Re-envisioning Egypt 1919-1952 Arthur Goldschmidt, Amy J. Johnson, Barak A. Salmoni, 2005 Re Envisioning Egypt 1919 1952 presents new and often dismissed aspects of the constitutional monarchy era in Egyptian history It demonstrates that many of the domestic and regional sociopolitical and cultural changes credited to the 1952 revolutionaries actually began in the decades before the July coup Arguing against the predominant view of the pre revolutionary era in Egypt as one of creeping decay the volume restores understandings of the 1919 1952 years as integral to modern nation state formation and social transformation The book's contributors show that Egypt's real revolutions were long term processes emerging over several decades prior to 1952 The leaders of the 1952 coup capitalized on these developments yet earlier changes in Egyptian society fundamentally facilitated their actions and policies This volume includes revisionist discussion of domestic political issues and foreign policy the military education social reform and class as well as popular media art and literature By introducing new approaches to these under appreciated categories of analysis through exploration of untapped sources and by re examining the political context of the time Re Envisioning Egypt 1919 1952 proposes innovative methodologies for understanding this crucial period in Egyptian history casting these years as fundamental to the country's twentieth century trajectory Contributors Tewfik Aclimandos Malak Badrawi Andrew Flibbert Nancy Gallagher Arthur Goldschmidt Mervat Hatem Misako Ikeda Amy J Johnson Anne Claire Kerboeuf Samia Kholoussi Hanan Kholoussy Fred Lawson Shaun T Lopez Scott David McIntosh Roger Owen Lucie Ryzova Barak A Salmoni James Whidden Caroline Williams The Greek Exodus from Egypt Angelos Dalachanis, 2017-04-01 From the nineteenth century to the middle of the twentieth Greeks comprised one of the largest and most influential minority groups in Egyptian society yet barely two thousand remain there today This painstakingly researched book explains how Egypt's once robust Greek population dwindled to virtually nothing beginning with the abolition of foreigners privileges in 1937 and culminating in the nationalist revolution of 1952 It reconstructs the delicate sociopolitical circumstances that Greeks had to navigate during this period providing a multifaceted account of demographic decline that arose from both large structural factors as well as the decisions of countless individuals The History of Egypt Glenn E. Perry, 2015-12-01 Providing a valuable resource for readers seeking information on all periods of Egyptian history this book covers Egypt starting from ancient times and continuing through the medieval Islamic period to focus on the events of the last 100 years including the aborted revolution of 2011 Egypt has experienced tumultuous events in recent years especially starting with the uprisings and revolution of 2011 This second edition of The History of Egypt not only provides readers with in depth information on events of the last decade such as the Arab Spring the removal of Hosni Mubarak from office and the protests against Mohamed Morsi's presidency but also provides key background with chapters addressing previous periods of the country's history starting from pre Islamic times to pharaonic to Byzantine The volume

offers an objective history of Egypt that is uniquely appropriate for a high school audience This expanded and extensively updated second edition provides new content and media photographs that help bring recent events to life for readers without previous knowledge about the topic It also includes coverage of important events in long ago Egyptian history that lends valuable perspective to events in the 21st century such the nation s transformation into a Muslim and Arab country and Egypt s post 1778 imperialism and modernization through World War I Identifying with Nationality Will Hanley, 2017-04-04 Nationality is the most important legal mechanism sorting and classifying the world's population today. An individual s place of birth or naturalization determines where he or she can and cannot be and what he or she can and cannot do Although this system may appear universal even natural Will Hanley shows that it arose just a century ago In Identifying with Nationality he uses the Mediterranean city of Alexandria to develop a genealogy of the nation and the formation of the modern national subject Alexandria in 1880 was an immigrant boomtown ruled by dozens of overlapping regimes On its streets and in its police stations and courtrooms people were identified by name occupation place of origin sect physical description and other attributes Yet by 1914 before nationalist calls for independence and decolonization had become widespread nationality had become the defining category of identification and nationality laws came to govern Alexandria's population Identifying with Nationality traces the advent of modern citizenship to multinational transimperial settings such as turn of the century colonial Alexandria where ordinary people abandoned old identifiers and grasped nationality as the best means to access the protections promised by expanding states The result was a system that continues to define and divide people through status mobility and residency Histories of the Jews of Egypt