Weekly ,1973 exactphilosophy.net 2019 Alain Stalder,2019-05-21 This book presents the website exactphilosophy net in 2019 Written by a Swiss physicist it contains lots of beautiful novel ideas inspired by nature and physics ancient and modern philosophy as well as by astrology the I Ching and more For the first time this book compiles all web pages and articles in a single printed volume A real treasure trove for anyone with a mind free enough to think outside the tesseract about philosophy science history art and a lot more Most contributions are related to a new approach to elements tentatively defined from first principles related to space and time in immediate perception inspired by Kant but often going way beyond ancient Greek elements or the trigrams of the Chinese I Ching considering also how astrology or telepathy could work in ways that would be astonishingly simple everyday physics even though they would still be illusions in a way And there is more [Human Design System - The Centres](#) Peter Schoeber,2014-01-01 In this groundbreaking book about Human Design Peter Schoeber provides a comprehensive exposition of the most fundamental subjects in HD How came it to the world What are the different foundations of the system How is the bodygraph calculated In its main part the book contains a systematic presentation of all centers in general and their potential and challenge in the state of definition and of openness Many concrete everyday examples add to the practical value of this volume You will enjoy reading it and you will know yourself much better afterwards Visit us at www.humandesignservices.de [APOCATASTASIS](#) Emil Lips,2016-03-03 Strokes of genius come rarely in life This is one of those APOCATASTASIS is an extraordinary work In simple clear language Lips takes the reader to a deeper understanding of the planets their dignities and debilities and on to a world formula that brings order to chaos and that will change our world view The experienced teacher Heisenberg would only examine the work of his pupils when the result was simple and aesthetically beautiful The result presented by Lips is simple and beautiful His astrological research has enabled him to discover the law that thinkers of all cultures have been searching for since time immemorial The principles of his symmetrical theory are now seen to be inevitable not to be confused with the Christian or Stoic meaning of this term is the astrological teaching of the eternal cycle of the celestial rulers planets and their rulership over all things and the zodiac signs **In Search of a Universal Ethics** Weishi Yuan,2023-09-01 This book investigates Albert Schweitzer s research on China which first emerged in the 1910s and ended in 1939 40 Schweitzer s China research evolved alongside the development of his Kulturphilosophie research for over a quarter of a century In Part I In Preparation this book will mainly focus on the historical background against which Schweitzer formulated his Reverence for Life and established his networks with the China experts In Part II In Progress Schweitzer s periodic research outcomes which were presented in several of his publications and manuscripts will be studied Subsequently in Part III In Completion Richard Wilhelm s translation of the Yi Jing which lay down the fundamental principles for Chinese thought Schweitzer s final manuscript from 1939 40 under the title Geschichte des indischen und chinesischen Denkens and his final depiction of Chinese thought will be given special attention The starting point for Schweitzer s China research was his ideal ethical philosophy of Reverence for Life which he

formulated in the context of the decline of the Western civilization and was heavily shaped by his religious and philosophical convictions. Reverence for Life underscored humanistic concerns and its ideals eventually became Schweitzer's interpretative principles in his investigation of Chinese thought. Schweitzer was never a specialist in Chinese thought and Chinese civilization. Dependent on the research of European sinologists, his China research served to justify the necessity for Reverence for Life as well as of the methods for applying this new ethical philosophy. During his entire China research, Schweitzer made great efforts to critically interpret and transform the knowledge that had been conveyed by European sinologists such as Richard Wilhelm. Although in his final research, Schweitzer had already seen great resemblance between classical Confucianism in China and his Reverence for Life, he did not ultimately manage to verify his assumptions. His final manuscript on Chinese thought from 1939-40 remained unpublished when he passed away in 1965.

The Rhetoric of Topics and Forms Gianna Zocco, 2021-01-18. The fourth volume of the collected papers of the ICLA congress *The Many Languages of Comparative Literature* includes articles that study thematic and formal elements of literary texts. Although the question of prioritizing either the level of content or that of form has often provoked controversies, most contributions here treat them as internally connected. While theoretical considerations inform many of the readings, the main interest of most articles can be described as rhetorical in the widest sense, given that the ancient discipline of rhetoric did not only include the study of rhetorical figures and tropes such as metaphor, irony, or satire, but also that of *topoi* which were originally viewed as the places where certain arguments could be found but later came to represent the arguments or intellectual themes themselves. Another feature shared by most of the articles is the tendency of undeclared thematology, which not only reflects the persistence of the charge of positivism but also shows that most scholars prefer to locate themselves within more specific, often interdisciplinary fields of literary study. In this sense, this volume does not only prove the ongoing relevance of traditional fields such as rhetoric and thematology but provides contributions to currently flourishing research areas among them: literary multilingualism, literature and emotions, and ecocriticism.

Unearthing the Changes Edward L. Shaughnessy, 2014-02-25. In recent years, three ancient manuscripts relating to the *Yi jing* (I Ching) or *Classic of Changes* have been discovered. The earliest, the Shanghai Museum *Zhou Yi*, dates to about 300 B.C.E. and shows evidence of the text's original circulation. The *Gui cang* (or *Returning to Be Treasured*) reflects another ancient Chinese divination tradition based on hexagrams similar to those of the *Yi jing*. In 1993, two manuscripts found in a third-century B.C.E. tomb at Wangjiatai contained almost exact parallels to the *Gui cang*'s early quotations, supplying new information on the performance of early Chinese divination. Finally, the *Fuyang Zhou Yi* was excavated from the tomb of Xia Hou Zao, lord of Ruyin, who died in 165 B.C.E. Each line of this classic is followed by one or more generic prognostications similar to phrases found in the *Yi jing*, indicating exciting new ways in which the text was produced and used in the interpretation of divinations. This book details the discovery and significance of the Shanghai Museum *Zhou Yi*, the Wangjiatai *Gui cang*, and the *Fuyang Zhou Yi*, including
