Gate Of Gods Three Of The Fall Of Ile Rein:

The Gate of Gods Martha Wells, 2009-10-13 Tremaine Valiarde and a small brave band of heroes ventured into a wondrous new realm on their desperate mission to save Ile Rien from the conquering Gardier. Now as a relentless enemy creates chaos and destruction with the fate of the magical city of Lodun hanging in the balance, the last hope of a land besieged may rest on the far side of a secret portal. But the doorway leads to a mysterious ruin hidden behind the awesome Gate of Gods and to perils that dwarf anything Tremaine and her allies could have possibly imagined. [The Ships of Air](#) Martha Wells, 2009-10-13 Known for her lush intricate worlds and complex characters, acclaimed author Martha Wells has delighted readers with her extraordinary fantasy novels of daring and wit. With *The Wizard Hunters*, she launched her most ambitious undertaking yet: the return to the beloved world of the Nebula Award-nominated *The Death of the Necromancer* and *The Fall of Ile Rien*. Now the saga continues in a triumph of suspense and imagination. Despite a valiant struggle against superior forces, the country of Ile Rien has fallen to the onslaught of the relentless Gardier, a faceless army of sorcerers determined to conquer all civilization. To save the remnants of her country, former playwright Tremaine Valiarde undertakes an epic journey to stop the Gardier. Rescuing the proud ship *Queen Ravenna* from destruction, Tremaine and a resolute band of sorcerers and warriors set sail across magical seas on a voyage of danger and discovery. For the secret to defeating the enemy and to rescuing the world from the Gardier's inimitable hatred lies far beyond the walls of the world, and only the tenuous ties of friendship and honor will keep the band together. But the Gardier are not the only evil in this tumultuous world, and an ancient terror stalks the ornate rooms and shadowy decks of the *Queen Ravenna*, a force so malevolent and enigmatic that even the growing power of the sorcerer's sphere may not be enough to save Ile Rien from utter ruin. [The Emilie Adventures](#) Martha Wells, 2025-05-13 Two novel-length steampunk adventures from the author of the wildly successful *Murderbot Diaries*. Together in one volume for the first time, *Emilie* and *the Hollow World*. Running away from home and stowing away on the wrong ship, Emilie embarks on a fantastic adventure. Emilie learns that the crew hopes to use an experimental engine to journey to the interior of the planet, but when the ship becomes damaged on arrival, evidence points to sabotage. They encounter the treacherous Lord Ivers along with a strange new race. Can Emilie and her new found friends possibly reach the surface world again? *Emilie and the Sky World*. When Emilie arrives in Silk Harbor, Professor Abindon, an old colleague of her friend Lady Marlende, warns them of something strange and potentially deadly in the sky: a disruption in an upper-air aether current. On further investigation, they realize it's a ship from another aetheric plane. How to determine if it's a friendly explorer or something far more sinister? Nothing less than a journey into the dangerous air currents will do. Join Emilie as she navigates the strange landscapes of the upper air and the deadly menace that inhabits the Sky World.
