The Politics of Power Lars-Christian U. Talseth, 2017-01-20 This book sheds new light on the complex EU Russia relationship by providing the first comprehensive account of the EU Russia Energy Dialogue The author examines why Moscow and Brussels have failed to cooperate in this crucial area of interdependence By invoking constructivism and Mikhail Bakhtin's concept of dialogue and drawing on dozens of interviews with Russian and European officials Talseth argues that the Energy Dialogue was unsuccessful because its interlocutors failed to come up with a common narrative for cooperation Evidence suggests that the collapse of the Energy Dialogue was not pre determined and initially there was a great deal of optimism and goodwill Ultimately the outcome of the Energy Dialogue was shaped by the unfolding time space of Russo European relations

Defending Public Schools: Curriculum continuity and change in the 21st century David Gabbard, E. Wayne Ross, 2004 The volume addresses such issues as the extent to which public schools are succeeding and the degree to which contemporary criticism is or is not warranted By examining a range of content areas and a variety of philosophical and theoretical concerns this work homes in on the evolution of curricula methods and the forces and ideas that shape the debate Chapters reflect the view that criticism of public schools and teachers is misplaced and

misguided Public schools operate under great stress from the pedagogical and political Left and Right This often results in pressures and restrictions imposed through government mandates and corporate sponsorship that obscures the real issues and successes of America s public schools *Theology in a Post-Traumatic Church* Sheveland, John N.,2023-06-29 Clergy perpetrated child sexual abuse is addressed through theology scripture ethics and psychology **Social Medicine in the 21st Century** Samuel Barrack,2011-04 PLoS Medicine s October 2006 issue contained a special collection of eleven magazine articles and five research papers devoted entirely too social medicine The collection featured many of the leaders in the field including Paul Farmer Arthur Kleinman David Satcher Nancy Scheper Hughes Dorothy Porter and Leon Eisenberg The Kaiser Family Foundation has conducted interviews with two of the authors of papers in this collection David Satcher and Paul Farmer In its launch issue in October 2004 PLoS Medicine signaled a strong interest in creating a journal that went beyond a biological view of health to incorporate socioeconomic ethical and cultural dimensions For example that first issue contained a policy paper on how the health community should respond to violent political conflict a debate on whether health workers should screen all women for domestic violence and a study on the global distribution of risk factors for disease Two years on our October 2006 issue takes our interest even further It contains a special collection of ten magazine articles and fi ve research papers devoted entirely to social medicine We are delighted that the collection features many of the leaders in the fi eld including the renowned medical anthropologists Paul Farmer and Arthur Kleinman the former United States Surgeon General David Satcher and the Harvard professor of social medicine and psychiatry Leon Eisenberg Most of our readers have welcomed our inclusive view of what a medical journal should highlight Some however have been critical suggesting that we should publish less soft stuff and more hard science These critics might argue that in this era of stem cell research and the human genome project of molecular medicine and DNA microarray technology the notion of social medicine seems irrelevant and outmoded But the ultimate role of a medical journal is surely to contribute to health improvement and that means looking not just at molecules but at the social structures that contribute to illness The stark fact is that most disease on the planet is attributable to the social conditions in which people live and work The socially disadvantaged have less access to health services and get sicker and die earlier than the privileged Despite impressive technological advances in medicine global health inequalities are worsening *Anthropologica* ,2003 *Fieldiana* ,2003

State-Building in the Middle East and North Africa Mohammad-Mahmoud Ould Mohamedou,2021-10-21 Why have state building projects across the MENA region proven to be so difficult for so long Following the end of the Ottoman Empire in the early 1920s the countries of the region began a violent and divisive process of state formation But a century later state building remains inconclusive This book traces the emergence and evolution of state building across the MENA region and identifies the main factors that impeded its success the slow end of the Ottoman Empire the experience of colonialism and the rise of nationalistic and religious movements The authors reveal the ways in which the post colonial state proved itself

