**Century Monthly Magazine** Josiah Gilbert Holland, Richard Watson Gilder, 1915 *At Smith's House* Jay Trott, 2007-07-01 Are meaning and purpose still possible in life The age of philosophy and its pursuit of the good of happiness came to an end with nihilism The philosophers equated the good with intellect which led to divided descriptions of this value Philosophy is divided by divided loves Plato's love of pure intellect and Aristotle's love of nature and constructs of value which is why it led to nihilism in the end But it is possible to go beyond the ravages of nihilism by setting aside these divided loves for the sake of love itself the power that makes itself known through the desirability of life At Smith's House examines the possibilities of love itself in twelve informal entertaining conversations between two old friends It begins by dissecting the divided concepts of value produced by philosophy and its infatuation with intellect Then it describes the difference between love itself and the divided loves seen in philosophy as well as in institutional doctrine Finally it discusses the restoration of unity to the church and goodness to culture through the formulation *Deus caritas est* which provides a means of going beyond nihilism and the demise of philosophy Conversations with Stanley Kauffmann Stanley Kauffmann, 2003 This collection of interviews with Stanley Kauffmann b 1916 provides a virtual history of the journalistic practice of criticism in twentieth century America His creative life spans seven decades and since 1958 he has been a film and drama critic for the New Republic the New York Times and Saturday Review He also has been an actor stage manager playwright novelist and editor Along with Dwight Macdonald Andrew Sarris and John Simon he is one of the potent influential critics included in the New York school of twentieth century American criticism The Los Angeles Times called him the Dean Swift of our country's criticism Susan Sontag proclaimed him one of our national treasures In this collection of interviews conducted by Charlie

Rose Dick Cavett and others he speaks both of the role of theater and film criticism in American culture and of the crisis he perceives within it With wit and erudition Kauffmann discusses many subjects film directors who emerged during his long tenure at the New Republic e g Martin Scorsese and Federico Fellini actors who performed on both stage and screen novels and their film adaptations and the fractious relationship between Hollywood and the independent film movement The precision and concise phrasing of Kauffmann s writing chime also in his brilliant conversations as he speaks of sex taste realism the rise of film festival culture and government subsidy of the arts The volume ends with a conversation from 1998 in celebration of Kauffmann s forty year tenure at the New Republic where he continues to publish film reviews every week The collection reveals this critic s sense of cultural mission by showing how Kauffmann applies to drama and film the same high standards he applies to fiction poetry music and theater Conversations with Stanley Kauffmann reveals that this love of the arts is expressed in his finely honed gift for cogent witty wise commentary Bert Cardullo a professor of theater and drama at the University of Michigan has written and edited several books on film and theater and has been published in the Hudson Review the New Republic Literature Film Quarterly South Atlantic Quarterly and other publications Writing of Today John William Cunliffe, Gerhard Richard Lomer, 1915 The Book of Carlotta Arnold Bennett, 1911 Book Review Digest, 1927

**The Genius of George Bernard Shaw** Samiran Kumar Paul, 2020-11-28 The Genius of George Bernard Shaw is a criticism of George Bernard Shaw s work that explores his art aesthetics philosophy and revolutionary ideas Shaw wrote his plays raising and dealing with the problems of individuals families society nations and the world It is occasionally stated that Shaw s support for totalitarianism grew out of his frustration with nineteenth century liberalism which ineffectually culminated in a disastrous world war Yet close analysis to two of Shaw s Major Critical Essays from the 1890s shows that even then Shaw expressed a desire for a ruthless man of action unencumbered by the burden of conscience to come on the scene and establish a new world order to initiate the utopian epoch Indeed further analysis of a number of plays from before the war shows the impulse to be persistent and undeniable Shaw hated disorder and he wanted to see society managed efficiently by a small caste of technocratic experts who were at the same time in Karl Popper s memorable phrase utopian social engineers He had very little confidence in the average man and woman who could not work mentally at the same speed as the Fabian executive committee his ideal of what a ruling caste would look like Shaw s ideal society what I am calling his utopian vision resembles Plato s ideal city or Comte s Religion of Humanity more than any society that has presumably ever existed on earth This need for absolute order and control found many means of expression in both his life and work and was intricately bound up with his longing for perfection This book is useful for world teachers students and research scholars in English in schools colleges universities all over the world *The Making of Yeats s A Vision* George Mills Harper, 1987-06-18

**Imagining Autism** Sonya Freeman Loftis, 2015-12-01 A disorder that is only just beginning to find a place in disability studies and activism autism remains in large part a mystery giving rise to both fear and fascination Sonya Freeman Loftis s

groundbreaking study examines literary representations of autism or autistic behavior to discover what impact they have had on cultural stereotypes autistic culture and the identity politics of autism *Imagining Autism* looks at fictional characters and an author or two widely understood as autistic ranging from Conan Doyle's Sherlock Holmes and Harper Lee's Boo Radley to Mark Haddon's boy detective Christopher Boone and Steig Larsson's Lisbeth Salander The silent figure trapped inside himself the savant made famous by his other worldly intellect the brilliant detective linked to the criminal mastermind by their common neurology these characters become protean symbols stand ins for the chaotic forces of inspiration contagion and disorder They are also part of the imagined lives of the autistic argues Loftis sometimes for good sometimes threatening to undermine self identity and the activism of the autistic community
