

Enduring Ideas

- **Democracy**: the history behind political ideas, especially their ethical relevance today
 - How the polis/city-state shaped their moral/civic life
 - They formed a few common ideas that undergirded their cities
 - Ideas shaped by the material structure of life
 - And hence, their law and ritual institutions shaped the emerging spiritual realm
 - Like political rights and judgment concepts

Ancient Political Thought

- **Most common divide in political philosophy: "ancients" and "moderns"**
 - **Ancient Greeks and Roman thinkers**
 - What could be government?
 - How better than better government? – **justice**
 - Is justice just? Is good and thinking of things in subjective terms?
- **Athenian political culture** – **city-state of the polis**
 - **Common good** more important than the individual and family
 - Thinking from a subjective western viewpoint
- **Romans as a moral and legal**
 - **Justice as a concept of the individual** brings the idea of **justice** to us
 - **What should a citizen? How should?**

The 11 most common political concepts the great west Roman, Greek, the Republic and Aristotle

Enduring Political Ideas

Perez Zagorin

Enduring Political Ideas:

Enduring Political Ideas Kathryn P. Griffith, 1983 **Political Concepts And Political Theories** Gerald

Gaus, 2018-02-20 This book presents an analysis of the political concepts It focuses on enduring disputes about the nature of freedom power equality justice democracy and authority The book is useful for both first year and advanced students who seek to learn more about political theory *Enduring Conflict* Adrian Little, 2014-02-13 This unique text challenges the

notion that absence of conflict is the foundation and norm of a stable political environment Combining complexity theory and the notion of signature with case studies it argues that political processes need to be understood within their social and cultural contexts It thus develops the idea of enduring conflict referring to both the enduring nature of political conflict and the endurance of people in conflict ridden societies looking at countries involved in conflict transformation such as Northern Ireland Cambodia Indonesia and South Africa Examining debates around trauma memory and reconciliation the work shows how conflicts are so socially and culturally ingrained and protracted that political agreements alone cannot bring substantive change In addition key texts such as peace agreements along with interviews of politicians participants and NGOs help identify the conditions under which notions like peace democracy and conflict resolution can even be conceived let alone implemented This innovative text is a significant contribution to the literature as it highlights the limitations of conflict resolution strategies and identifies the issues that pertain to conflicts throughout global politics Written in an accessible manner it will be highly attractive to students in conflict processes peace studies and international relations theory

Political Thinking, Political Theory, and Civil Society Steven M. DeLue, Timothy M. Dale, 2021-04-28 This new edition of Political Thinking Political Theory and Civil Society presents a comprehensive overview of the Western tradition of political thought that approaches concepts with the aim of helping readers develop their own political thinking and critical thinking skills This text is uniquely organized around the theme of civil society What is the nature of a civil society Why is it important that will engage students and help make the material relevant Major thinkers discussed in the text are explored not only with the goal of understanding their views but also with an interest in understanding the relationship of their ideas to the notion of a civil society New to this edition Visual aids and pedagogy New chapter on black political theory and civil society including a discussion of protest and BlackLivesMatter in political theory Expanded discussions of feminism and the LGBTQ movement as well as an additional discussion of the MeToo movement from the perspective of its theoretical foundation and its implications for feminist theory Revised chapter on multiculturalism including an expanded discussion of religion neoliberalism globalization and global environmental issues This authoritative text written by two leading theorists and experienced lecturers is essential reading for all students of political theory and philosophy **Understanding the Founding** Alan Gibson, 2010-09-07 The first edition of Alan Gibson's Understanding the Founding is widely regarded as an invaluable guide to the last century's key debates surrounding America's founding This new edition retains all of the

strengths of the original while adding a substantial new section addressing a major but previously unaddressed issue and also significantly revising Gibson's invaluable conclusion and bibliography. In the original edition which was built upon his previous work in *Interpreting the Founding*, Gibson addressed four key questions: Were the Framers motivated by their economic interests? How democratic was the Framers' Constitution? Should we interpret the Founding using philosophical or strictly historical approaches? What traditions of political thought were most important to the Framers? He focused especially on the preconceptions that scholars brought to these questions, explored the deepest sources of scholars' disagreements over them, and suggested new and thoughtful lines of interpretation and inquiry. His incisive analysis brought clarity to the complex and sprawling debates and shed new light on the institutional and intellectual foundations of the American political system. Gibson has now added a path-breaking new chapter entitled *How Could They Have Done That?* Founding Scholarship and the Question of Moral Responsibility, which reprises and critiques one of the most important and vexing contemporary debates on the American founding. The new chapter focuses on how the men who fought a revolution in the name of liberty and declared to the world that all men are created equal could have supported the institution of slavery and even owned slaves themselves, accepted the legal and social subordination of women, and been responsible for Indian removal and genocide against Native Americans. Efforts to criticize or defend the Founders on these issues now constitute a daunting body of scholarship addressing what David Brion Davis has called the dilemmas of slaveholding revolutionaries. Gibson's astute and fair-minded analysis of this scholarship offers keen insights into how we might move toward more mature and responsible evaluations of the Founders.

