Winter Survival Tactics - Necessary Items For Your Vehicle Dueep Jyot Singh, John Davidson, 2018-03-31 Table of Contents Introduction Equipment for Building Fires Making Your Own Char Cloth Up to date paper maps Food and Water Easy to Make High Calorie Granola Bars Dried Meat Pemmican Extra Batteries For Your Cell Phone Charger Weaponry Clothing Hypothermia Treatment Conclusion Author Bio Publisher Introduction I was getting to be a bit sick and tired of all those idiotic escapist story so called romantic novel theme lines when a woman got into her car got lost because she did not have a map did not know how to read a map and then she left her car and went off looking for shelter. And of course she found the house of her Prince charming deep in the woods. Please understand that authors write such stupid books because their publishers want them to write such unrealistic books. And nowadays there is a trend of an expectant mother going off in the snow, naturally she is a single mother and she has to reach her destination in the snow and naturally on page 2 there she is the stupid wench stuck in the snow and the ice. Any person who has to go out in the cold weather especially when it is snowing is going to get stuck 88% of the time and this silly female is going to die of exposure hypothermia. But this being an utterly brainless B grade novel she gets out of her car and staggers out only to faint at the door of a multimillionaire Sheriff cowboy business tycoon Arab Prince with American mother, tall, dark, and handsome and single or European royalty who is really going to be thrilled at the thought of marrying a single mother who had a temporary relationship or one night stand with her boss punk boyfriend, live in partner, and bringing up somebody else's baby just because the mother is such a brainless but bosomy babe. And he is going to take her in and she is going to have her baby in that cabin without the help of a doctor because all the lines are down and both of them are going to live happily ever after. It says so on page 186 just before The End. Excuse me while I take some time out to gag. So this book is for all of those who have to go out in the cold, willy nilly, and not only are these good survival tactics for the time when we are going to suffer from the nuclear winter but also it is a complete guide of what you man or woman should have in your vehicle when you are going out in hostile terrain. You may also find some real life experiences based on sometimes funny, sometimes grim incidents in a very interesting life in the midst of a very outdoorsy type active family. You may find yourself a bit perplexed at these experiences but then they took place in other times, other climes, and other lands. But they are real life experiences and could happen to anybody.

The First Trollology (Smelly Trolls : Books 1-3) Rosen Trevithick, 2014-11-01 Books 1-3 in the Smelly Troll series. Eating children is wrong. But what did you expect from a creature that slurps other people's bogies. When Rufus Sebbleford learns that trolls plan to attack Sludgeside School he has to act fast. He and Polly

hatch a plan with the help of their new friend Bruno unaware that Bruno happens to be a troll A school trip to the Mr Splendiferous Science Park results in chaos when the mad scientist is found to be keeping a dangerous troll locked up in the grounds And Rufus comes face to face with the dangerous sporting hero Brawnulator Powerknees when a skiing holiday to the Craggle Alps collides with the Winter Trollympics A stinky squelchy adventure a slimy sausage slinging adventure and a slippery icy adventure all packed into one gruesome volume

The Models of Engaged Learning and Teaching John Willison, 2020-04-23 This book provides a practical philosophy for promoting students sophisticated thinking from Early Childhood to PhD in ways that explicitly interconnect across the years of education It will help teachers academics and the broader learning and teaching community to understand and implement these connections by introducing a conceptual framework the Models of Engaged Learning and Teaching MELT By covering the nature philosophy practice and implications of MELT for teachers and students alike the book will help teachers to facilitate students awareness of and increasing responsibility for the thinking demanded by subject and discipline specific learning as well as interdisciplinary learning whether face to face online or in blended modes The book will also provide educators with ways to effectively engage with complex and sometimes conflicting contemporary educational concepts and with a diverse variety of colleagues involved in the learning and teaching enterprise The book provides guidance that allows curriculum improvement teacher action research and larger scale research to be reported on from a common perspective bridging the gap between those readers focused on research and those focused on teaching The book shares valuable insights and ways of addressing the contemporary issue of discipline based learning versus transdisciplinary learning reducing the dichotomy and enabling the two approaches to complement each other This is an Open Access book
