Mullins, 2018-01-26 The Feather of Finist the Falcon Anonymous, 2020-09-28 ONCE in olden times there was a merchant whose wife had died leaving him three daughters The eldest two were plain of face and hard of heart and cared for nothing but finery while the youngest was a good house keeper kind hearted and so beautiful that it could neither be told in a tale nor written down with a pen One day when the merchant set out for the Fair he called his three daughters and asked My dear daughters what do ye most desire me to buy for you The eldest answered Bring me a piece of rich brocade for a gown The second said Bring me a fine scarf for a shawl But the youngest replied Little father bring me only a scarlet flower to set in my window The two sisters laughed at her request Little fool they said what dost thou want of a scarlet flower Thou wouldst better ask for a new apron But she paid no heed and when the merchant asked her again she said Little father buy for me only the scarlet blossom The merchant bade them good by and drove to the Fair and whether in a short while or a long while he came again to his house He brought the rich brocade for the eldest daughter and the fine scarf for the second but he quite forgot to bring the little scarlet flower The eldest daughters were so rejoiced at their gifts that he felt sorry for his forgetfulness and to comfort her said to the youngest Never mind I shall soon go again to the Fair and shall bring thee a gift also And she answered It is no matter little father another time thou wilt remember And while her sisters cutting and sewing their fine stuffs laughed at her she was silent Time passed and again the merchant made ready to go to the Fair and calling his daughters he asked Well my daughters what shall I buy for you The eldest answered Bring me a gold chain and the second Buy me a pair of golden earrings but the third said Little father I want nothing but a scarlet flower to set in my window **Old Indian Legends** Zitkala-Sa, 2022-10-12 Early in the century a magnificent Sioux woman named

Story Teller An Anthology Of Folklore From The Native American Indians G.W. Mullins, 2018-02-12 Before the time of books computers tablets and recording devices the history of many cultures was passed down from person to person by word of mouth The rich histories of so many people were told in songs chants poems and stories This was and still is the way of Native American tribes Each in its own way enriching their stories with their own experiences By exploring these stories you will be offered you a glimpse into an often forgotten past By reliving these stories and songs we have the opportunity to bring life back to the ancient spirits that created them We have a chance to walk with the spirits of the past These stories were passed from one generation to the next And now these stories are given to you to carry forward for younger generations to explore and learn The mythology of North America is a cultural treasure house but many of these myths and legends are hidden away in various old and rare books It would be difficult for the average person to track down and collect this material because the rarity of some of these books makes them hard to acquire So this vast body of wisdom lies out of reach of most people until now Included in this anthology are over 100 stories in the categories of Star People Animal Tales People Tales War Tales Origin Tales and Ghost Tales Among the stories collected are Origin of the Sweat Lodge

The Story of Po a The Story of the Land of Northern Lights Tale of the Lazy Boys Who Became the Pleiades The Moon and the Thunders The Two War Gods and the Two Maidens The First War A Widow s Revenge A War Between the Alabama And the Choctaw The Death of Head Chief and Young Mule Two War Trails Escape of The Seneca Boys The End of The First World Mistakes of Old Man Iktomi s Blanket Iktomi and the Muskrat Beaver Medicine The Badger and the Bear The Tree Bound The Simpleton s Wisdom Crossing the Red Sea Wakiash and the First Totem Pole The Dogs of the Chief s Son The Orphan Boy Captured by the Bad Thunderbirds Godasiyo the Woman Chief Lodge Boy and Thrown Away s Father Blue Corn Maiden and the Coming of Winter The Beginning of Newness The Origin of the Society of Rattlesnakes Origin of the Raven and the Macaw How Glooskap Found the Summer Raven s Great Adventure How Raven Lost His Beak Apache Creation Story How the Old Man Made People Origin of the Medicine Man When the Animals and Birds Were Created Creation of the First Indians A Little Brave and the Medicine Woman The Man Who Was Afraid of Nothing The Ghosts Buffalo The Land of the Dead The Skin Shifting Old Woman and many more Black Feathers Ellen Datlow,2017-02-07 Birds are usually loved for their beauty and their song They symbolize freedom eternal life the soul But there s a dark side to the avian Birds of prey sometimes kill other birds the shrike destroy other birds eggs blue jays and even have been known to kill small animals the kea sometimes eats live lambs And who isn t disgusted by birds that eat the dead vultures awaiting their next meal as the life blood flows from the dying Is it any wonder that with so many interpretations of the avian that the contributors herein are eager to be transformed or influenced by them Included in Black Feathers are those obsessed by birds of one type or another A grieving widow takes comfort in her majestic winged neighbors who enable her to cope with a predatory relative An isolated society of women relies on a bird to tell their fortunes A chatty parrot makes illegal deals with the dying A troubled man lives in isolation with only one friend for company a jackdaw In each of these fictions you will encounter the dark resonance between the human and avian You will see in yourself the savagery of a predator the shrewd stalking of a hunter and will wade into this feathered nightmare braving the horror of death for that which we all seek the promise of flight

