Passionate Work Ruth Horowitz, 2024-08-27 Corps de ballet literally means the body of the ballet company and it refers to the group of dancers who are not principals Another large group of dancers puts together portfolios of work often across several dance companies These categories of dancers typically don t have name recognition and yet comprise the majority of professional dancers today The ways that they stitch together careers through dedication grit and no small amount of skill and the reasons they have for doing so without the promise of fame or fortune are telling of broader trends that shape the precarious labor of professional dance and creative careers more generally In *Passionate Work* dance hobbyist and sociologist Ruth Horowitz captures their stories When creative labor is studied it is often thought of in opposition to more conventional work and the

primary metric that distinguishes them is passion Professional creatives are not working in the traditional sense because they are following their passion By tracing the careers of such dancers Horowitz troubles the binary understanding of passion and work A career in dance requires both and approaching her subjects through this lens allows her to explore their strategies for sustaining passion through the ups and downs of a career Horowitz explores how dancers evaluate the rewards and challenges of a notoriously underpaid and uncertain profession Horowitz considers major dimensions of a career in a performing art documenting each stage in a dancer's life Above all she shines a light on the strategies used to achieve a sense of biographical continuity in a world often marked by discontinuity and rupture **Best Friends Forever: Volume 4**
