Gautier The Romantics:

The Myth and Identity of the Romantic Artist in European Literature Elena Anastasaki, 2022-08-04 This study addresses the question of artistic identity and the myth of the artist as it has been shaped by the artists themselves While the term artist is to be understood in a broad sense the focus of this study is the literature of the Romantic tradition Identity is largely perceived as a construct and a central hypothesis of this book concerns its aesthetic value and the ways it creates dominant narratives of self perception that produce powerful myths The construction of the artist s identity be it collective or personal rests on a series of aesthetic praxes Caught between the mythic idealisation of poetic genius and its social devaluation the Romantic artist seeks to create a place for himself and in doing so he engages in his own mythmaking This process is studied in an interdisciplinary perspective approaching texts and writers from different traditions The study analyses various typologies of the artist numerous mythmaking strategies as well as several postural techniques all of which have sketched major direct or indirect fictional self portraits in the European tradition *Encyclopedia of the Romantic Era, 1760-1850* Christopher John Murray, 2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism The Romantic Predicament Geoffrey Thurley, 1983-06-18 *The Cambridge History of European Romantic Literature* Patrick Vincent, 2023-11-09 This wide ranging new history of European Romantic Literature presents a pan European phenomenon which transcended national borders and contributed to a new sense of European cultural identity across the continent Conceived in the same spirit as Madame de Sta l s cultural and political agenda at a time when her generous idea of Europe is being challenged on all sides the volume pays close attention to the period s circulation of people ideas and texts It proposes to rethink the period comparatively focusing on various forms of cultural mediation and transfer and on productive tensions synchronicities and interactions within and across borders Organized chronologically its twenty chapters address over five hundred works proposing a coherent historical narrative without completely erasing individual nations specificities By showcasing in particular the place of Britain within continental culture the volume hopes to reactivate critical examinations of Romanticism from a historicised European perspective *Dante and the French Romantics* Michael Pitwood, 1985 Periods of European Literature: The romantic triumph Thomas Stewart Omond, 1923 Our Ladies of Darkness Joseph Andriano, 2010-11-01 **A History of the Romantic Movement in Spain** E. Allison Peers, 2013-11-14 Originally published in 1940 as the first part of a two volume study this book examines the Romantic Movement in Spain from its roots in the Spanish Golden Age during the sixteenth and seventeenth centuries to the Romantic revival in the nineteenth

century and the ensuing conflict between Classicists and Romanticists which abated after 1837 Peers looks at key texts in the history of the Romantic style as well as external influences on Spanish style in this period of literary upheaval This book will be of value to anyone with an interest in the history of Spanish literature or the Romantic Period *Iran and French Orientalism* Julia Caterina Hartley, 2023-12-28 New translations of Persian literature into French the invention of the Aryan myth increased travel between France and Iran and the unveiling of artefacts from ancient Susa at the Louvre Museum are among the factors that radically altered France's perception of Iran during the long nineteenth century And this is reflected in the literary culture of the period In an ambitious study spanning poetry historiography fiction travel writing ballet opera and marionette theatre Julia Hartley reveals the unique place that Iran held in the French literary imagination between 1829 and 1912 Iran's history and culture remained a constant source of inspiration across different generations and artistic movements from the Oriental poems of Victor Hugo to those of Anna de Noailles and Thophile Gautier's strategic citation of Persian poetry to his daughter Judith Gautier's full blown rewriting of a Persian epic Writing about Iran could also serve to articulate new visions of world history and religion as was the case in the intellectual debates that took place between Michelet Renan and Al Afghani Alternatively joyous as in Flicien David's opera *Lalla Roukh* and ominous as in Massenet's *Le Mage* Iran elicited a multiplicity of treatments This is most obvious in the travelogues of Flandin Gobineau Loti Jane Dieulafoy and Marthe Bibesco which describe the same cities and cultural practices in altogether different ways Under these writers pens Iran emerges as both an Oriental other and an alter ego its culture elevated above that of all other Muslim nations At times this led French writers to critique notions of European superiority But at others they appropriated Iran as proto European through racist narratives that reinforced Orientalist stereotypes Drawing on theories of Orientalism and cultural difference this book navigates both sides of this fascinating and complex literary history It is the first major study on the subject

Pleasure Wars Peter Gay, 1998 Whereas *Education of the Senses* focused on the sexual attitudes and practices of the nineteenth century Bourgeoisie *The Tender Passion* concentrates on their notions of love No less revisionist than he was in his first volume Gay argues here that the Victorians were able not only to enjoy their sexuality but to know love in its most exalted sense The realities of love for the Victorians he shows came much closer to their ideals than many have thought Gay delves into a huge body of material from philosophical treatises to medical texts from letters and diaries to works of fiction The book is replete with fascinating insights into the lives and works of individual Victorians Dickens Stendhal Wagner Oscar Wilde Beatrice Potter and Sydney Webb among them and his discussions range from the discovery of homosexuality to the ways love was diverted or disguised in music and religion

Pleasure Wars: The Bourgeois Experience Victoria to Freud Peter Gay, 1998-01-17 A master historian shows us a new side of the Victorian Era the role of the Bourgeois as reactionaries revolutionaries and middle of the roaders in the passage of high culture toward modernism The Victorians in this richly peopled narrative maneuvered through decades marked by frequent shifts in taste some seeking

safety in traditional styles others drawn to the avant garde of artists composers and writers Peter Gay's panoramic survey offers a fresh view of the ideas and sensibilities that dominated Victorian culture **The Romantic Movement** ,1972

The Romantic school in France Georg Brandes,1904 **French Romantic Travel Writing** Christopher W.

Thompson,2012 A pioneering overview of the travel books produced by fourteen French Romantic writers including Chateaubriand Stendhal Hugo Nerval Sand Mrim e Dumas and Tristan whose journeys ranged from Peru to Russia and from North America to North Africa and the Near East **The Nation** ,1874 *The Right to Difference* Maurice

Samuels,2016-11-02 A noted critic explores the legacy of Jews in France and what it means for today's French minority communities in a beautifully written accessible book Journal of Modern History Universal equality is a treasured political concept in France but recent anxiety over the country's Muslim minority has led to a new conception of universalism one promoting loyalty to the nation above all ethnic and religious affiliations This timely book offers a fresh perspective on the debate by showing that French equality has not always demanded an erasure of differences Through close and contextualized readings of the way that major novelists philosophers filmmakers and political figures have struggled with the question of integrating Jews into French society Maurice Samuels draws lessons about how the French have often understood the universal in relation to the particular Samuels demonstrates that Jewish difference has always been essential to the elaboration of French universalism whether as its foil or as proof of its reach He traces the development of this discourse through key moments in French history from debates over granting Jews civil rights during the Revolution through the Dreyfus Affair and Vichy and up to the rise of a new antisemitism in recent years By recovering the forgotten history of a more open pluralistic French culture Samuels points toward new ways of moving beyond current ethnic and religious dilemmas and argues for a more inclusive view of what constitutes political discourse in France **Romantic Prose Fiction**

Gerald Ernest Paul Gillespie,Manfred Engel,Bernard Dieterle,2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed

and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age Théophile Gautier's España Kathleen Koestler,2002 *A History of English Romanticism in the Nineteenth Century* Henry Augustin Beers,1901 **The United States Catalog** Mary Burnham,Carol Hurd,1928