The Unvarnished Doctrine Steven M. Dworetz, 1994-02-15. In *The Unvarnished Doctrine*, Steven M. Dworetz addresses two critical issues in contemporary thinking on the American Revolution: the ideological character of this event and more specifically the relevance of America's Philosopher the Great, Mr. Locke, in this experience. Recent interpretations of the American revolution, particularly those of Bailyn and Pocock, have incorporated an understanding of Locke as the moral apologist of unlimited accumulation and the original ideological crusader for the spirit of capitalism, a view based largely on the work of theorists Leo Strauss and C. B. Macpherson. Drawing on an examination of sermons and tracts of the New England clergy, Dworetz argues that the colonists themselves did not hold this conception of Locke. Moreover, these ministers found an affinity with the principles of Locke's theistic liberalism and derived a moral justification for revolution from those principles. The connection between Locke and colonial clergy, Dworetz maintains, constitutes a significant radicalizing force in American revolutionary thought.

The Revolving Masses Brendon Westler, 2024-06-04. Jos Ortega y Gasset (1883-1955) was a Spanish philosopher and essayist best known for *The Revolt of the Masses*, first translated into English in 1932. In it, Ortega critiques a populist deformation of democracy by the rise of a mass mentality characterized by selfishness, a lack of curiosity, and a general indifference to the opinions and attitudes of others. However, as Brendon Westler makes clear, we need to look beyond Ortega's arguments about populism and democracy in his

most famous work to recover the philosopher's expansive political outlook and to identify his valuable contributions to the history and advancement of liberalism Westler's book reconstructs Ortega's political theory underscoring its distinctive historical origins as well as the ways in which it might be instructive to us today Through an exploration of works less familiar to an English speaking audience such as *Concord and Liberty* *Vieja y nueva política* *De Europa meditatio* *Quaedam* and *Democracia morbosa* combined with a sensitivity to larger social and political ideas circulating within Spain *The Revolving Masses* traces the contours of Ortega's approach to politics Westler argues that reading texts written over the course of the philosopher's entire career in combination with *The Revolt of the Masses* offers a more complete picture of Ortega's political thought one that advocates for a liberal ethos as an answer to populism and promotes both individual freedom and the preservation of community bonds As *The Revolving Masses* shows Ortega was above all a philosopher who reflected on what it would take for people of differing beliefs to live together His unique conception of liberalism grounded in the Spanish tradition not only emphasizes pluralism and diversity of thought and institutions but also serves as a potential antidote to the populism of our present moment

Nazi Conspiracy and Aggression ... United States. Office of Chief of Counsel for the Prosecution of Axis Criminality, 1947

Communicating the Future W. Lance Bennett, 2020-12-03 We are facing an unprecedented environmental crisis How can we communicate and act more effectively to make the political and economic changes required to survive and even thrive within the life support capacities of our planet This is the question at the heart of W Lance Bennett's much anticipated book Bennett challenges readers to consider how best to approach the environmental crisis by changing how we think about the relationships between environment economy and democracy He introduces a framework that citizens practitioners and scholars can use to evaluate common but unproductive communication that blocks thinking about change develop more effective ways to define and approach problems and design communication processes to engage diverse publics and organizations in developing understandings goals and political strategies Until advocates develop economic programs with built in environmental solutions they will continue to lose policy fights Putting intersectional communication into action requires acknowledging that communication is not only an exchange of messages but an organizational process *Communicating the Future* is important reading for students and scholars of media and communication as well as general readers concerned about the environmental crisis

The Academic Portfolio Peter Seldin, J. Elizabeth Miller, 2009-04-27 This comprehensive book focuses squarely on academic portfolios which may prove to be the most innovative and promising faculty evaluation and development technique in years The authors identify key issues red flag warnings and benchmarks for success describing the what why and how of developing academic portfolios The book includes an extensively tested step by step approach to creating portfolios and lists 21 possible portfolio items covering teaching research scholarship and service from which faculty can choose the ones most relevant to them The thrust of this book is unique It provides time tested strategies and proven advice for getting started with portfolios It includes a

research based rubric grounded in input from 200 faculty members and department chairs from across disciplines and institutions It examines specific guiding questions to consider when preparing every subsection of the portfolio It presents 18 portfolio models from 16 different academic disciplines Designed for faculty members department chairs deans and members of promotion and tenure committees all of whom are essential partners in developing successful academic portfolio programs the book will also be useful to graduate students especially those planning careers as faculty members