authoritarian and formed on the model of the colonial state They also identify the nationalist and Islamist movements that competed for political leadership across the nascent systems enabling the military to establish a grip on the security apparatus and national economies Finally in the context of the Arab Spring and its conflict filled aftermath this book shows how external powers reasserted their interventionism In outlining the reasons why regional states remained hollow and devoid of legitimacy each of the contributors shows that recent conflicts and crises are deeply connected to the foundational period of one century ago Edited by Mohammad Mahmoud Ould Mohamedou the volume features contributions by stellar scholars including Faleh Abdel Jabar Lisa Anderson Bertrand Badie Fran ois Burgat Benoit Challand Ahmad Khalidi Henry Laurens Bruce Rutherford Jordi Tejel and Ghassan Salam UNRWA and Palestinian Refugees Sari Hanafi, Leila Hilal, Lex Takkenberg, 2014-04-24 Exploring the evolution of the United Nations Relief and Works Agency for Palestine Refugees in the Near East UNRWA this book fills a lacuna in literature on the agency UNRWA and Palestinian Refugees employs recent fieldwork in order to analyse challenges in programmes and service delivery protection camp governance community participation and camp improvement and reconstruction The chapters examine the way UNRWA is adapting to a changing social political and economic context mostly within urban settings a paradigmatic shift from understanding the Agency's role as simply a provider of relief and services to one comprehensively supporting the human development of Palestinian refugees Examining the refugee debate using new disciplines and research frameworks this collection aims to emphasise the centrality of the Palestinian refugee issue for Middle East peace making and to contribute a better understanding of a unique agency This book will be a useful aid for students and researchers with an interest in Middle East Studies Politics and the Israeli Palestinian conflict Global Applications of Indian Psychology: Therapeutic and Strategic Models Sathiyaseelan, Anuradha, Balasundaram, Sathiyaseelan, 2023-12-01 Global Applications of Indian Psychology Therapeutic and Strategic Models addresses the critical problem of the limited perspective in traditional Western psychology which fails to encompass crucial aspects of human experience and well being in our complex modern world Edited by Anuradha Sathiyaseelan and Sathiyaseelan Balasundaram from Christ University India this comprehensive guide offers an interdisciplinary exploration of Indian psychology as a solution to this challenge Delving into the historical and philosophical foundations of Indian psychology the book provides readers with a profound understanding of its principles and theories It highlights the wide ranging applications of Indian psychology across disciplines such as management health and clinical practices emphasizing the significance of ancient Indian texts ayurveda yoga and mindfulness meditation By facilitating cross cultural dialogue and collaboration this book bridges the gap between Indian and Western psychology equipping researchers and practitioners with insights from both traditions This comprehensive approach fosters a more comprehensive understanding of human psychology and empowers individuals to develop effective strategies for promoting well being and flourishing on a global scale With its unique perspective and practical insights Global Applications of Indian Psychology Therapeutic and Strategic

Surreal Entanglements Louise Economides, Laura Shackelford, 2021-05-18 This edited collection approaches the most pressing discourses of the Anthropocene and posthumanist culture through the surreal yet instructive lens of Jeff VanderMeer's fiction In contrast to universalist and essentializing ways of responding to new material realities VanderMeer's work invites us to re-imagine human subjectivity and other collectivities in the light of historically unique entanglements we face today the ecological technological aesthetic epistemological and political challenges of life in the Anthropocene era Situating these messy multi-scalar material complexities of life in close relation to their ecological material and colonialist histories his fiction renders them at once troublingly familiar and strangely generative of other potentialities and insight The collection measures VanderMeer's work as a new kind of speculative surrealism his texts capturing the strangeness of navigating a world in which nature has become radically uncanny due to global climate change and powerful bio-technologies The first collection to survey academic engagements with VanderMeer this book brings together scholars in the fields of environmental literature science fiction genre studies American literary history philosophy of technology and digital cultures to reflect on the environmentally culturally aesthetically and politically central questions his fiction poses to predominant understandings of the Anthropocene

The Dilemmas of American Conservatism Kenneth Deutsch, 2010-09-24 In the second half of the twentieth century American conservatism emerged from the shadow of New Deal liberalism and developed into a movement exerting considerable influence on the formulation and execution of public policy in the United States During that period the political philosophers who provided the intellectual foundations for the American conservative movement were John H. Hallowell Eric Voegelin Leo Strauss Richard Weaver Russell Kirk Robert Nisbet John Courtney Murray Friedrich Hayek and Willmoore Kendall By offering a comprehensive analysis of their thoughts and beliefs *The Dilemmas of American Conservatism* both illuminates the American conservative imagination and reveals its most serious contradictions The contributing authors question whether a core set of conservative principles can be determined based on the frequently diverging perspectives of these key philosophers
