## **I May Be Some Time Ice And The English Imagination:**

**I May Be Some Time** Francis Spufford, 1999-07-30 Francis Spufford explores the British obsession with polar exploration in a book that Jan Morris writing in The Times called A truly majestic work of scholarship thought and literary imagination The title a last quote from one explorer to his party as he left their tent never to return embodies the danger and mystery that fueled the romantic allure of the poles and subsequently the British imagination Far from being a conventional history of polar exploration I May Be Some Time attempts to understand what was going on in the minds of the polar explorers as they headed toward destinies like Terra Nova Serving up a heady brew of Captain Perry Jane Eyre gastronomic obsessions with iced desserts and the daily lives of Eskimos Spufford treats the reader to one of the most satisfying and imaginative contemporary works dealing with exploration and human need

**Frozen Empires** Adrian Howkins, 2017 Frozen Empires is a study of the ways in which imperial powers American European and South American have used and continue to use the environment and the value of scientific research to support their political claims in the Antarctic Peninsula region In making a case for imperial continuity this book offers a new perspective on Antarctic history and on global environmental politics more broadly

**Visual Representations of the Arctic** Markku Lehtimäki, Arja Rosenholm, Vlad Strukov, 2021-03-31 Privileging the visual as the main method of communication and meaning making this book responds critically to the worldwide discussion about the Arctic and the North addressing the interrelated issues of climate change ethics and geopolitics A multi disciplinary multi modal exploration of the Arctic it supplies an original conceptualization of the Arctic as a visual world encompassing an array of representations imaginings and constructions By examining a broad range of visual forms media and forms such as art film graphic novels maps media and photography the book advances current debates about visual culture The book enriches contemporary theories of the visual taking the Arctic as a spatial entity and also as a mode of exploring contemporary and historical visual practices including imaginary constructions of the North Original contributions include case studies from all the countries along the Arctic shore with Russian material occupying a large section due to the country's impact on the region

*Antarctica and the Humanities* Roberts Peder, Lize-Marié van der Watt, Adrian Howkins, 2016-08-31 The continent for science is also a continent for the humanities Despite having no indigenous human population Antarctica has been imagined in powerful innovative and sometimes disturbing ways that reflect politics and culture much further north Antarctica has become an important source of data for natural scientists working to understand global climate change As this book shows the tools of literary studies history archaeology and more can likewise produce important insights into the nature of the modern world and humanity more broadly

**Ice And The Inland** Hains, Brigid, 2012-11-27 An elegant original and very well written book luminous with meaning full of superb cameos and suggestive arguments the central figures are both charismatic articulate and iconic they are central to any estimation of twentieth century Australian cultural and environmental history Dr Tom Griffiths

Australian National University This is a path breaking work the environmental aspect of the work is powerful and there are some wonderful ideas about what is civilised and what is wilderness Brigid Hains has reinvigorated the tradition of frontier studies Dr Jane Carruthers University of South Africa The frontier mythology of the early twentieth century laid the groundwork for the wilderness cult of contemporary Australian life It became etched in the Australian imagination through the image of folk heroes such as Douglas Mawson and John Flynn promising national renewal through virile heroism and an encounter with wild nature Most frontier histories in Australia have focused on race relations this is among the first to focus on the frontier as an ecological phenomenon It draws on rich primary sources many of which have never been published including Antarctic diaries and the letters and journalism of John Flynn In this superb account Brigid Hains offers a new interpretation of two Australian folk heroes and their iconic status in Australian culture a fresh approach to frontier history that focuses on the landscape rather than on racial conflict and an explanation of the origins of wilderness conservation in Australia Mawson s Antarctic exploration and Flynn s Australian Inland Mission both drew on imperial and trans Pacific influences such as imperial adventure literature the cult of polar exploration the rural life movement population theory and eugenics The Ice and the Inland compares these two Australian folk heroes and analyses the reasons for their popularity It raises a number of topical issues including the role of Australia in the international management of Antarctica Flynn s treatment of Aboriginal people the reasons for conservation of Australia s wild places from the arid Centre to the frozen wastes of Antarctica and relationships between the country and the bush and between the metropolis and the frontier

