I Ching Gustavo Andrés Rocco, 2003-07 AN INTENT TO ADAPT THE CONCEPT AND CULTURE OF I CHING TO THE OCCIDENTAL CULTURE

I Ching Thomas Cleary, 2005-11 El I Ching es el más antiguo y profundo de los textos clásicos chinos y ha sido venerado durante más de 3 000 años como oráculo y compendio de sabiduría Esta considerado como el antepasado de toda la filosofía y es la fuente primordial del misticismo del Tao Te King de la estrategia de el arte de la guerra y del humanismo de Confucio que anotó sus comentarios al texto En esta versión bellamente ilustrada Thomas Cleary se ha ceido al original chino respetando el sentido enigmático del I Ching lo que permite al lector una mayor libertad de interpretación de acuerdo con su propia intuición y circunstancias Precisamente este significado críptico y velado el que enriquece las lecturas y hace que esta una referencia inexcusable tanto para el que se acerca al I Ching por primera vez como para el que ya conoce otras versiones

The Great Shift Michael Drake, 2018-09-29 The Great Shift is about the new era of humanity. We have entered the new epoch of humanity's spiritual evolutionary journey into higher consciousness. Our present world is one in which order is arising out of chaos. Everything is changing and seeking equilibrium. The conditions are nothing short of a rebirth. We are quite literally witnesses and participants in the shift from individual to planetary consciousness. We are part of the emerging consciousness and the signs are everywhere. It is here now and we all have a part to play in it. This book is a guide to navigating the shift from an old paradigm into a new one. It is deeply rooted in the shamanic and Taoist traditions which are a fountain of wisdom and knowledge for restoring our relationship with the Earth. Shamanism and Taoism are a way of living in harmony with nature rather than an adherence to a religious doctrine. By practicing these ways of being we awaken our soul, calling and our connection to nature. They provide a myriad of responses to the spiritual quest of self discovery. They are ways that embed us in the living web of life yielding greater awareness and perspective. These practices are easily integrated into contemporary life and provide a means of navigating the turbulent times in which we live. [Parapsychology in the Twenty-First Century](#) Michael A. Thalbourne, Lance Storm, 2014-09-24 By now parapsychology should have become an accepted scientific field of research. However there is great resistance to parapsychological research despite the strength of evidence in favor of conducting it. This collection of essays focuses on the future of the psychical research field. One essay speculates about a kind of future when psychic phenomena are studied in every university. Another identifies 10 areas of potential difficulty facing parapsychology. Other essays indicate areas where conclusions may need re-examination and refinement and presents possibilities for innovative approaches to future study. Some of the areas of study covered include altered states of consciousness, ESP, Meta Analysis, the theory of psychopraxia and sociological and phenomenological issues.

Severo Sarduy and the Neo-baroque Image of Thought in the Visual Arts Rolando Pérez, 2012 Severo Sarduy never enjoyed the same level of notoriety as did other Latin American writers. On the other hand he never lacked for excellent critical interpretations of his work from critics like Roberto González Echevarría, René Prieto, Gustavo Guerrero and other reputable scholars. Missing however from what is otherwise an impressive body of critical commentary is a study of the importance of painting and architecture first to his theory and second to his creative work. In order to fill this lacuna in Sarduy studies Rolando Pérez's book undertakes a critical approach to Sarduy's essays *Barroco Escrito sobre un cuerpo Barroco y neobarroco* and *La simulación* from the stand point of art history. In short no book on Sarduy until now has traced the multifaceted art historical background that informed the work of this challenging and exciting writer. It will be a book.

Los engranajes del I Ching : elementos para una lectura razonable del Libro de los Cambios Cyrille Javary,2007-12-01 The Chinese Trace in Cuban Literature Rogelio Rodriguez Coronel,2024-10-30 A Chinese proverb that reminds us of this book reads The strongest and most luxuriant tree lives from what it has underneath Thus Cuban culture has nourishing sources that must be fully known in order to enjoy and understand what we are Generally the analyses of the nation s profile pay attention to the Hispanic and African components and the important role of the Chinese channel in our culture is often overlooked The Chinese Trace in Cuban Literature is without a doubt the most notable effort so far to reveal this trace in our literature from the 19th century to today and in different literary genres and discursive types as its author maintains From the creation of novel characters designed within a reproductive realism the assumption of signs typical of Chinese culture and thought for the shaping of the text the treatment of historical issues either in the evolutionary outline of a lineage or in the investigation of significant events the incursion into this problem from generic modalities or literary renovation proposals to the aesthetic feat of the transcoding of forms and meanings from
