The First Smithsonian Collection Helena E. Wright, 2015-04-28 Outstanding Academic Title Choice 2015 Winner Ewell Newman Award of the American Historical Print Collectors Society 2016 In 1849 the Smithsonian purchased the Marsh Collection of European engravings Not only the first collection of any kind to be acquired by the new Institution it was also the first public print collection in the nation and it presented an important symbol of cultural authority The prints formed part of the library of Vermont Congressman George Perkins Marsh 1801 1882 a member of the Smithsonian s Board of Regents The uncertainty of the Smithsonian s mission in the early years complicated its motivation for purchasing the collection especially given Marsh s position as a Regent in financial difficulty After a serious fire in 1865 portions of the collection were deposited at the Library of Congress and the Corcoran Gallery of Art Efforts to reclaim it began in the 1880s as a new generation of Smithsonian staff expanded the National Museum but they achieved only mixed success Through the story of the Marsh Collection the book explores the cultural values attributed to prints in the 19th century including their prominent role in expositions and their influence on visual culture at a time when collecting styles were moving from an individual s private contemplation of artworks to wider public venues of exposition in museums and reception by multiple audiences The history of this first Smithsonian collection enlivens an important stage in the development of American cultural identity and in the formation of the Smithsonian as a national institution *Catalogue* Princeton University, 1917

Longing for the Lost Caliphate Mona Hassan, 2018-08-14 In the United States and Europe the word caliphate has conjured historically romantic and increasingly pernicious associations Yet the caliphate s significance in Islamic history and Muslim culture remains poorly understood This book explores the myriad meanings of the caliphate for Muslims around the world through the analytical lens of two key moments of loss in the thirteenth and twentieth centuries Through extensive primary source research Mona Hassan explores the rich constellation of interpretations created by religious scholars historians musicians statesmen poets and intellectuals Hassan fills a scholarly gap regarding Muslim reactions to the destruction of the Abbasid caliphate in Baghdad in 1258 and challenges the notion that the Mongol onslaught signaled an end to the critical engagement of Muslim jurists and intellectuals with the idea of an Islamic caliphate She also situates Muslim responses to the dramatic abolition of the Ottoman caliphate in 1924 as part of a longer trajectory of transregional cultural memory revealing commonalities and differences in how modern Muslims have creatively interpreted and reinterpreted their heritage Hassan examines how poignant memories of the lost caliphate have been evoked in Muslim culture law and politics similar to the losses and repercussions experienced by other religious communities including the destruction of the Second Temple for Jews and the fall of Rome for Christians A global history *Longing for the Lost Caliphate*

delves into why the caliphate has been so important to Muslims in vastly different eras and places Emancipation, the Union Army, and the Reelection of Abraham Lincoln Jonathan W. White, 2014-06-09 The Union army's overwhelming vote for Abraham Lincoln's reelection in 1864 has led many Civil War scholars to conclude that the soldiers supported the Republican Party and its effort to abolish slavery In Emancipation the Union Army and the Reelection of Abraham Lincoln Jonathan W White challenges this reigning paradigm in Civil War historiography arguing instead that the soldier vote in the presidential election of 1864 is not a reliable index of the army's ideological motivation or political sentiment Although 78 percent of the soldiers' votes were cast for Lincoln White contends that this was not wholly due to a political or social conversion to the Republican Party Rather he argues historians have ignored mitigating factors such as voter turnout intimidation at the polls and how soldiers voted in nonpresidential elections in 1864 While recognizing that many soldiers changed their views on slavery and emancipation during the war White suggests that a considerable number still rejected the Republican platform and that many who voted for Lincoln disagreed with his views on slavery He likewise explains that many northerners considered a vote for the Democratic ticket as treasonous and an admission of defeat Using previously untapped court martial records from the National Archives as well as manuscript collections from across the country White convincingly revises many commonly held assumptions about the Civil War era and provides a deeper understanding of the Union Army
