keeping their sanity and humor There are humorous stories romantic stories and battle stories stories about being captured by the enemy There are stories of men who killed to survive who lived in foxholes who helped and were helped by local people Throughout the book we connect with the paratroopers who relied on each other for survival This is their story

The Birds That Wouldn't Sing Justin Smith,2024-12-19 This compelling book offers a unique perspective on D Day and its aftermath through the personal testimonies of the Wrens who worked for Admiral Sir Bertram Ramsay during Operation Overlord Drawing on public and private archives it reveals the untold stories of the women serving in the Women s Royal Naval Service WRNS balancing their wartime contributions with the strictures of secrecy and censorship The narrative is framed by letters from these Wrens which provide intimate glimpses into both the personal and professional challenges they faced during World War II The book captures the atmosphere of war as experienced by British auxiliaries It highlights the Wrens vital but often overlooked role in the D Day planning effort and beyond revealing the surreal coexistence of the ordinary and extraordinary in wartime Focusing in particular on the wartime archive of one of the Wrens Joan Prior the author brings to life the contribution of these women to the war effort while also offering insights into British French and German morale and culture This thoughtful and moving account adds depth to the broader historical narrative of World War II making it a valuable addition for both the general reader and the professional historian

Traveller Michael Katakis,2009-06-02 How could I have known then with no maps acquired and my bags not yet packed that my journey had already begun The tools of a traveler are compass and map They calculate distances covered and destinations sought but cannot measure the consequences of experiences on a human heart writes Michael Katakis in his introduction Traveller is a collection of letters and journal entries that bring the immediacy of experience together with perceptive reflections of the author s own past The entries in this volume are not travel guides They are more personal like letters from the most desirable sort of friend The friend carries the listener with him as he meanders through the medina in Fez or into the hills of Gallipoli His voice is such that listeners can almost smell the herbs and dusty soil of Crete and always they are introduced to the people he meets along the way For anyone curious about the world and introduced with a foreword written and read by Michael Palin Traveller is sure to delight infuriate and perhaps most importantly inspire thought about the complex world around them