Dario Miccoli, 2015-03-24 Up until the advent of Nasser and the 1956 War a thriving and diverse Jewry lived in Egypt mainly in the two cities of Alexandria and Cairo heavily influencing the social and cultural history of the country Histories of the Jews of Egypt argues that this Jewish diaspora should be viewed as an imagined bourgeoisie It demonstrates how from the late nineteenth century up to the 1950s a resilient bourgeois imaginary developed and influenced the lives of Egyptian Jews both in the public arena in institutions such as the school and in the home From the schools of the Alliance Isra lite Universelle and the Cairo lyc e fran ais to Alexandrian marriage contracts and interwar Zionist newspapers this book explains how this imaginary was characterised by a great capacity to adapt to the evolutions of late nineteenth and early twentieth century Egypt but later deteriorated alongside increasingly strong Arab nationalism and the political upheavals that the country experienced from the 1940s onwards Offering a novel perspective on the history of modern Egypt and its Jews and unravelling too often forgotten episodes and personalities which contributed to the making of an incredibly diverse and lively Jewish diaspora at the crossroads of Europe and the Middle East this book is of interest to scholars of Modern Egypt Jewish History and of Mediterranean History Revolutionary Womanhood Laura Bier, 2011-08-24 The book explores state feminism through a close look at how the Nasser regime took up the woman question as part of the attempt to build a modern Egyptian nation

intricate nuances present in otherwise marginalized bodily interaction and exchange recognizing their potential to inspire into more revolutionary realities and relationships Women and Citizenship Marilyn Friedman, 2005-10-27 The notion of citizenship is complex it can be at once an identity a set of rights privileges and responsibilities an elevated and exclusionary status a relationship between individual and state and more In recent decades citizenship has attracted interdisciplinary attention particularly with the transnational growth of Western capitalism Yet citizenship s relationship to gender has gone relatively unexplored despite the globally pervasive denial of citizenship to women historically and in many places ongoing today This highly interdisciplinary volume explores the political and cultural dimensions of citizenship and their relevance to women and gender Containing essays by a well known group of scholars including Iris Marion Young Alison Jaggar Martha Nussbaum and Sandra Bartky this book examines the conceptual issues and strategies at play in the feminist guest to give women full citizenship status The contributors take a fresh look at the issues going beyond conventional critiques and examine problems in the political and social arrangements practices and conditions that diminish women s citizenship in various parts of the world Women and Media in the Middle East Naomi Sakr, 2004-09-24 Is today s changing media landscape in the Middle East empowering women This is the first book to address the dynamics of media ecology and women s advancement in the contemporary Middle East The book spans both the region and media forms from Iran s women s press via Maghrebi women filmmakers and Egyptian political films Palestinian TV and Hezbollah s TV station Al Manar It takes as its starting point the diverse experiencees and multi layered identities of women and treats media institutions and practices as part of wider power relations in society By analysing media production consumption and texts it reveals where and how gender boundaries have been erected or crossed Euro-Mediterranean Relations after the Arab Spring Jakob Horst, Annette Jünemann, Delf Rothe, 2016-04-29 The Arab Spring triggered paradigmatic shifts but despite these changes much in the Euro Mediterranean region remains the same Utilising Logics of Action an innovative theoretical framework designed to capture the complexity of political interaction in one of the fastest changing regions in the world this book discusses developments in the region before and after the Arab Spring that can be characterised by a continuation of the norm Expert contributors identify patterns of interaction between governmental institutions economic entrepreneurs religious groups and other diverse actors that withstood these historical changes and explore why these relationships have proved so robust Connecting a unique sample of case studies on changing and persistent Logics of Action within the Euro Mediterranean space this book provides a pivotal contribution to our understanding of political interaction between North Africa the Middle East and the European Union Offering a completely new perspective on the events of the Arab Spring it identifies something that seems paradoxical at first sight persistence in times of radical change **Sex Work in Colonial Egypt** Francesca Biancani, 2018-07-30 In the early 20th century Cairo was a vibrant and booming global metropolis The integration of Egypt into the global market had led to rapid urban growth and increased migration As occupational prospects for women outside the family were limited sex work became a prominent feature of the new modern city However the economic and social changes in Egypt ignited national anxieties