No. 9.* Aleister Crowley, Magick in Theory and Practice The Master Therion, EXISTENCE as we know it is full of sorrow To mention only one minor point every man is a condemned criminal only he does not know the date of his execution This is unpleasant for every man Consequently every man does everything possible to postpone the date and would sacrifice anything that he has if he could reverse the sentence Practically all religions and all philosophies have started thus crudely by promising their adherents some such reward as immortality No religion has failed hitherto by not promising enough the present breaking up of all religions is due to the fact that people have asked to see the securities Men have even renounced the important material advantages which a well organized religion may confer upon a State rather than acquiesce in fraud or falsehood or even in any system which if not proved guilty is at least unable to demonstrate its innocence Being more or less bankrupt the best thing that we can do is to attack the problem afresh without preconceived ideas Let us begin by doubting every statement Let us find a way of subjecting every statement to the test of experiment Is there any truth at all in the claims of various religions Let us examine the question Our original difficulty will be due to the enormous wealth of our material To enter into a critical examination of all systems would be an unending task the cloud of witnesses is too great Now each religion is equally positive and each demands faith This we refuse in the absence of positive proof But we may usefully inquire whether there is not any one thing upon which all religions have agreed for if so it seems possible that it may be worthy of really thorough consideration It is certainly not to be found in dogma Even so simple an idea as that of a supreme and eternal being is denied by a third of the human race Legends of miracle are perhaps universal but these in the absence of demonstrative proof are repugnant to common sense But what of the origin of religions How is it that unproved assertion has so frequently compelled the assent of all classes of mankind Is not this a miracle There is however one form of miracle which certainly happens the influence of the genius There is no known analogy in Nature One cannot even think of a super dog transforming the world of dogs whereas in the history of mankind this happens with regularity and frequency Now here are three super men all at loggerheads What is there in common between Christ Buddha and Mohammed Magical Energy in the Gnostic Mass Frater IAO131,2017-01-02 Frater IAO131 explores the concept of magickal energy both theoretically and practically **Equinox** ,1919 **Esotericism and Deviance** ,2024-02-06 The concept of deviance has been central to the academic study of Western esotericism since its inception This book being the proceedings of the 6th Biennial Conference of the European Society for the Study of Western Esotericism ESSWE explores the relationship between esotericism and various forms of deviance as concept category and

practice from antiquity until late modernity The volume is the first to combine incisive conceptual explorations of the concept of deviance and how it informs and challenges the study of esotericism alongside a wide range of empirically grounded case discussions

the landscape of mystical literature Ritual Embodiment in Modern Western Magic Damon Zacharias Lyncourinos, 2017-11-15 In the Western world magic has often functioned as an umbrella term for various religious beliefs and ritual practices that seek to influence events by harnessing supernatural power The definition of these myriad occult and esoteric traditions have however usually come from those that are opposed to its practice notably authorities in religious legal and intellectual spheres This book seeks to provide a new perspective directly from the practitioners of modern Western magic by exploring how a distinctive mode of embodiment and consciousness can produce a transition from an ordinary to a magical worldview Starting with an introduction to the study of magic in the Western academy the book then presents the author's own participant observation of five ethnographic case studies of modern Western magic The focus of these ethnographic case studies is directed towards ideas and methods the informants employ to self-legitimise and self-represent as magicians It concludes by discussing the phenomenological implications and issues around embodiment that are inherent to the contemporary practice of magic This is a unique insight into the lived experience of practitioners of modern magic As such it will be of keen interest to scholars of the Occult and New Religious Movements as well as Religious Studies academics examining issues around the embodiment and the anthropology of religion **Death 2 My Past - Alternate Ending**

Saints & Sinners Antti P. Balk, 2008 This unique look at history elaborately recounts the birth of human civilization through the vehicle of ancient Egyptian deities albeit in light of the most recent knowledge on archaeology anthropology comparative religion linguistics sociology and general history It moves quickly but seamlessly to Greece via Crete revealing the relatively young age of Continental European and by extension all Western culture science art and religion and their highly derivative nature a point subtly repeated throughout this stunningly wide-ranging work A book of contrasts it constantly compares not only the Saints and the Sinners but the East and the West be the issues dealt with political or religious in most cases the one cannot be separated from the other It does not however presume to pass judgement only to relate the events as they happened the facts as they stand even if many of them are little-known ones conspicuous by their absence in standard school history books **The Equinox Vol. 1. No. 10.** Aleister Crowley, The Eloquent Blood Manon Hedenborg White, 2020 The Eloquent Blood focuses on the changing construction of femininity and feminine sexuality in

interpretations of the goddess Babalon A central deity in Thelema the religion founded by the notorious British occultist Aleister Crowley 1875 1947 Babalon is based on Crowley s favorable reinterpretation of the biblical Whore of Babylon and is associated with liberated female sexuality and the spiritual ideal of passionate union with existence Combining research on historical and contemporary Western esotericism with feminist and queer theory the book sheds light on the ways in which esoteric movements and systems of thought have developed over time in relation to political movements *The Future of Consumer Society* Maurie J. Cohen, 2016-11-03 Consumer society in the United States and other countries is receding due to demographic ageing rising income inequality political paralysis and resource scarcity At the same time steady jobs that compensate employees on a salaried or hourly basis are being replaced by freelancing and contingent work The rise of the so called sharing economy the growth of do it yourself production and the spreading popularity of economic localization are evidence that people are striving to find new ways to ensure livelihoods for themselves and their families in the face of profound change Indications are that we are at the early stages of a transition away from a system of social organization predicated on consumerism These developments have prompted some policy makers to suggest providing households with a non labor source of income that would enable more adequate satisfaction of their basic needs These proposals include a universal basic income a citizen s dividend and a legal framework for broad based stock ownership in corporations However extreme political fractiousness makes it unlikely that these recommendations will receive prompt and widespread legislative endorsement in most countries In the meantime we seem to be moving incontrovertibly toward a twenty first century version of feudalism How might we chart a different path founded on social inclusiveness and economic security A practicable option entails establishment of networks of interlinked worker consumer cooperatives that organizationally unify production and consumer Such modes of mutual assistance already exist and *The Future of Consumer Society* profiles several successful examples from around the world If replicated and scaled worker consumer cooperatives could smooth the transition beyond consumer society and facilitate a future premised on sufficiency resiliency and well being
