The Enduring Legacy G. S. Rousseau, Pat Rogers, 1988-10-27 This comprehensive 1988 survey of the poet's life and work appeared during the 300th anniversary of Alexander Pope's birth in 1688 **Anniversary Essays on Alexander Pope's 'The Rape of the Lock'** Donald W. Nichol, 2016-01-01 In celebration of its tercentenary this collection brings together ten eminent scholars with new perspectives on the poem **Alexander Pope** Netta Murray Goldsmith, 2024-11-01 This title was first published in 2002 Making use of the growing body of research in recent years on the nature of creativity Netta Goldsmith here presents a new view of the famous poet whose personality has long frustrated scholars as elusive Goldsmith tells the story of Pope's life so as to show the factors personal and public psychological and social which shaped his character and enabled him to secure widespread recognition as a major poet Discussions of significant works are integrated into the narrative covering main events and key relationships as well as illustrating points made throughout about Pope's approach to his art Among other things this book shows how vulnerable Pope felt as a Papist in a time of endemic Jacobite activity and how his fear of possible prosecution for sedition determined much of his conduct and the way he shaped his career Alexander Pope The evolution of a poet not only provides a fresh perspective on Pope but also on the very nature of literary creativity

Pope Brean S. Hammond, 2014-09-19 This collection of essays represents some of the best critical thinking on Pope in recent years Professor Hammond examines the main issues in the debate in particular why Pope's writing has been so resistant to modern methodologies such as deconstruction The essays focus on particular poems or themes and exemplify different theoretical perspectives both traditional and modern The editor's notes clarify the differences that exist and what those differences can teach the student about theory in practice *Christianity and Confucianism* Christopher Hancock, 2020-12-10 Christianity and Confucianism Culture Faith and Politics sets comparative textual analysis against the backdrop of 2000 years of cultural political and religious interaction between China and the West As the world responds to China's rise and China positions herself for global engagement this major new study reawakens and revises an ancient conversation As a generous introduction to biblical Christianity and the Confucian Classics Christianity and Confucianism tells a remarkable story of mutual formation and cultural indebtedness East and West are shown to have shaped the mind heart culture philosophy and politics of the other and far more perhaps than either knows or would want to admit Christopher Hancock has provided a rich and stimulating resource for scholars and students diplomats and social scientists devotees of culture and those who pursue wisdom and peace today *African-British Writings in the Eighteenth Century* Helena Woodard, 1999-01-30 The eighteenth century was a time of great cultural change in Britain It was a period marked by expeditions to the New World Africa and the Orient and these voyages were reflected in the travel literature of the era It was also a period in which seventeenth century empiricism and the scientific method became dominant and in which society became increasingly secular Fundamental to the eighteenth century worldview was the notion of the Great Chain of Being in

which all creatures and their Creator stood in a hierarchical relationship with one another The years from 1660 to 1833 witnessed both Britain's participation in slavery and the appropriation of the Great Chain of Being by social anthropologists and political leaders With the rise of the slave trade blacks were brought to Britain against their will where they were enslaved At the same time intellectuals of the period tried to place these slaves within the hierarchical frame provided by the Great Chain of Being The presence of slavery in Britain aroused much debate among blacks and whites alike and the literature of the eighteenth century reflects that debate This book examines representations of blacks in eighteenth century British literature to illuminate the discussions about race during that period The volume begins with a discussion of Alexander Pope's popularization of the Great Chain of Being in his *Essay on Man* which argued the universal ranking of humanity and which provided an intellectual foundation for slavery It then examines the works of several white canonical writers including Defoe Addison and Steele Swift and Sterne to see how blacks are portrayed in their works The volume also examines works by African British writers such as James Albert Ukawsaw Gronniosaw and Quobna Ottobah Cugoana who expose exclusionary practices among some theologians Ignatius Sancho whose *Letters* show how slaves were taught to be grateful and how those lacking gratitude were considered inhuman and Olaudah Equiano who shows how racial hierarchies function as a literary trope particularly in travel literature The final chapter on *The History of Mary Prince* examines the interaction of race and gender

