Colors of the Soul Jami Waters, This metamorphic autobiographical collection entails the haunting and raw interpretations of the author and her life The tale of darkness breaking free from the chains that life wrapped her in from a very young age Always connected with nature the author chose to focus her descriptions and artistic impressions on aspects of complexities of the earth and cosmos All works in this book reflect a time in the authors life and speak to the intricate nature of the human soul We come in many colors and reflect and refract the world around us This journey is one of transformation and of coming out of the darkness into the light It is one of inspiration for those lost and afraid to step out and find peace in the world around them despite chaotic and sometimes tragic circumstances It does not follow traditional formatting because life is not formatted It is not scripted and is often complete pandemonium The text is organized into 4 sections reflecting different aspects of a person s inner growth and journey The black is what the author was born into it was all she knew for much of her life The abyss was a time of great sorrow and rage that was pivotal to the transformation into the person the author has become through much life experience tragedy and joy Black and white describes the nexus of change the beginnings of what was possible and the struggle between staying in what is known and breaking out of the comfort of chaos as some of us know all too well Change can be terrifying if we don t have any idea what is on the other side Illumination was the point of freedom the existential release from the darkness that plagues us all and our ability to overcome it All of these are almost lyrical in nature because they music in our hearts is what drives us to move forward and be the person we were destined to be Breaking into that world is painful and disillusioning We have to be brave enough to try
