and data collected by field school students Hawkins argues that two factors cultural collapse and systematic social and economic exclusion explain the recent religious transformation of Maya Guatemala and the style and emotional intensity through which that transformation is expressed Guatemala serves as a window on religious change around the world and Hawkins examines the rapid pentecostalization of Christianity not only within Guatemala but also throughout the global South The pentecostal wail as he describes it is ultimately an acknowledgment of the angst and insecurity of contemporary Maya **Commentary Upon the Maya-Tzental Perez Codex** Carl Eugen Guthe, Philip Ainsworth Means, William Gates, 1910 **An Introduction to the Study of the Maya Hieroglyphics** Sylvanus Griswold Morley, 1915 **Reparations for Indigenous Peoples** Federico Lenzerini, 2008-01-24 Published in concomitance with the adoption of the United Nations Declaration on the Rights of Indigenous Peoples this volume brings together a group of renowned legal experts and activists from different parts of the world who from international and comparative perspectives investigate the right of indigenous peoples to reparation for breaches of their individual and collective rights The first part of the book is devoted to general aspects of this important matter providing a comprehensive assessment of the relevant international legal framework and including overviews of the topic of reparations for human rights violations the status of indigenous peoples in international law and the vision of

reparations as conceived by the communities concerned The second part embraces a comprehensive investigation of the relevant practice at the international regional and national level examining the best practices of reparations according to the ideologies and expectations of indigenous peoples and offering a comparative perspective on the ways in which the right of these peoples to redress for the injuries suffered is realized worldwide The global picture painted by these contributions provides a view of the status of relevant international law that is synthesized in the two final chapters of the book which include a concrete example of how a judicial claim for reparation is to be structured and prescribes the best practices and strategies to be adopted in order to maximize the opportunities for indigenous peoples to obtain effective redress As a whole this volume offers a comprehensive vision of its subject matter in international and comparative law with a practical approach aimed at supporting legal academics administrators and practitioners in improving the avenues and modalities of reparations for indigenous peoples

Ethnoecology Ted L. Gragson, Ben G. Blount, 1999 Scholars studying the ecology of specific areas often fail to take into account the presence of humans in those environments People not only are fundamental components of an ecosystem but possess a unique understanding of its nature This book examines subjects ranging from pastoralism to the use of medicinal plants to show that understanding the knowledge system of any people is essential to understanding their relation to their environment Using cases from the American Southwest and Pacific Northwest the Highland Maya Region of Central America and the Lowland and Andean regions of South America the contributors examine the relation of humans and environment within the context of each local system s beliefs values and knowledge All emphasize the practical and cultural significance of indigenous knowledge of the environment and the importance of comparing this knowledge to scientific understanding prior to initiating development or conservation programs They also contribute to a theoretical approach that allows findings to be applied across studies regardless of ethnographic differences