*The Wide White Page* Bill Manhire, 2004 The wide white page spans eight centuries of writing from Dante s epic account of Ulysses s last southbound ocean journey to Michael Chabon s writing of a WWII US army base on the ice in Kavalier and Clay There is fiction and poetry from nearly a dozen different countries and genres range from Coleridge s Rime of the ancient mariner via H P Lovecraft s Gothic fantasy and Kim Stanley Robinson future fiction to the surreal comedy of Monty Python s Scott of the Sahara book jacket **Ice** Karal Ann Marling, 2008 From frozen wastelands to visionary explorers from frosty desserts to shimmering castles cultural historian Karal Ann Marling weaves together fantastic and fascinating topics related to hard cold water **Antarctica in British Children's Literature** Sinead Moriarty, 2020-11-29 For over a century British authors have been writing about the Antarctic for child readers yet this body of literature has never been explored in detail Antarctica in British Children s Literature examines this field for the first time identifying the dominant genres and recurrent themes and tropes while interrogating how this landscape has been constructed as a wilderness within British literature for children The text is divided into two sections Part I focuses on the stories of early twentieth century explorers such as Robert F Scott and Ernest Shackleton Antarctica in British Children s Literature highlights the impact of children s literature on the expedition writings of Robert Scott including the influence of Scott s close friend author J M Barrie The text also reveals the important role of children s literature in the contemporary resurgence of interest in Scott s long term rival

Ernest Shackleton Part II focuses on fictional narratives set in the Antarctic including early twentieth century whaling literature adventure and fantasy texts contemporary animal stories and environmental texts for children Together these two sections provide an insight into how depictions of this unique continent have changed over the past century reflecting transformations in attitudes towards wilderness and wild landscapes

**The Polar Regions** Adrian Howkins, 2015-11-20 The environmental histories of the Arctic and Antarctica are characterised by contrast and contradiction These are places that have witnessed some of the worst environmental degradation in recent history But they are also the locations of some of the most farsighted measures of environmental protection They are places where people have sought to conquer nature through exploration and economic development but in many ways they remain wild and untamed They are the coldest places on Earth yet have come to occupy an important role in the science and politics of global warming Despite being located at opposite ends of the planet and being significantly different in many ways Adrian Howkins argues that the environmental histories of the Arctic and Antarctica share much in common and have often been closely connected This book also argues that the Polar Regions are strongly linked to the rest of the world both through physical processes and through intellectual and political themes As places of inherent contradiction the Polar Regions have much to contribute to the way we think about environmental history and the environment more generally

*The Warm South* Robert Holland, 2018-01-01 An evocative exploration of the impact of the Mediterranean on British culture ranging from the mid eighteenth century to today Ever since the age of the Grand Tour in the eighteenth century the Mediterranean has had a significant pull for Britons including many painters and poets who sought from it the inspiration beauty and fulfillment that evaded them at home Referred to as Magick Land by one traveler dreams about the Mediterranean and responses to it went on to shape the culture of a nation Written by one of the world's leading historians of the Mediterranean this book charts how a new sensibility arose from British engagement with the Mediterranean ancient and modern Ranging from Byron's poetry to Damien Hirst's installations Robert Holland shows that while idealized visions and aspirations often met with disillusionment and frustration the Mediterranean also offered a notably insular society the chance to enrich itself through an imagined world of color carnival and sensual self discovery

**Ice and Snow in the Cold War** Julia Herzberg, Christian Kehrt, Franziska Torma, 2018-10-19 The history of the Cold War has focused overwhelmingly on statecraft and military power an approach that has naturally placed Moscow and Washington center stage Meanwhile regions such as Alaska the polar landscapes and the cold areas of the Soviet periphery have received little attention However such environments were of no small importance during the Cold War in addition to their symbolic significance they also had direct implications for everything from military strategy to natural resource management Through histories of these extremely cold environments this volume makes a novel intervention in Cold War historiography one whose global and transnational approach undermines the simple opposition of East and West

