

ETYMOLOGY OF I CHING (YUING)¹⁴

FIGURE 2.1 Yi in different Chinese scripts. 1. Shang dynasty oracle bone script. 2. Zhou dynasty bronze inscription. 3. Seal script. 4. Regular script.

Yi (易) holds multiple layers of meaning. It means “to change” or “interchange,” which is to cause a turn of events in succession, and it also means “to venture” and “to reveal,” “to exchange hands from one to the other.” “Change” in the context of this book holds a dual nature: it denotes the changes that take place in the natural course of events, and it simultaneously denotes the changes that will now go into effect as a direct result of having divined on the matter. The yi signifies an exchange. The Oracle is as much a book of exchanges as it is a book of change.

FIGURE 2.2 Jing in seal script. 1. Seal script (1000 BC–1 BC). 2. Regular script.

Jing (經) is translated as “classics” or “scriptures,” though in the context of the I Ching it is more commonly translated as “book,” for Book of Changes. The term is indicative of an authoritative doctrine, that which has been designated as canon and is a text with ethical, moral,

philosophical, or religious implications. Texts described as jing are often revolutionary and can signify a book of transcendental revelation. The Heart Sutra in Mahayana Buddhism, for instance, is translated as Xin Jing (心經). The Tao Te Ching, the classic attributed to Lao Tzu and surfacing later in the Zhou dynasty, is translated as Dao De Jing (道德經). The Abrahamic Bible is called the Sheng Jing (聖經), the Koran is the Gulin Jing (古蘭經).

The Primary Way
Chung-ying Cheng, 2020-09-01
In *The Primary Way*, the distinguished scholar of Chinese philosophy, Chung-ying Cheng, synthesizes his lifetime of work on the Yijing, also known as the I Ching or Book of Changes. Cheng offers a systematic engagement with the classic Chinese text as a philosophy that is still valuable and relevant today. In contemporary philosophical terms, Cheng has developed the ontological hermeneutics of the Yijing as well as its philosophical methodology of symbolic reference in a holistic and onto-generative system of trigrams and hexagrams. The book is organized around eight themes that illuminate Cheng's interpretation of the Yijing as a philosophy for creative human action and transformation. He demonstrates how the philosophy of change in the Yijing embodies early Chinese ontology, cosmology, epistemology, and virtue ethics in the interpretation of divinatory judgments. Cheng's work shows how the philosophy of change contains a vision of humanity as creatively related to heaven and earth and how it gives positive meaning to any change as part of a ceaseless creativity. With this understanding, it enables humanity to develop its potential as a partner of heaven and earth.

Riding the Wind with Liezi Ronnie Littlejohn, Jeffrey Dippmann, 2012-01-02 The Liezi is the forgotten classic of Daoism Along with the Laozi Daodejing and the Zhuangzi it s been considered a Daoist masterwork since the mid eighth century yet unlike those well read works the Liezi is little known and receives scant scholarly attention Nevertheless the Liezi is an important text that sheds valuable light on the early history of Daoism particularly the formative period of sectarian Daoism We do not know exactly what shape the original text took but what remains is replete with fantastic characters whimsical tales paradoxical aphorisms and philosophically sophisticated reflection on the nature of the world and humanity s place within it Ultimately the Liezi sees the world as one of change and indeterminacy Arguing for the Liezi s historical philosophical and literary significance the contributors to this volume offer a fresh look at this text using contemporary approaches and providing novel insights The volume is unique in its attention to both philosophical and religious perspectives
