Engendering Democracy:

Engendering Democracy Anne Phillips, 2013-04-23 Democracy is the central political issue of our age yet debates over its nature and goals rarely engage with feminist concerns Now that women have the right to vote they are thought to present no special problems of their own But despite the seemingly gender neutral categories of individual or citizen democratic theory and practice continues to privilege the male This book reconsiders dominant strands in democratic thinking focusing on liberal democracy participatory democracy and twentieth century versions of civic republicanism and approaches these from a feminist perspective Anne Phillips explores the under representation of women in politics the crucial relationship between public and private spheres and the lessons of the contemporary women s movement as an experience in participatory democracy

Democracy's Angels Kristina R. Llewellyn, 2012 A groundbreaking study of the limits that democratic ideals placed on the work of women teachers

Making Race and Nation Anthony W. Marx, 1998-10-28 Why and how has race become a central aspect of politics during this century This book addresses this pressing question by comparing South African apartheid and resistance to it the United States Jim Crow law and protests against it and the myth of racial democracy in Brazil Anthony Marx argues that these divergent experiences had roots in the history of slavery colonialism miscegenation and culture but were fundamentally shaped by impediments and efforts to build national unity In South Africa and the United States ethnic or regional conflicts among whites were resolved by unifying whites and excluding blacks while Brazil s longer established national unity required no such legal racial crutch Race was thus central to projects of nation building and nationalism shaped uses of race Professor Marx extends this argument to explain popular protest and the current salience of issues of race

No Shortcuts to Power Anne Marie Goetz, Shireen Hassim, 2003-05 Whatever other shortcomings of representative democracy may be apparent in our world today one issue that clearly remains only partially resolved is the participation and policy impact of one half of the population women This comparative study examines this issue in the context of two African countries South Africa and Uganda both of which have accomplished much more at the level of women s political participation than most African or indeed other countries

Ethnic Identity and Minority Protection Thomas W. Simon, 2012-03-28 In Ethnic Identity and Minority Protection Designation Discrimination and Brutalization Thomas W Simon examines a new framework for considering ethnic conflicts In contrast to the more traditional theories of justice Simon's theory of injustice shifts focus away from group identity toward group harms effectively making many problems such as how to define minorities in international law dramatically more manageable Simon argues that instead of promoting legislative devices like proportional representation for minorities it is more fruitful to seek adjudicative solutions to racial and ethnic related conflicts For example resources could be shifted to quasi judicial human rights treaty bodies that have adopted an injustice approach This injustice approach provides the foundation for Kosovo's case for remedial secession and helps to sort out the competing entitlement claims of Malays in different countries Indeed the priority of Thomas W Simon's Ethnic Identity and Minority Protection is to ensure the tales of designation and discrimination told at the beginning of the work do not become the stories of brutalization told at the end In short the challenge tackled in this text is to assure that reason reigns over hate *Rethinking Latin American Social Movements* Richard Stahler-Sholk, Harry E.