**The Ice Balloon** Alec Wilkinson, 2013-01-08 In 1897 at the height of the heroic age of Arctic exploration

the visionary Swedish explorer S A Andr e made a revolutionary attempt to discover the North Pole by flying over it in a hydrogen balloon Thirty three years later his expedition diaries and papers would be discovered on the ice Alec Wilkinson uses the explorer s papers and contemporary sources to tell the full story of this ambitious voyage while also showing how the late 19th century s spirit of exploration and scientific discovery drove over 1 000 explorers to the unforgiving Arctic landscape Suspenseful and haunting Wilkinson captures Andr e s remarkable adventure and illuminates the detail beauty and devastating conditions of traveling and dwelling on the ice *Haunted Spaces in Twenty-First Century British Nature Writing* Anneke Lubkowitz,2020-06-08 This study investigates the figure of haunting in the New Nature Writing It begins with a historical survey of nature writing and traces how it came to represent an ideal of natural space as empty of human history and social conflict Building on a theoretical framework which combines insights from ecocriticism and spatial theory the author explores the spatial dimensions of haunting and hauntology and shows how 21st century writers draw on a Gothic repertoire of seemingly supernatural occurrences and spectral imagery to portray natural space as disturbed uncanny and socially contested Iain Sinclair and Robert Macfarlane are revealed to apply psychogeography s interest in hidden histories and haunted places to spaces associated with wilderness and the countryside Kathleen Jamie s allusions to the Gothic are put in relation to her feminist re writing of the outdoors and John Burnside s use of haunting is shown to dismantle fictions of the far north This book provides not only a discussion of a wide range of factual and fictional narratives of the present but also an analysis of the intertextual dialogue with the Romantic tradition which enfolds in these texts **Reading the Ruins** Leo Mellor,2011-09-15 From fires to ghosts and from flowers to surrealist apparitions the bombsites of London were both unsettling and inspiring terrains Yet throughout the years prior to the Second World War British culture was already filled with ruins and fragments They appeared as content with visions of tottering towers and scraps of paper and also as form in the shapes of broken poetics But from the outbreak of the Second World War what had been an aesthetic mode began to resemble a proleptic template During that conflict many modernist writers such as Graham Greene Louis MacNeice David Jones J F Hendry Elizabeth Bowen T S Eliot and Rose Macaulay engaged with devastated cityscapes and the altered lives of a nation at war To understand the potency of the bombsites both in the Second World War and after *Reading the Ruins* brings together poetry novels and short stories as well as film and visual art *The New Mountaineer in Late Victorian Britain* Alan McNee,2017-04-18 This book is about the rise of a new ethos in British mountaineering during the late nineteenth century It traces how British attitudes to mountains were transformed by developments both within the new sport of mountaineering and in the wider fin de si cle culture The emergence of the new genre of mountaineering literature which helped to create a self conscious community of climbers with broadly shared values coincided with a range of cultural and scientific trends that also influenced the direction of mountaineering The author discusses the growing preoccupation with the physical basis of aesthetic sensations and with physicality and materiality in general the new interest in the physiology of effort and fatigue

and the characteristically Victorian drive to enumerate codify and classify Examining a wide range of texts from memoirs and climbing club journals to hotel visitors books he argues that the figure known as the New Mountaineer was seen to embody a distinctly modern approach to mountain climbing and mountain aesthetics **Widows of the Ice** Anne Fletcher,2022-05-15 New paperback edition A moving and original account of the effect of Scott s tragic expedition on the men s wives and families who fame and history have overlooked Travel Writing Carl Thompson,2011-05-16 An increasingly popular genre addressing issues of empire colonialism post colonialism globalization gender and politics travel writing offers the reader a movement between the familiar and the unknown In this volume Carl Thompson introduces the genre outlining competing definitions and key debates provides a broad historical survey from the medieval period to the present day explores the autobiographical dimensions of the form looks at both men and women s travel writing surveying a range of canonical and more marginal works drawn from both the colonial and postcolonial era utilises both British and American travelogues to consider the genre s role in shaping the history of both nations Concise and practical Travel Writing is the ideal introduction for those new to the subject as well as a crucial overview of current debates in the field The Imagined Arctic in Speculative Fiction Maria Lindgren Leavenworth,2023-07-31 The Imagined Arctic in Speculative Fiction explores the ways in which the Arctic is imagined and what function it is made to serve in a selection of speculative fictions non mimetic works that start from the implied question What if Spanning slightly more than two centuries of speculative fiction from the starting point in Mary Shelley s 1818 *Frankenstein* to contemporary works that engage with the vast ramifications of anthropogenic climate change analyses demonstrate how Arctic discourses are supported or subverted and how new Arctics are added to the textual tradition To illuminate wider lines of inquiry informing the way the world is envisioned humanity s place and function in it and more than human entanglements analyses focus on the function of the actual Arctic and how this function impacts and is impacted by speculative elements With effects of climate change training the global eye on the Arctic and as debates around future northern cultural economic and environmental sustainability intensify there is a need for a deepened understanding of the discourses that have constructed and are constructing the Arctic A careful mapping and serious consideration of both past and contemporary speculative visions thus illuminate the role the Arctic has played and may come to play in a diverse set of practices and fields *Thinking Veganism in Literature and Culture* Emelia Quinn,Benjamin Westwood,2018-05-24 This collection explores what the social and philosophical aspects of veganism offer to critical theory Bringing together leading and emerging scholars working in animal studies and critical animal studies *Thinking Veganism in Literature and Culture* shows how the experience of being vegan and the conditions of thought fostered by veganism pose new questions for work across multiple disciplines Offering accounts of veganism which move beyond contemporary conceptualizations of it as a faddish dietary preference or set of proscriptions it explores the messiness and necessary contradictions involved in thinking about or practicing a vegan way of life By thinking through as well as about veganism the