about racial degeneration social disorder and imperial decadence Francesca Biancani argues here that this was a period of national crisis that became inscribed on the bodies on female sex workers Based on a wide range of rare primary sources including documents from court cases reformist papers police minutes and letters Biancani examines the discourses around sex workers and shows how prostitution was understood in colonial Egypt The book argues that from initially regulating and managing prostitution local and colonial elites began to depict sex workers as a threat to the physical and moral welfare of the rising Egyptian nation However far from being a marginal activity prostitution is shown to play a central role in the history of Egyptian nation making By exploring the interdependence of power and marginality respectability and transgression Biancani writes sex work and its practitioners back into the history of modern Egypt The book is an original contribution to the global history of prostitution and a vital resource for scholars of Middle East Studies African Families at the Turn of the 21st Century Baffour K. Takyi, Yaw Oheneba-Sakyi, 2006-03-30 The institution of family has been central to the well being of African societies over the years African families have undergone significant transformation caused by the interplay of indigenous Arabic Islamic and European Christian cultures The juxtaposition of these three cultures in the lives of African peoples captures the triple heritage image of the continent At the same time modernization urbanization and migration have played and continue to play significant roles in the transformation of families across the continent While it is true that the traditional family has changed in many ways and that African families are continuously confronted with new challenges the renowned contributors to this volume recognize that the African family continues to adapt to emerging structural changes In the new millennium a host of issues and challenges has emerged each with the potential to weaken or threaten the survival of the traditional African family These include the HIV AIDS pandemic a growing elderly population declining governmental support and economic decay How the post colonial family reacts to these threats and challenges has the potential to either maintain or undermine the family s role as a major organizing principle in Africa The institution of family has been central to the well being of African societies over the years African families have undergone significant transformations caused by the interplay of indigenous Arabic Islamic and European Christian cultures The juxtaposition of these three cultures in the lives of African peoples captures the triple heritage image of the continent At the same time modernization urbanization and migration have played and continue to play a role in the transformation of families across the continent While it is true that the traditional family has changed in many ways and that African families are continuously confronted with new challenges the contributors to this volume recognize that the African family has adapted to the emerging structural changes In the new millennium a host of issues and challenges have the potential to weaken or threaten the survival of the traditional African family These include the HIV AIDS pandemic which seems to afflict the young and able bodied a growing elderly population declining governmental

support and economic decay How the post colonial family reacts to these threats and challenges has the potential to either maintain or undermine the family s role as a major organizing principle in Africa Profound transitions have occurred in family structure and processes since the post colonial period This work points to some of the documented transformations in African family life including the changing modes of decision making due to the establishment of a cash crop economy nuptial patterns changing maternal roles an increasing age at marriage and declining fertility a growing number of households headed by women an increase in the rate of marital instability and dissolution and changing patterns of mate selection and Nurturing the Nation Lisa Pollard, 2005-01-31 Focusing on gender and the family this erudite and innovative history reconsiders the origins of Egyptian nationalism and the revolution of 1919 by linking social changes in class and household structure to the politics of engagement with British colonial rule Lisa Pollard deftly argues that the Egyptian state s modernizing projects in the nineteenth century reinforced ideals of monogamy and bourgeois domesticity among Egypt's elite classes and connected those ideals with political and economic success At the same time the British used domestic and personal practices such as polygamy the harem and the veiling of women to claim that the ruling classes had become corrupt and therefore to legitimize an open ended tenure for themselves in Egypt To rid themselves of British rule bourgeois Egyptian nationalists constructed a familial political culture that trained new generations of nationalists and used them to demonstrate to the British that it was time for the occupation to end That culture was put to use in the 1919 Egyptian revolution in which the reformed bourgeois family was exhibited as the standard for modern Egypt
