Life And Death In The Philippines:

Life and Death in the Philippines Paul C. Bussard, 1978 **Encyclopædia of Religion and Ethics: Life and death-Mulla** James Hastings, John Alexander Selbie, Louis Herbert Gray, 1916 Scope theology philosophy ethics of various religions and ethical systems and relevant portions of anthropology mythology folklore biology psychology economics and sociology **Conquest and Pestilence in the Early Spanish Philippines** Linda A. Newson, 2009-04-16 Scholars have long assumed that Spanish colonial rule had only a limited demographic impact on the Philippines Filipinos they believed had acquired immunity to Old World diseases prior to Spanish arrival conquest was thought to have been more benign than what took place in the Americas because of more enlightened colonial policies introduced by Philip II Conquest and Pestilence in the Early Spanish Philippines illuminates the demographic history of the Spanish Philippines in the sixteenth and seventeenth centuries and in the process challenges these assumptions In this provocative new work Linda Newson convincingly demonstrates that the Filipino population suffered a significant decline in the early colonial period Newson argues that the sparse population of the islands meant that Old World diseases could not become endemic in pre Spanish times She also shows that the initial conquest of the Philippines was far bloodier than has often been supposed and that subsequent Spanish demands for tribute labor and land brought socioeconomic transformations and depopulation that were prolonged beyond the early conquest years Comparisons are made with the impact of Spanish colonial rule in the Americas Newson adopts a regional approach and examines critically each major area in Luzon and the Visayas in turn Building on a wide range of primary and secondary sources she proposes a new estimate for the population of the Visayas and Luzon of 1 57 million in 1565 slightly higher than that suggested by previous studies and calculates that by the mid seventeenth century this figure may have fallen by about two thirds Based on extensive archival research conducted in secular and missionary archives in the Philippines Spain and elsewhere Conquest and Pestilence in the Early Spanish Philippines is an exemplary contribution to our understanding of the formative influences on demographic change in premodern Southeast Asian society and the history of the early Spanish Philippines Philippine Prisons Review , 1928 *Beyond the March of Death* Myrri W. McBride, Sr., 2010-07-28 The first to admit that he did not volunteer for military service Myrri W McBride Sr was just a young man trying to work and return to college when he was drafted into a world completely foreign to him and a war he never envisioned Soon he would suffer through one of the most tragic events in U S military history the U S surrender at Bataan and the Bataan Death March This memoir written in 1948 while memories were fresh but never before published recounts the horrors of the march and its aftermath followed by three and a half years as a prisoner of war at Camp O'Donnell the Bilibid and Cabanatuan prisons onboard a prison hellship and in slave labor in Japan The heartbreaking narrative reveals qualities that were undoubtedly critical to the author's survival his courage ingenuity sense of humor and enduring hope

The Philippines , 1990 **Life, Death, and the Western Way of War** Lorenzo Zambeardi, 2022-04-07 Life Death

and the Western Way of War traces when and how western soldiers once regarded as simple fighting tools became the far less expendable beings that we know today In Kant s terms the study traces the process through which soldiers have been turned from mere military means into ends in themselves The book argues that such a major transformation is largely the result of a shift in the social meaning ascribed to soldiers death It suggests that looking at death can somehow provide a privileged angle to understanding the value that societies attach to life The narrative emerging from the empirical evidence will show that the story of attitudes towards soldiers death is the story of a gradual increasing process of individualization in the social meaning attached to human loss in war Such a development which took centuries to emerge in full was neither simple nor linear It was a process that the state was temporarily able to frame in the collective narrative of the nation but which ultimately has seen the increasing importance of the life of the individual soldier In tracing the process through which soldiers have been turned from an amorphous collective into distinct individuals this book shows how the emphasis on the primacy of the individual has further eroded the effectiveness of western warfare as an instrument of foreign policy In particular the modern liberal conception of the soldier has had the unintended consequence of jeopardizing the Clausewitzian relationship between military means and political ends

Unpacking the Death Penalty in ASEAN Sriprapha Petcharamesree,Mark P. Capaldi,Alan Collins,2023-03-20 This book contributes conceptually theoretically and morally to a deeper understanding of the distinctive Asian perceptions of punishment justice and human rights Researched and prepared by scholars who have not only been conducting studies on the death penalty in the region but have also been advocating for legal reforms this edited book touches upon the different justifications for the use of capital punishment in the ASEAN region exposing the secrecy sensitivities and dilemmas that mask violations of international human rights laws The chapters bring in numerous new perspectives which have been overlooked in the traditional discourse surrounding the use of the death penalty such as that around crimes that do not meet the threshold of most serious the dignity of death row inmates and their families

contradictions within religion and capital punishment and the way in which growing authoritarianism and the media are adversely influencing the public's perception and support for capital punishment in the region. In examining how public opinion shapes state policies towards the death penalty and how it varies according to different offences and different states, the authors critically analyse how the international human rights mechanisms have specifically called for ASEAN member states to refrain from extending the application of the death penalty and to limit it to the most serious crimes. Relevant to socio-legal scholars focused on crime and punishment in Southeast Asia and in the Global South more broadly, this is a landmark collection in criminology and human rights scholarship.