A Contradiction Still Christa Knellwolf King, 1998 This text offers a critique of the views concerning gender and gender roles in Pope's poetry It engages directly with current issues in feminist criticism cultural studies and identity politics

Spheres of Awareness James Lough, Patricia Herron, 2009-09-29 *Spheres of Awareness* Wilberian Integral Approaches to Literature Philosophy Psychology and Art moves toward building a new and more comprehensive theory of literature philosophy psychology and art The extremely popular work of Ken Wilber unites the best of both western and eastern thought and affirms that the stages of consciousness more refined than that of the reasoning mind do exist These stages culminate in awareness of Spirit or what Buddhism has called Emptiness *Spheres of Awareness* shows us how applying Wilber's theoretical templates can broaden and deepen our approaches to literature philosophy psychology and art

The Discourse of Sovereignty, Hobbes to Fielding Stuart Sim, David Walker, 2017-03-02 In this new study the authors examine a range of theories about the state of nature in seventeenth and eighteenth century England considering the contribution they made to the period's discourse on sovereignty and their impact on literary activity Texts examined include *Leviathan* *Oceana* *Paradise Lost* *Discourses Concerning Government* *Two Treatises on Government* *Don Sebastian* *Oronoko* *The New Atalantis* *Robinson Crusoe* *Dissertation upon Parties* *David Simple* and *Tom Jones* The state of nature is identified as an important organizing principle for narratives in the century running from the Civil War through to the second Jacobite Rebellion and as a way of situating the author within either a reactionary or a radical political tradition *The Discourse of Sovereignty* provides an exciting new perspective on the intellectual history of this fascinating period

Pope, Homer, and Manliness Carolyn D. Williams, 2014-06-11 The author here reassesses the concept of masculinity and argues that it cannot be seen as an absolute standard but only as the product of perpetual conflict between competing and unstable models The argument is sustained by a close reading of the problematic conflict between gendered values in eighteenth century classical learning Pope's Homer ensured the continuation of the tradition of using the Iliad and Odyssey to teach privileged boys how to become more manly This book examines this pedagogy in its socio literary context and concludes that Pope's Homer emerges as a relic of the struggle to preserve masculine dignity from the encroachments of feminine values in the text This knowledge of classical and early modern literature has rarely been brought to bear on gender studies First published in 1993 it remains a valuable contribution to debates concerning the reception of the Classical tradition

Translation and the Poet's Life Paul Davis, 2008-09-04 Between the Civil War and the early decades of the eighteenth century English poets of the first rank devoted more of their time and creative energies to translating than they had ever done before or have ever done since Paul Davis's Translation and the Poet's Life is the first study to range across the entirety of this golden age of poetic translation in England taking as its organizing principle and object of inquiry the significances of translating itself as a distinctive mode of imaginative conduct Composed of case studies of the five leading poet translators of the age John Denham Henry Vaughan Abraham Cowley John Dryden and Alexander Pope it explores the part translation played in their lives as poets and thence in modelling the poet's life during what was a period of transition between early modern and modern constructions of it The argumentative method of the book is metaphorical Each chapter explores the impact on the theory and practice of the poet at issue of a metaphor or group of metaphors broadly current in contemporary translation discourse in particular figurations of the translator as an exile as a child as a code breaker and as a slave and comparisons of translation to friendship sexual congress metamorphosis and trade The majority of these metaphors were wholly or potentially pejorative translation remained a controversial practice throughout this period widely depreciated and stigmatized Turning translator accordingly forced the five major poets considered in Translation and the Poet's Life to undertake strenuous efforts of self inquiry and self presentation to find new answers to questions integral to their understandings of themselves and their standing in their culture questions about vocation and career fame and happiness responsibility and freedom Translation and the Poet's Life tells the stories of these personal and public remakings
