I Palazzi Di Napoli:

Ancient Marbles in Naples in the Eighteenth Century Eloisa Dodero, 2019-09-16 In *Ancient Marbles in Naples in the Eighteenth Century* Eloisa Dodero aims at documenting the history of numerous private collections formed in Naples during the 18th century with particular concern for the Neapolitan marbles and the circumstances of their dispersal. Research has thus made it possible to formulate a synthesis of the collecting dynamics of Naples in the 18th century to define the interest of the great European collectors especially British in the antiquities of the city and its territory and to draw up a catalogue which for the first time brings together the nucleus of sculptures reported in the Neapolitan collections or coming from irregular excavations most of which shared the destiny of dispersal in some cases here traced in definitive fashion. **The Villa Dei Papiri at Herculaneum** Carol C. Mattusch, Henry Lie, 2005 The Villa dei Papiri at Herculaneum buried during the eruption of Mt Vesuvius in A.D. 79 then rediscovered in 1750 contained a large collection of bronze and marble statuary and busts. Before they were published or exhibited the sculptures were restored so as to appear whole. It is thus that they helped to shape early modern tastes in classical sculpture. The book describes the nature of the ancient sculptures and their impact on the modern public. Their chance discovery affected the interpretation of the statues, their styles and subjects over the course of the next 250 years. The ancient sculptures were copied extensively in reproductions of various sizes and patinas. The author traces the popularity of these copies in Europe and America. Also presented in the book is a technical study of the production techniques and materials of the sculptures as well as of their modern restoration history. Scientific analyses and detailed photographs reveal both how the pieces were cast and pieced together in antiquity and how they were restored in the eighteenth century. Even though this collection has been known for two and a half centuries, this book covers for the first time the eclectic nature of the sculptures, their actual condition and their quality, pointing in some cases to mass production.

Palaces of Naples Donatella Mazzoleni, Mark E. Smith, 1999 Stretching across the Bay of Naples and at the foot of Mount Vesuvius, Naples is home to numerous palaces, estates and grand residences. Though some palaces have been abandoned or damaged, many have been restored to their historical glory. In the midst of this modern vibrant multicultural city, these remnants of fifteenth and sixteenth century Italian aristocracy remain. Through glorious color photography and illuminating text, *Palaces of Naples* tells the stories behind this fascinating and fabulous homes. Thirty estates and palaces are featured here, each with its own style and its own story. From the famous portico of the Palazzo Filomarino to the mirrored walls and inlay figures of the eighteenth century duke's study in the Palazzo Corigliano, the architectural details of the palaces are examined. In addition, the intriguing stories and rumors behind the homes, such as the reported ghost sightings and mysterious wails and blue lights emanating from the Palazzo Donn'Anna, left half built by Anna Carafa, wife of the duke of Medina, when her husband fell from favor. With stunning color photography and engaging text, *Palaces of Naples* brings readers to thirty of the most beautiful estates and palaces of Naples. The history of the city and of each residence featured are

relayed in fascinating detail the stories of the original owners the architects and the occupants throughout the centuries
 Hundreds of color photographs display the palaces many of which are partially closed or completely closed to the public in all their glory

Palaces of Reason Robin L. Thomas, 2023-11-09 Palaces of Reason traces the fascinating history of three royal residences built outside of Naples in the eighteenth century at Capodimonte Portici and Caserta Commissioned by King Charles of Bourbon and Queen Maria Amalia of Saxony who reigned over the Kingdom of the Two Sicilies these buildings were far more than residences for the monarchs They were designed to help reshape the economic and cultural fortunes of the realm The palaces at Capodimonte Portici and Caserta are among the most complex architectural commissions of the eighteenth century Considering the architecture and decoration of these complexes within their political cultural and economic contexts Robin L Thomas argues that Enlightenment ideas spurred their construction and influenced their decoration These modes of thinking saw the palaces as more than just centers of royal pleasure or muscular assertions of the crown s power Indeed writers and royal ministers viewed them as active agents in improving the cultural political social and economic health of the kingdom By casting the palaces within this narrative Thomas counters the assumption that they were imitations of Versailles and the swan songs of absolutism while expanding our understanding of the eighteenth century European palace more broadly Original and convincing Thomas s book will be of interest to historians of art and architectural history and eighteenth century studies

Antiquity and Its Reception Helena Trindade Lopes, Maria De Fatima Rosa, Isabel Almeida, 2020-01-08 What do we talk about when we talk about antiquity For the majority of the population the term immediately transports us to the notion of an ancient age or ancient world the Parthenon Athens and the Coliseum of Rome which condenses in itself the Greco Roman world This reduces antiquity to antiquity that was structurally essential for the construction and emergence of the civilization called occidental For others because of their religious backgrounds antiquity goes back in time and enlarges in part its space of action allowing the emergence of Palestine as a primordial territory But these two visions old and supported by a scientific ignorance of the ancient geographies and chronologies enclose the history in a limited time and space As if there would never have been a world before that time As if the civilization that we comfortably call ourselves as inheritors the so called Occidental Civilization was the first step in the history of man on earth
