## **Enemy Mind:**

**Reading the Enemy's Mind** Paul H. Smith, 2005-12-27 An up close and personal look behind the scenes of the government's psychic spy program as only an insider can. A must read. Harold E. Puthoff PhD founder and former director of the CIA initiated Remote Viewing Program. From behind the cloak of US military secrecy comes the story of Star Gate the project that for nearly a quarter of a century trained soldiers and civilian spies in extra sensory perception ESP. Their objective: To search out the secrets of America's cold war enemies using a skill called remote viewing. Paul H. Smith a US Army Major was one of these viewers. With the Star Gate secrets declassified and the program mothballed by the Central Intelligence Agency the story can now be told of the ordinary soldiers drafted onto the battlefield of human consciousness. Using hundreds of interviews with the key players in the Star Gate program and gathering thousands of pages of documents Smith reveals many secrets about how remote viewing works and how it was used against enemy targets. Among these stories are the search for hostages in Lebanon, spying on Soviet directed energy weapons, investigating the bombing of Pan Am Flight 103 over Lockerbie, Scotland, tracking foreign testing of weapons of mass destruction, combating narco trafficking off America's coasts, aiding in the Iranian hostage situation, finding KGB moles in the CIA, pursuing Middle East terrorists and more. This is a story for the believer and the skeptic, a rare look at the innards of a top secret program and an eye opening treatise on the power of the human mind to transcend the limitations of space and time.

**Organizing the information of the mind's factory** Ehsan G. Hasemi, 2025-02-07 In this book the human mind is likened to a factory where its raw materials are sounds and images that enter through the ears, eyes and other senses in the form of speech, behavior and creations from the surrounding environment. The final product of this factory is speech produced through the mouth and behavior manifested by the human. The goal and final product of this factory is the production of value which is defined as a good feeling which may come in the form of money, power, fame, character, peace, security, love etc. All the efforts of humans around the world from a newborn in the East of Asia to an elderly person in America from the beginning of creation to forever are driven by two causes: 1 To create a good feeling 2 To avoid feeling bad. In this book using various engineering sciences the issues related to controlling the quality of inputs to the mind's factory, the methods of production within the mind and the quality of the final product of the mind's factory are evaluated and analyzed. Psychological issues and other success and self help concepts discussed in other books are presented from the perspective of this book in simple language for general use.

**MUSASHI: The Way of Strategy** Páll Thormod Morrisson, 2025-04-18 Miyamoto Musashi was a legendary figure of the Japanese warrior tradition dedicated to the pursuit of enlightenment by way of strategy and the sword A wandering samurai

and master of strategy he retired to the spiritual asceticism of a cave after a life of duelling and bloody battle to put his secrets down in writing The result was Gorin no sho his classic Five Rings Book P ll Thormod Morrisson examines Gorin no sho and its insights on strategy kenjutsu philosophy and mystical awareness with reference to other works by the master seeking to shed fresh light on Musashi s way of the warrior      Nuclear Minds Ran Zwigenberg,2023-07-25 How researchers understood the atomic bomb s effects on the human psyche before the recognition of Post Traumatic Stress Disorder In 1945 researchers on a mission to Hiroshima with the United States Strategic Bombing Survey canvassed survivors of the nuclear attack This marked the beginning of global efforts by psychiatrists psychologists and other social scientists to tackle the complex ways in which human minds were affected by the advent of the nuclear age A trans Pacific research network emerged that produced massive amounts of data about the dropping of the bomb and subsequent nuclear tests in and around the Pacific rim Ran Zwigenberg traces these efforts and the ways they were interpreted differently across communities of researchers and victims He explores how the bomb s psychological impact on survivors was understood before we had the concept of post traumatic stress disorder In fact psychological and psychiatric research on Hiroshima and Nagasaki rarely referred to trauma or similar categories Instead institutional and political constraints most notably the psychological sciences entanglement with Cold War science led researchers to concentrate on short term damage and somatic reactions or even in some cases on denial of victims suffering As a result very few doctors tried to ameliorate suffering But Zwigenberg argues it was not only that doctors failed to issue the right diagnosis the victims experiences also did not necessarily conform to our contemporary expectations As he shows the category of trauma should not be used uncritically in a non Western context Consequently this book sets out first to understand the historical cultural and scientific constraints in which researchers and victims were acting and second to explore how suffering was understood in different cultural contexts before PTSD was a category of analysis      The Stars of Liberty Morsheda Amin,2021-02-16 The book is about me becoming able to figure out the beauty of the source Our creative potential is endless We enjoy our creative process and are willing to use all our will to manifest our dreams But one thing is missing We don t know how to receive the creation where we are included with our creative power To receive creation we want to be aligned with the universe by dissolving the ego and the barriers that lie between us and unconditional love When we are aligned with the universe we are relaxed Our relaxation allows us to catch the creation with wonderment And here we enter the world of fascination enchantment splendor It seems our life is a gift from a higher entity We all are benefited with the gift but we don t know about the endless possibilities of the gift We don t know it because we don t know how to receive the creation in our hearts In my book I described who we are in creation and how we can be intimate with the creation to make us free from the sarcastic world This book is a metaphor It is all about what works for us and what doesn t work for us We literally can liberate ourselves if we are able to harness the management of relationships with God and all living beings surrounding us This is not a religious book It is all spirituality and how we are

already being benefited with spirituality without even knowing it I just tried to make a bridge over the gap of ignorance I realized something and I am asking others to realize the same thing so they can be free as me LIFE LESSONS FOR ALL SEASONS V.
