Clark, 2020-04-16 Dasha is a gift. Only she's not very gifted. Both books in the award-winning Breathing Sea mini series in one omnibus edition. Dasha was born at the behest of the gods, her mother's pledge between the world of women and the world of spirits. The Krasnograd kremlin looks to her to rule with fire, steel, and magic just as her Imperial foremothers did. Instead, she's shy, retiring, and the least magically talented girl her tutors have ever seen. Now that she's almost a woman grown, she needs to learn to harness her gifts but all she can do is have fits and useless visions. When her father offers to take her on her first journey away from Krasnograd, Dasha jumps at the chance to see her native land. But their journey quickly turns into more than a mere pleasure trip. The wide world is more dangerous than Dasha had imagined, and her rapidly growing gifts may be the most dangerous thing in it. But Dasha is not the only danger. In Zem, war is raging on its borders and threatens to spill into Zem itself. No matter which side Dasha's people choose, they may not be able to keep their freedom and their way of life. Dasha may hold the key to protecting Zem, but she may have to lose herself in order to save her people. Law is a varied, powerful, and highly rewarding profession. Studies show, however, that lawyers have higher rates of alcoholism, divorce, and even suicide than the general population. Stress creates these poor outcomes, including the stress of dealing with other people's problems all day, the stress of spending excessive amounts of time at work, and the stress of being disconnected to what is most meaningful in life. Through mindfulness and emotional intelligence training, lawyers can improve focus, get more work done in less time, improve their interpersonal skills, and seek and find work that will make their lives more meaningful. This book is designed to help law students and lawyers of all experience levels find a sustainable and meaningful life in the field of law. This book includes journaling and other interactive exercises that can help lawyers find peace, focus, meaning, and happiness over a lifetime of practicing law. **Making Sense of Child Sexual Exploitation** Sophie Hallett,2017-03-29 Child sexual exploitation CSE is now high on the social care agenda but what is it How is it different from other forms of child sexual abuse This important book puts

forward the rarely heard voices of children and young people who have experienced CSE and the professionals who have worked with them to answer these questions Taking a critical perspective Hallett also addresses the possibility that further problems might arise from the framing of child sexual exploitation which can have serious implications for the ways that society responds to CSE and to the children and young people caught up in it Central to the discussion are themes such as youth childhood care and power making for an important sociological contribution to this under researched field The book challenges the dominant way of thinking about CSE and with new and valuable practice and policy relevant insights is also essential reading for those working or training to work with children and young people

*Three Years with the Rat* Jay Hosking, 2017-01-24 *Three Years with the Rat* is a mind warping thriller that will make you question reality as you conceive of it One of the most assured and haunting debuts I've read in recent memory Blake Crouch author of *Dark Matter* After several years of drifting between school and go nowhere jobs a young man is drawn back into the big city of his youth The magnet is his beloved older sister Grace always smart and charismatic even when she was rebelling and always his hero Now she is a promising graduate student in psychophysics and the center of a group of friends who take Little Brother into their fold where he finds camaraderie romance and even a decent job But it soon becomes clear that things are not well with Grace Always acerbic she now veers into sudden rages that are increasingly directed at her adoring boyfriend John who is also her fellow researcher When Grace disappears and John shortly thereafter the narrator makes an astonishing discovery in their apartment a box big enough to crawl inside a lab rat and a note that says This is the only way back for us Soon he embarks on a mission to discover the truth a pursuit that forces him to question time and space itself and ultimately toward a perilous confrontation at the very limits of imagination This kinetic novel catapults the classic noir plot of a woman gone missing into the twenty first century city where so called reality crashes into speculative science Jay Hosking's *Three Years with the Rat* is simultaneously a mind twisting mystery that plays with the very nature of time and the story of a young man who must face the dangerously destructive forces we all carry within ourselves
