Engaging And Changing Higher Education Through Brokerage:

Engaging and Changing Higher Education Through Brokerage Norman Jackson, 2018-01-12 This title was first published in 2003 During the 1990s UK higher education was transformed through the full panoply of levers available to government legislation funding to encourage expansion and change regulation and a national review As we enter the 21st century new organizational agents acting as brokers are emerging as important facilitators of systemic change The central argument in this book is that brokering is a process that facilitates change at all levels of the education system and enables UK higher education to be more adaptive and responsive to society and the global marketplace The educational broker is a facilitator who connects people networks organizations and resources to support change The process is key to creating new innovative capacities involving partnerships that are now required of a socially attuned and continuously adaptive mass system The educational brokerage role also includes activities that might be associated with the business world where the broker is an agent promoter dealer or trader or the political world where the broker is a diplomat mediator and negotiator There has been little recognition description or analysis of brokerage which is essential to the rapid development and utilization of knowledge in a large complex diverse multipurpose and autonomous HE system These new capacities offer exciting possibilities for advancing UK HE and for gaining competitive advantage This volume provides through a series of organizational case studies important new insights into the ways in which change is being brokered by national bodies like the Learning and Teaching Support Network University for Industry the e university and the Quality Assurance Agency It also provides an overview of the international scene to show that UK higher education is leading the world in this approach to the development of a higher education system

Turbulent Times Fitzgerald, Tanya, 2014-06-30 Over the last three decades higher education institutions have experienced massive changes In particular institutions of higher education have been positioned as a means to contribute to the knowledge economy and gain a level of competitive advantage in the global marketplace Advancing Knowledge in Higher Education Universities in Turbulent Times addresses ways in which knowledge is shaped produced and reworked to meet international demands for productive workforces Divided into three sections that interrogate the higher education policy context knowledge production and knowledge workers this reference publication focuses on the role of higher education in business value creation and competitive advantage serving as a useful reference for academicians professionals researchers and students

Leading Learning and Teaching in Higher Education Doug Parkin, 2016-08-19 Leading Learning and Teaching in Higher Education brings together contemporary ideas on leadership engagement and student learning into a practical solutions based resource designed for those undertaking the challenge of leading a university level teaching module programme or suite of programmes particularly through periods of transformation or change It encourages both first time academic leaders and those who have held teaching leadership roles for some time to review and formalise their

development in a systematic simple way and acts as a framework for navigating the opportunities and challenges involved in inspiring shared purpose strong commitment and innovation in higher education teaching With a clear focus on the energy of leadership rather than the practice of management and with a strong emphasis on collaborative engagement running throughout this books offers Insightful guidance which is not bound to subject specific requirements making it relevant across the spectrum of course offerings at any one institution An enabling people focussed foundation for leadership Tools and frameworks which can be readily applied or adapted for the reader A focus on core elements of teaching leadership such as design delivery assessment and building a programme team A flexible and pragmatic approach to leadership which avoids a definitive approach instead encouraging a dynamic method of engaging leadership Values that assert that leadership and learning go hand in hand A wide ranging discussion of leadership theories ideas and values related to the university context This book puts forward a multifaceted model of programme leadership and links this to a scaffolding of key attributes skills and qualities that fit the environment of leading learning and teaching in the university Particularly interested readers will be those beginning to lead teaching in a university setting as well as those who have been leading programme teams and the wider provision of teaching for some time wanting to enhance their skills and perspective

Tackling the Wicked Challenge of Strategic Change Pamela Baker, Norman Jackson, Jane Longmore, 2014-06-19 The aim of this book is to make better sense of a long complex messy change process through the stories of those who were involved Over fifty participants were interviewed during the course of the study and their uniquely personal perspectives have been woven into a compelling story of organisational change This book describes their ingenuity and effort in bringing about change that they and their organisation valued Between 2009 and 2012 Southampton Solent University UK engaged in an unprecedented and highly complex strategic initiative which ran across the entire institution its structures processes and systems it aimed to produce a fundamental shift in institutional culture Such an all embracing approach is rare in universities This programme of organisational change is seen through the eyes of people who were immersed in the process Their perspectives and feelings will resonate with anyone who has tried to bring about significant change in a university Universities are inherently creative places but too often there is a pervasive inertia that prevents ideas from being turned into new and better practices This programme aimed to create a culture of innovation Conventional project planning techniques were deliberately avoided and replaced with an approach based on complexity theory recognising that the process of change requires constant adaptation acceptance of non linear progress and subversion of conventional management discourse Offering an unusual example from the higher education sector this study is a distinctive contribution to the extensive literature on organisational change Learning gained from participants is related to theories and research from this wider literature The study proposes a holistic and integrated approach to change which might offer a more culturally relevant and sustainable model both for higher education and for those sectors of industry and commerce from which much change management practice has conventionally

been drawn *The Palgrave Handbook of Academic Professional Development Centers* Otherine Johnson Neisler, 2022-11-30 This handbook provides a global overview of the design implementation and assessment of academic development centers within higher education institutions The current nature of our complex rapidly changing world makes it imperative that colleges and universities worldwide find ways to educate their students in new and better ways this is reflected in a change in focus from teaching and testing to maximizing student learning in line with the core mission of ADCs to ensure students achieve the best possible learning outcomes This handbook builds on this transformation as well as the foundational ADC structure and programming guidelines established by the Professional and Organizational Development Network to offer a comprehensive exploration of professional development in the sector This handbook is global in scale and comprehensive in scope addressing various key topics such as organizational structure and leadership funding and program design It calls for professors and academics to reflect on and adapt their methods of teaching independent to their research and provides helpful frameworks and case studies for researchers designing centers or seeking models for additional programs Routledge Handbook of Academic Knowledge Circulation Wiebke Keim, Leandro Rodriguez Medina, Rigas
