Geoffrey Redmond,2024-05-16 The 3 000 year old I Ching is the most esteemed of the ancient Chinese classics yet also the most enigmatic Reading the I Ching Book of Changes incorporates recent advances in scholarship such as recently excavated texts and demonstrates how the Zhouyi the ancient textual layer of the I Ching was compiled from mostly oral material and how it was organized to serve as an easily consulted compendium of divination responses In this book Geoffrey Redmond clarifies the meanings of the ancient text by examining use of literary devices such as prognostic terms imagery from daily life rhetorical tropes metaphors proverbs and set phrases This provides insight on how the Zhouyi was composed and explains its use for divination It also shows how centuries later the Zhouyi was adapted by the Confucians who believed it to be the creation of ancient sages and the source of their metaphysics and cosmology Redmond also analyzes the Changes through a variety of philological heuristics such as the Sapir Whorf hypothesis methods of analogy and anomaly the distinction between argumentative and context dependence as well as modern approaches such as Jungian psychology and critical theory Included are the interlinear Chinese text and a glossary of key words in English Chinese and pinyin making it essential reading for students studying Chinese philosophy Chinese religion and early Chinese history as well as readers looking for a clear and accessible gloss of this text Chinese Divination Book, I Ching
