Garland Of Letters:

The Garland of Letters John George Woodroffe, Sir John George Woodroffe, 1922 **The Garland of Letters** Sir John George Woodroffe, 1955 **The Garland of Letters** John George Woodroffe, Sir, 2017-08-31 THIS book is an attempt now made for the first time to explain to an English knowing reader an undoubtedly difficult subject I am therefore forcibly reminded of the saying Veda fears the man of little knowledge since injury may be received from him It is natural given this difficulty and the mystery which surrounds the subject that strangers to India should have failed to understand Mantra They need not however have then as some have done jumped to the conclusion that it was meaningless superstition This is the familiar argument of the lower mind which says what I cannot understand can have no sense at all Mantra is it is true meaningless to those who do not know its meaning But there are others who do and to them it is not superstition It is because some English educated Indians are as uninstructed in the matter as that rather common type of Western to whose mental outlook and opinions they mould their own that it was possible to find a distinguished member of this class describing Mantra as meaningless jabber The Garland of Letters: Studies in the Mantra-Sastra Sir John George Woodroffe, 2001-12 His Books like Serpent Power Sakti And Sakta etc have helped the Readers to gain excellent knowledge on the generally difficult to interpret subject of Tanta Sastra In line with the other classics the Author in the present Book has in great detail explained the significance of the Letters in the context of the Tantra knowledge Thus it becomes a must for the student of Tantra Vidya The Garland of Letters John George Woodroffe, 2011-10-01 Bede Griffiths Judson B. Trapnell, 2001-02-22 Explores the work of spiritual leader and writer Bede Griffiths who envisioned a union of Eastern and Western spirituality

The Garland of Letters, Varnamâlâ. Studies in the Mantra-Shâstra. Sir John George Woodroffe, 1951 **Sonic Theology** Guy L. Beck, 1995-01-01 Welcome to Your Designer Planet! Richard Leviton, 2007-09-05 We now live in the time of the Gaian hierophant This is the one who reveals and shows us how to relate to the sacred aspects of Gaia our planet Who is this hierophant Each of us when we join the campaign with Gaia against the desecration of our natural environment But first we have to discover what the Earth really is The Earth s thousands of sacred sites hold a secret they are functional parts of the planet s geomantic body consciousness nodes in the Earth s subtle body Each veils a Light temple each once known widely and remembered in myth and Welcome to Your Designer Planet documents 165 different kinds The Earth is not an accident of the cosmos but was designed specifically for humans as an extended Mystery temple primed to support and enhance our greater awareness And the designers intended that humans help maintain it Want to help the ecosystem and modulate global warming and climate change Plug yourself into the Earth s Light grid through your nearest sacred site and start helping Earth Mysteries researcher Richard Leviton presents a working model of the Earth s geomantic reality based on 24 years of research The world s myths are the doorway into this fantastic domain of the Earth s visionary geography showing us where to go and what to do and even what kinds of spiritual beings to expect to see The future of the Earth is in

our hands Here are some pages from its design manual showing us how to fine tune our wonderful host planet **Layayoga** Shyam Sundar Goswami,1999-05-01 The most comprehensive guide to chakra meditation and the ancient spiritual science of layayoga ever created One of the great works on yoga available for the first time in the United States Full color plates illustrate each chakra With the growing interest in energy medicine in the West the ancient Hindu tradition of chakra meditation has become increasingly important to both healers and spiritual seekers While new to us the chakras have long been studied in the East with the spiritual science of layayoga having the profoundest knowledge of these energy centers The fundamental aspect of layayoga is the arousing of dormant energy within the body through concentration and breathing exercises and the movement of this energy through the chakras to achieve supreme consciousness Unlike kundalini yoga which starts with the lower chakras and moves energy upward layayoga meditation starts with the Sahasrara the spiritual chakra that crowns the aura and brings energy down to spiritualize each chakra in turn Layayoga has long been viewed as the most comprehensive and deeply researched examination of the chakras available in the West Its detailed illustrated look at each of the chakras and the various meditations and mantras that go with them makes it a must for serious students of yoga

Sir John Woodroffe, Tantra and Bengal Kathleen Taylor,2012-10-12 Working with Bengali mentors especially his close friend A B Ghose Sir John Woodroffe became the pseudonymous orientalist Arthur Avalon famous for his tantric studies at the beginning of the twentieth century Best known for The Serpent Power the book which introduced Kundalini Yoga to the western world Avalon turned the image of Tantra around from that of a despised magical and orgiastic cult into a refined philosophy which greatly enhanced the prestige of Hindu thought to later generations of westerners This biographical study is in two parts The first focuses on Woodroffe s social identity in Calcutta against the background of colonialism and nationalism the context in which he was Arthur Avalon To a very unusual degree for someone with a high position under the empire Woodroffe the British High Court Judge absorbed the world of the Bengali intellectuals of his time among whom his popularity was widely attested His admirers were attracted by his Indian nationalism to which his tantric studies and supposed learning formed an important adjunct Woodroffe s friend Ghose however was the chief source of the textual knowledge in which the orientalist scholar appeared to be deeply versed The second part of this study assesses Woodroffe s own relationship to Sanskrit and to the texts and highlights his very extensive but gifted use of secondary sources and the knowledge of Ghose and other Indian people It examines the apologetic themes by which he and his collaborators made Tantra first acceptable then fashionable Partly because of his mysterious pseudonym Woodroffe acquired a near legendary status for a time and remains a fascinating figure This book is written in a style that should appeal to the general reader as well as to students of Indian religions and early twentieth century Indian history while being relevant to the ongoing debate about orientalism