Political Theory on Death and Dying Erin A. Dolgoy, Kimberly Hurd Hale, Bruce Peabody, 2021-09-14 *Political Theory on Death and Dying* provides a comprehensive encyclopedic review that compiles and curates the latest scholarship research and debates on the political and social implications of death and dying Adopting an easy to follow chronological and multi disciplinary approach on 45 canonical figures and thinkers leading scholars from a diverse range of fields including political science philosophy and English discuss each thinker s ethical and philosophical accounts on mortality and death Each chapter focuses on a single established figure in political philosophy as well as religious and literary thinkers covering classical to contemporary thought on death Through this approach the chapters are designed to stand alone allowing the reader to study every entry in isolation and with greater depth as well as trace how thinkers are influenced by their predecessors A key contribution to the field *Political Theory on Death and Dying* provides an excellent overview for students and researchers who study philosophy of death the history of political thought and political philosophy

The Trouble with Democracy William D. Gairdner, 2007-08 Gairdner s work shows that the ancient American and Canadian democracies were established on practical social and political grounds vastly different from the strange modern dream of a democracy of autonomous individuals that is now venerated everywhere

Spinoza: Reason, Religion, Politics , 2024-08-09 At his death Spinoza left two major works very different from one another The first is the *Ethics* rigorously set out in geometrical terms with definitions axioms and theorems In the *Ethics* Spinoza takes the reader down the path of reason to an ultimate beatitude a rational salvation a kind of peace of mind attained through the true knowledge of God oneself and one s place in the world The other is of a very different sort The *Tractatus theologico politicus* is set out in twenty chapters It begins with a discussion of prophecy and revelation followed by a detailed description of Scripture and what we can learn from it the message of scripture And that message is to be obedient to God and to love our neighbours as ourselves Two books two styles of argument two very different paths to salvation arguably two Gods and arguably two very different kinds of kinds of salvation at the end But one author The challenge is evident how do these books fit together One is about reason the other about revelation one is about personal salvation the other more focused on how we live together Spinoza s writing has always drawn strong reactions both positive and negative he was accepted by some as a kind of secular prophet offering us a guide to life and rejected by others as a kind of atheist and heretic In this book a diverse international group of seventeen scholars confronts these two central works in the philosophical canon and explores what Spinoza is trying to tell us about life the world and our place in it

Code Politics Jared J. Wesley, 2011-04-01 Politics on the Canadian prairies are puzzling. The provinces share common roots but they have nurtured three distinct political cultures. Alberta is Canada's bastion of conservatism, Saskatchewan its cradle of social democracy, and Manitoba its progressive centre. Jared Wesley explains this paradox by examining the rhetoric employed by dominant parties to renew their provinces: political code, freedom for Alberta, security for Saskatchewan, and moderation for Manitoba. Although the content of their campaigns differed, leaders from William Aberhart to Tommy Douglas to Gary Doer have employed distinct codes to ensure their parties' success and shape their provinces' political landscapes.

On Reason and Order: Locke's Political Influence in the New World Pasquale De Marco, 2025-08-15 Delve into the profound world of John Locke's political philosophy and its enduring impact on modern thought and society. *On Reason and Order: Locke's Political Influence in the New World* offers a comprehensive exploration of Locke's seminal ideas, their historical significance, and their continuing relevance in shaping democratic governance. Locke's unwavering commitment to individual liberty and his belief in the inherent rights of all human beings have had a transformative impact on the course of history. His work provided the intellectual foundation for the American Revolution and the subsequent establishment of the United States as a nation founded on the principles of liberty, equality, and self-government. Locke's influence can also be seen in the development of modern theories of rights, including the Universal Declaration of Human Rights, which enshrines the fundamental rights and freedoms of all individuals. Beyond his contributions to political thought, Locke's writings on education, economics, and religious toleration have also left a lasting legacy. His emphasis on the importance of education as a means of personal and social progress continues to shape educational philosophies and practices around the world. His insights into the nature of money and value have influenced economic thought and policy, while his advocacy for religious toleration has contributed to the development of modern concepts of freedom of conscience and religious liberty. This book takes readers on a journey through Locke's life, work, and enduring legacy, examining his seminal work *Two Treatises of Government* and its profound implications for the American Revolution, modern theories of rights, and the evolution of democratic thought. We explore Locke's unique perspective on the role of government, the importance of individual liberty, and the delicate balance between order and freedom. Through this exploration, we gain a deeper understanding of the foundations of modern democracy, the importance of individual rights, and the ongoing quest for a just and equitable society. Locke's ideas continue to inspire and challenge us, inviting us to reflect on the nature of freedom, the limits of power, and the possibilities for human progress. *On Reason and Order: Locke's Political Influence in the New World* is an essential read for students of political thought, history, and anyone interested in the intellectual foundations of modern society. If you like this book, write a review.

