Handbook on Child Poverty and Inequality Alberto Minujin, Enrique Delamonica, 2025-07-15 This Handbook provides a comprehensive overview of the conceptualisation and the latest developments in research about child poverty and inequality. Adopting a child rights framework it demonstrates the importance of a multi dimensional understanding of poverty specific to children for both research and policy making.

The 'Poor Child' Lucy Hopkins, Arathi Sriprakash, 2015-07-16 Why are development discourses of the poor child in need of radical revision? What are the theoretical and methodological challenges and possibilities for ethical understandings of childhoods and poverty? The poor child at the centre of development activity is often measured against and reformed towards an idealised and globalised child subject. This book examines why such normative discourses of childhood are in need of radical revision and explores how development research and practice can work to unsettle the global child. It engages the cultural politics of childhood, a politics of equality, identity and representation as a methodological and theoretical orientation to rethink the relationships between education, development and poverty in children's lives. This book brings multiple disciplinary perspectives including cultural studies, sociology and film studies into conversation with development studies and development education in order to provide new ways of approaching and conceptualising the poor child. The researchers draw on a range of methodological frames such as poststructuralist discourse analysis, arts based research, ethnographic studies and textual analysis to unpack the hidden assumptions about children within development discourses. Chapters in this book reveal the diverse ways in which the notion of childhood is understood and enacted in a range of national settings including Kenya, India, Mexico and the United Kingdom. They explore the complex constitution of children's lives through cultural policy and educational practices. The volume's focus on children's experiences and voices shows how children themselves are challenging the representation and material conditions of their lives. *The Poor Child* will be of particular interest to postgraduate students and scholars working in the fields of childhood studies, international and comparative education and development studies.

Department for Work and Pensions,2008 This Green Paper was a wide ranging consultation on the future of welfare It set out plans for improving support and work incentives to create a system that rewards responsibility and delivers greater choice and control over the support that is provided Budget Measures and Low-income Households Great Britain. Parliament. House of Commons. Treasury Committee,2008 This report examines the impact of the abolition of the 10 pence rate of income tax considering separately the effects of initial implementation and the effects in the light of the changes to personal allowances announced on 13 May 2008 The losers from the measures as initially implemented were people whose taxable income was small and for whom the loss might be significant when required to manage a personal or household budget at a time of sharply rising prices for many essential goods and services For the current tax year in the circumstances which the Chancellor of the Exchequer faced the option chosen on 13 May of increasing personal allowances but confining the benefits to basic rate taxpayers was probably the least bad option with the benefits of simplicity transparency and greater incentives to work on the basis that fewer taxpayers face high marginal deduction rates However 2 billion of the 2.7 billion committed to that measure is not devoted to compensating losers from the removal of the starting rate of income tax and is not well targeted The Government must learn lessons relating to budgetary processes The Government should publish a Household Impact Assessment alongside future Budgets and Pre Budget Reports There is a pressing need for the Government to compensate the remaining 1.1 million households who lose from the removal of the starting rate of income tax even after the 13 May changes In the longer term reforms should be centred on the greater challenges faced by the Government in combating poverty The Committee recommends the establishment of a Poverty Commission on a similar basis to the Pensions Commission to examine the public policy challenges relating to poverty Entrepreneurship and Sustainable Development in Africa Paschal Anosike,2022-01-26 High foreign aid dependence poor human capital rising high youth unemployment and poverty are just some of the reasons that Africa represents such a striking symbol of global inequality today In this book the author draws on his research and experience of working with key stakeholders to explore how Africa can take advantage of the knowledge economy and 4th Industrial Revolution opportunities to rebuild from the Covid 19 pandemic and empower its people and encourage entrepreneurship Entrepreneurship and Sustainable Development in Africa is a book the African political class economic policy and development experts the donor community academic researchers and students of business and international development can rely on for a better understanding and solutions to Africa's historical and contemporary socio economic problems Paschal Anosike is Associate Professor of Entrepreneurship and Innovation and the founding Director of Centre for African Entrepreneurship and Leadership CAEL at the University of Wolverhampton **Diversity and Marginalisation in Childhood** Paula Hamilton,Author,2021-03-17 This core text offers you an accessible foundation to the topics of diversity inclusion and marginalisation Not only will you develop an understanding of how marginalisation happens you will be
