Er Adventures in Rural America Ken Jones Jr. MD, 2020 This is the story of a General Surgeon in the American south who grew up in a time when there was little or no air conditioning accept for the super wealthy and even some rural homes had no indoor plumbing Following a two year stint in the Air Force during the Vietnam era I completed my surgical training and began a long career in General Pediatric and finally Bariatric obesity Surgery in a medium sized Southern American city It was a sheer joy to be instrumental in totally changing people s lives particularly those who were morbidly obese After doing over 4000 bariatric cases and helping them to appreciate a new lifestyle and longevity laparoscopy was added to bariatric surgery which almost spelled its doom initially However cool heads persisted the surgeons got the proper training they needed and open to laparoscopic bariatric surgery changed almost overnight as learning curve complication rates plummeted Rather than exposing my patients to same for the first several hundred cases in my late 60s I decided to retire Since I still had lots of energy and realizing that one can only play so much golf I recalled my residency days moonlighting in rural ERs This book is dedicated to an almost endless string of characters who were the basis of the stories you will read about herein It is certainly not meant as a how to do book in layman s ER medicine but merely an entertaining treatise about so many things in this 9 year ER career which brought so many smiles to my face Not only did I get a great sense of fulfillment as I realized how much diagnostic and fundamental surgical expertise is appreciated in the boonies but also the thanks that I would get from the eyes and hearts of my rural patients I was so privileged to see so many changes in equipment and knowledge as well as diagnostic and therapeutic skills compared to my past experience in early 1970s All these things are described herein and I hope you enjoy their descriptions as much as I have telling you these stories Thanks in advance for listening

The Poetical Works of William Wordsworth William Wordsworth, 1836 **Talking about Race in America:**

Conversations with conservatives, liberals, independents, immigrants and others Seth Elijah, 2022-07-15 THIS work is a meeting of the minds People of different political and ideological beliefs articulate their positions on the question of race in the United States that has bedeviled the nation since its founding Conservatives liberals and independents as well as those who don t have any political affiliation or ideological positions exchange views debate offer suggestions and provide solutions

to race problems facing the United States There are those who contend that the United States does not have a race problem It is individuals who have problems and they are the ones who complain about racism blaming society for their own failures in life Their problems have nothing to do with race Then there are those who say the United States has a race problem but it is not a major one as it once was Others contend that racism is one of the biggest and most urgent problems facing the nation Immigrants from all parts of the world also express their views and beliefs from different political and ideological perspectives on a subject that has divided the nation and continues to be one of the most contentious in the history of the country There are immigrants who don't see racism as a major problem in the United States even if they admit it exists There are those who agree with many Americans that racism still exists and it is a major problem Although immigrants they also offer solutions to a problem that from their own experience is a major one and should be addressed to achieve racial equality White nationalists also take part in the discussions on race exchanging views with conservatives liberals independents and immigrants They explain their position and offer solutions to the race question some of which don't differ much from the solutions proposed by some people who would be considered to be an integral part of the mainstream and not on the fringes of the American society There is no consensus on the final solution to the race problem or an answer to the race question in the United States But there is some agreement on some race issues that cuts across racial and ideological lines for example with some black immigrants from Africa and the Caribbean articulating positions that are in conformity with the positions of those who are in the conservative movement contrary to what most black Americans believe Other immigrants including black ones are squarely within the liberal tradition of the Democratic party And there are those who don't embrace Republican or Democratic positions but take an independent position on race matters that is also different from the position taken by independents in the American political mainstream The race question may be far from being resolved But the views proposals and solutions presented in this book may help to point in the right direction toward a final solution to the problem that the United States has faced since slavery
