The Poetics of Empowerment in David Mitchell's Novels Eva-Maria Windberger, 2023-07-17 The Poetics of Empowerment in David Mitchell's Novels combines the investigation of David Mitchell's novels with the introduction of a new critical concept to literary studies: empowerment. Aiming to situate and establish empowerment firmly within the context of literary studies, it offers the first framework and definition for reading fictional texts with the lens of empowerment and applies it in the analysis of discourse, the fictional characters and the role of the reader in Mitchell's novels. Drawing on narratological analysis, cognitive approaches to literature and reader response theory, it features close readings of *Cloud Atlas* (2004), *Black Swan Green* (2006) and *The Thousand Autumns of Jacob de Zoet* (2010) and dissects the author's strategies, poetics and agenda of empowering fiction. This book argues for an inherent indissoluble connection between empowerment and the telling of stories and demonstrates how literary studies can benefit from a serious engagement with empowerment and how such an engagement can stimulate new responses to fiction and put literary studies in conversation with other disciplines.

This comprehensive three-volume set brings together contributions from a diverse international team of accomplished young scholars and established figures in the field. Contributors explore a broad range of topics in historical, cultural, political, geographic, and technological contexts, engaging the work of both well-known and non-canonical writers of every period. Volume One is an inclusive and geographically expansive examination of early American literature, applying a range of cultural and historical approaches and theoretical models to a dramatically expanded canon of texts. Volume Two covers American literature between 1820 and 1914, focusing on the development of print culture and the literary marketplace, the emergence of various literary movements, and the impact of social and historical events on writers and writings of the period. Spanning the 20th and early 21st centuries, Volume Three studies traditional areas of American literature as well as the literature from previously marginalized groups and contemporary writers often overlooked by scholars. This inclusive and comprehensive study of American literature examines the influences of race, ethnicity, gender, class, and disability on American literature. Discusses the role of technology in book production and circulation, the rise of literacy, and changing reading practices and literary forms. Explores a wide range of writings in multiple genres, including novels, short stories, dramas, and a variety of poetic forms, as well as autobiographies, essays, lectures, diaries, journals, letters, sermons, histories, and graphic narratives. Provides a thematic index that groups chapters by contexts and illustrates their links across different traditional chronological boundaries. *A Companion to American Literature* is a valuable resource for students coming to the subject for the first time or preparing for field examinations, instructors in American literature courses, and scholars with more specialized interests in specific authors, genres, movements, or periods.

Tales and Novels Maria Edgeworth, 2018-09-21 Reproduction of the original *Tales and Novels* by Maria Edgeworth.

Tales and Novels — Volume 4 Maria Edgeworth, 2018-04-18 Excerpt. PREFACE. The prevailing taste of the public for anecdote has been censured and ridiculed by critics who aspire to the character of superior wisdom; but if we consider it in a proper point of view, this taste is an incontestable proof of the good sense and profoundly

philosophic temper of the present times Of the numbers who study or at least who read history how few derive any advantage from their labours The heroes of history are so decked out by the fine fancy of the professed historian they talk in such measured prose and act from such sublime or such diabolical motives that few have sufficient taste wickedness or heroism to sympathize in their fate Besides there is much uncertainty even in the best authenticated ancient or modern histories and that love of truth which in some minds is innate and immutable necessarily leads to a love of secret memoirs and private anecdotes
