## Land Girls Film Tie In:

*Land Girls (Film Tie-in) B Special* Angela Huth, 1998-11      *Girl Head* Genevieve Yue, 2020-11-10 *Girl Head* shows how gender has had a surprising and persistent role in film production processes well before the image ever appears onscreen. For decades feminist film criticism has focused on issues of representation images of women in film. But what are the feminist implications of the material object underlying that image the filmstrip itself? What does feminist analysis have to offer in understanding the film image before it enters the realm of representation? *Girl Head* explores how gender and sexual difference have been deeply embedded within film materiality. In rich archival and technical detail Yue examines three sites of technical film production the film laboratory editing practices and the film archive. Within each site she locates a common motif the vanishing female body which is transformed into material to be used in the making of a film. The book develops a theory of gender and film materiality through readings of narrative film early cinema experimental film and moving image art. This original work of feminist media history shows how gender has had a persistent role in film production processes well before the image ever appears onscreen.      *Dressing for Austerity* Geraldine Biddle-Perry, 2017-04-30 A new look for Austerity. The coldest winter on record rationing successive economic crises bombed out towns and cities with some justification. Austerity Britain in the late 1940s is coloured in the popular imagination in tones of drab. *Dressing for Austerity* shines a light on alternative visions of post war optimism and aspiration. It traces how set against the Labour government's philosophy of Austerity by design in a climate of post war idealism the desire for affordable fashionable clothing access to leisure and the health time and money to enjoy them became totemic symbols of post war ambition that impelled new strategies of state control and consumer agency. The book examines the immediate post war period its politics its fashions and its people in new ways and on its own terms as a critical tipping point in the making of modern Britain.      **D. H. Lawrence: Triumph to Exile 1912-1922: Volume 2** Mark Kinkead-Weekes, 2011-11-24 This second volume of the acclaimed Cambridge Biography of D. H. Lawrence covers the years 1912-22 the period in which Lawrence forged his reputation as one of the greatest and most controversial writers of the twentieth century. During this period Lawrence produced the trio of novels with which he was to revolutionise English fiction over the next decade. It was a painful process. *Sons and Lovers* was crudely cut by its publisher. *The Rainbow* was destroyed by court order and *Women in Love* took almost three years to find a publisher. This 1996 biography tells the writing life too tracing the illuminating relations between man and manuscript without confusing life and art. Drawing on previously unseen information from the Cambridge Editions of the Letters and Works and original research fresh light is shed on questions of Lawrence's sexuality health quarrels and friendships which have been more often gossiped or theorised about than scrupulously examined.      D.H. Lawrence John Worthen, Mark Kinkead-Weekes, David Ellis, 1991      *The Words and Music of Bruce Springsteen* Rob Kirkpatrick, 2006-12-30 Bruce Springsteen's career has been covered many times over yet many of the complexities and apparent contradictions of

*Hollywood's African American Films* Ryan Jay Friedman, 2011 In 1929 and 1930 during the Hollywood studios conversion to synchronized sound film production white controlled trade magazines and African American newspapers celebrated a vogue for Negro films Hollywood's African American Films argues that the movie business turned to black musical performance to both resolve technological and aesthetic problems introduced by the medium of talking pictures and at the same time to appeal to the white Broadway audience that patronized their most lucrative first run theaters Capitalizing on highbrow associations with white slumming in African American cabarets and on the cultural linkage between popular black musical styles and natural acoustics studios produced a series of African American cast and white cast films featuring African American sequences Ryan Jay Friedman asserts that these transitional films reflect contradictions within prevailing

racial ideologies arising most clearly in the movies treatment of African American characters decisions to migrate Regardless of how the films represent these choices they all prompt elaborate visual and narrative structures of containment that tend to highlight rather than suppress historical tensions surrounding African American social mobility Jim Crow codes and white exploitation of black labor

**Farmer and Stock-breeder** ,1942 Cultural Pedagogies and Human Conduct Megan Watkins,Greg Noble,Catherine Driscoll,2015-03-24 Pedagogy is often glossed as the art and science of teaching but this focus typically ties it to the instructional practices of formalised schooling Like the emerging work on public pedagogies the notion of cultural pedagogies signals the importance of the pedagogic in realms other than institutionalised education but goes beyond the notion of public pedagogies in two ways it includes spaces which are not so public and it includes an emphasis on material and non human actors This collection foregrounds this broader understanding of pedagogy by framing enquiry through a series of questions and across a range of settings How for example are the processes of teaching and learning realised within and across the pedagogic processes specific to various social sites What ensembles of people things and practices are brought together in specific institutional and everyday settings to accomplish these processes This collection brings together researchers whose work across the interdisciplinary nexus of cultural studies sociology media studies education and museology offers significant insights into these cultural pedagogies the practices and relations through which cumulative changes in how we act feel and think occur *Cultural Pedagogies and Human Conduct* opens up debate across disciplines theoretical perspectives and empirical foci to explore both what is pedagogical about culture and what is cultural about pedagogy
