said the scientist to carry us to other worlds in search of a female      Frida Kahlo Gerry Souter,2016-10-24 Behind Frida Kahlo's portraits lies the story of both her life and work It is precisely this combination that draws the reader in Frida's work is a record of her life and rarely can we learn so much about an artist from what she records inside the picture frame Frida Kahlo truly is Mexico's gift to the history of art She was just eighteen years old when a terrible bus accident changed her life forever leaving her handicapped and burdened with constant physical pain But her explosive character raw determination and hard work helped to shape her artistic talent And although he was an obsessive womanizer the great painter Diego Rivera was by her side She won him over with her charm talent and intelligence and Kahlo learnt to lean on the success of her companion in order to explore the world thus creating her own legacy whilst finding herself surrounded by a close knit group of friends Her personal life was turbulent as she frequently left her relationship with Diego to one side whilst she cultivated her own bisexual relationships Despite this Frida and Diego managed to save their frayed relationship The story and the paintings that Frida left us display a courageous account of a woman constantly on a search of self discovery