Thirty Years in the South Seas Richard Parkinson,2010 Richard Parkinson s *Thirty Years in the South Seas* was first published in 1907 In this 900 page work Parkinson drew together and expanded on the scientific and popular papers he had been publishing since 1887 creating in the process a landmark ethnography of the Bismarck Archipelago Parkinson moved to New Britain in 1879 only seven years after the first trader had established himself in the area Over the next thirty years he employed many local people on the family s expanding plantations and travelled widely in the area trading for produce especially coconuts observing traditional life and buying artefacts for museums in Europe USA and Australia His travels covered the islands now known as New Britain New Ireland New Hanover Manus Buka and Bougainville but he also collected information about the mainland of New Guinea Kaiser Wilhelmsland His observations covered a wide range of topics from religious life and ceremonies to artefacts and language It is clear he talked extensively with people though mostly with a

translator and compared accounts He also took many photographs some 200 of which were included in the volume Given the period all his human subjects had to be posed but the range of associated detail probably unconsciously included is substantial What is particularly important about this work is the period in which it was written While Parkinson may never have been the first contact of any local people he was clearly among the first and observed many societies before they were extensively incorporated into the Western economy or missionised Thirty Years in the South Seas is unparalleled in the literature of the Bismarck Archipelago It is an incomparable picture of a time and place now long past Stray Feathers, 1874

Booming from the Mists of Nowhere Greg Hoch, 2015-12 For ten months of the year the prairie chicken's drab colors allow it to disappear into the landscape However in April and May this grouse is one of the most outrageously flamboyant birds in North America Competing with each other for the attention of females males gather before dawn in an explosion of sights and sounds booming from the mists of nowhere as Aldo Leopold wrote decades ago There's nothing else like it and it is perilously close to being lost In this book ecologist Greg Hoch shows that we can ensure that this iconic bird flourishes once again Skillfully interweaving lyrical accounts from early settlers hunters and pioneer naturalists with recent scientific research on the grouse and its favored grasslands Hoch reveals that the prairie chicken played a key role in the American settlement of the Midwest Many hungry pioneers regularly shot and ate the bird as well as trapping hundreds of thousands shipping them eastward by the trainload for coastal suppers As a result of both hunting and habitat loss the bird's numbers plummeted to extinction across 90 percent of its original habitat Iowa whose tallgrass prairies formed the very center of the greater prairie chicken's range no longer supports a native population of the bird most symbolic of prairie habitat The steep decline in the prairie chicken population is one of the great tragedies of twentieth century wildlife management and agricultural practices However Hoch gives us reason for optimism These birds can thrive in agriculturally productive grasslands Careful grazing reduced use of pesticides well placed wildlife corridors planned burning higher plant animal and insect diversity these are the keys If enough blocks of healthy grasslands are scattered over the midwestern landscape there will be prairie chickens and many of their fellow creatures of the tall grasses Farmers ranchers conservationists and citizens can reverse the decline of grassland birds and insure that future generations will hear the booming of the prairie chicken