Machiavelli Anthony Russo, *Machiavelli: Unraveling Power and Politics* explores the enduring influence of Niccolò Machiavelli, one of history's most enigmatic and provocative political thinkers. Written for readers interested in political theory, history, and the dynamics of power, this book offers a comprehensive examination of Machiavelli's

s life his writings and his profound impact on both historical and contemporary political landscapes Through a captivating narrative the book delves into Machiavelli s early life and experiences as a diplomat in Renaissance Florence shedding light on the context in which his groundbreaking ideas emerged From his seminal work The Prince to his lesser known writings readers are invited to engage with Machiavelli s complex political philosophy which challenged the traditional notions of virtue morality and leadership His pragmatism which emphasizes the pursuit of power and stability over ideological purity has left a lasting imprint on political strategies employed by rulers and leaders across centuries In addition to analyzing his famous works the book also examines Machiavelli s relevance in contemporary politics the ethics of his ideas and the role of military power in his vision of governance Through rich historical context and practical examples Machiavelli Unraveling Power and Politics demonstrates how his concepts continue to shape modern political strategies and power dynamics from authoritarian regimes to democratic systems Whether you are a student of political philosophy a history enthusiast or simply intrigued by the complexity of political power this book offers invaluable insights into the life and legacy of Niccol Machiavelli By the end readers will gain a deeper understanding of how Machiavelli s ideas continue to influence global politics and leadership practices to this day

The Venture of Islam, Volume 2 Marshall G. S. Hodgson, 2009-05-15 The Venture of Islam has been honored as a magisterial work of the mind since its publication in early 1975 In this three volume study illustrated with charts and maps Hodgson traces and interprets the historical development of Islamic civilization from before the birth of Muhammad to the middle of the twentieth century This work grew out of the famous course on Islamic civilization that Hodgson created and taught for many years at the University of Chicago In the second work of this three volume set Hodgson investigates the establishment of an international Islamic civilization through about 1500 This includes a theoretical discussion of cultural patterning in the Islamic world and the Occident This is a nonpareil work not only because of its command of its subject but also because it demonstrates how ideally history should be written The New Yorker

The Once and Future World Order Amitav Acharya, 2025-04-08 The epic story of the past present and future of world order offering a timely Odd Arne Westad coauthor of The Great Transformation argument that the decline of the West may be a good thing for the world Since the dawn of the twenty first century the West has been in crisis Social unrest political polarization and the rise of other great powers especially China threaten to unravel today s Western led world order Many fear this would lead to global chaos But the West has never had a monopoly on order Surveying five thousand years of global history political scientist Amitav Acharya reveals that world order the political architecture enabling cooperation and peace among nations existed long before the rise of the West Moving from ancient Sumer India Greece and Mesoamerica through medieval caliphates and Eurasian empires into the present Acharya shows that humanitarian values economic interdependence and rules of inter state conduct emerged across the globe over millennia History suggests order will endure even as the West retreats In fact the end of Western dominance offers us the opportunity to build a better world where non

Western nations find more voice power and prosperity Instead of fearing the future the West should learn from history and cooperate with the Rest to forge a more equitable order This is the definitive account of how world order evolved and why it will survive the decline of the West **The Court and the Country** Perez Zagorin, 2023-04-17 The Court and the Country 1969 offers a fresh view and synthesis of the English revolution of 1640 It describes the origin and development of the revolution and gives an account of the various factors political social and religious that produced the revolution and conditioned its course It explains the revolution primarily as a result of the breakdown of the unity of the governing class around the monarchy into the contending sides of the Court and the Country A principal theme is the formation within the governing class of an opposition movement to the Crown The role of Puritanism and of the towns is examined and the resistance to Charles I is considered in relation to other European revolutions of the period *Perspectives on «Dante Politico»* Donatella Stocchi-Perucchio, 2024-04-22 This book argues that political concerns inseparable from Dante's biography permeate his entire corpus emerging at the intersection of the multiple fields of knowledge he explores from the liberal arts to law philosophy and theology It also shows that Dante by elucidating the natural integration of the humanities with the sciences continues to be a source of provocative insights and inspirations on how to be political beings today Preceded by an introductory chapter focused on politics and education the essays collected in the volume offer a range of close textual and contextual readings of Dante's life and works grouped in four parts 1 The Self and History 2 Visions of the World Cosmology and Utopia 3 From the Language of Politics to the Language of Theology 4 Instances of Political Reception in Asia and South America The different disciplinary angles adopted by the contributors include history economics jurisprudence linguistics ethics metaphysics theology cosmology social thought ecology education and the performing and visual arts The collection addresses a specialized audience of Dante scholars medievalists historians political philosophers and scientists reception scholars and legal and cultural historians
