I Just Need a Hug Phil Bedford, 2022-01-06 During the pandemic lockdown of 2020 people could still communicate and meet digitally with their loved ones Yet upon actually meeting each other in the real world for the first time we kept saying and hearing I just need a hug It was obvious that there was more to relationships and connecting than just seeing people and communicating digitally The realisation of a special factor associated with the physical and real world meeting dawned The human need for intimacy and the success of any business may be more aligned than previously thought and it could be the edge we have been looking for to beat our competition In this book I ll discuss the insights unearthed as businesses struggled to sell to intimacy starved customers I ll be covering important concepts like building loyalty and trust through connections with both employees and customers I will explore this human factor and show you how to leverage it to survive and thrive in the new age of business post pandemic I ll take you on a journey into the science psychology and theory behind human connections and what they mean to the success of a growing business Who Needs a Hug? Intercorporeality Christian Meyer, Jürgen Streeck, J. Scott Jordan, 2017-07-10 This book draws inspiration from Maurice Merleau Ponty's concept of intercorporeality to offer a new multidisciplinary perspective on the body. By drawing attention to the body's ability to simultaneously sense and be sensed, Merleau Ponty transcends the object-subject divide and describes how bodies are about, into, and within other bodies. Such inherent relationality constitutes the essence of intercorporeality, and the chapters in this book examine such relationality from a host of diverse perspectives. The book begins with an introductory chapter in which the editors review the current research on bodily interaction and introduce the notion of intercorporeality as a potentially integrative framework. The first section then offers four chapters devoted to clarifying theoretical and developmental perspectives on intercorporeality. Section 2 contains three chapters that provide insight on intercorporeality from evolutionary, historical, and cross-sectional perspectives. In Section 3, four chapters examine the intercorporeal nature of meaning-making during human interaction. Section 4 then presents three chapters that explore the intercorporeal nature of multi-agent interactions and the role that non-animate bodies, i.e. objects, play in such interaction. Throughout all the chapters, the authors work to integrate research in their specific discipline into the larger transdisciplinary notion of intercorporeality. This collection provides an indisputably unique perspective on bodies in interaction while simultaneously offering an

interdisciplinary way forward in contemporary scholarship on bodies, meaning, and interaction. **Really Really** Paul Downs Colaizzo, 2015-05-15 A contemporary drama that pushes the edges and embraces the harsh reality of today's youth.
