Liberation And Democratization:

Liberation and Democratization Mona Younis,2000 Political Liberalization and Democratization in Africa Julius O. Ihonvbere,John Mukum Mbaku Esq.,2003-12-30 Since the late 1980s Africans have been engaged in efforts to transform their societies and provide themselves with more effective governance and economic structures Unfortunately most of these efforts have not progressed beyond simple elections The contributors to this volume provide strategies that Africans can use to deepen democracy improve resource allocation and enhance their ability to coexist peacefully Mbaku Ihonvbere and their contributors while adopting a critical approach to the study of African political economy take a stand against Afro pessimism They articulate an holistic agenda for addressing Africa s multifarious problems reject received knowledge and through a dialectical methodology draw attention to the centrality of social categories classes the state civil society the environment communities and patterns of change in the continent Relying on fieldwork hard data and critical reviews of the extant literature the volume highlights the importance of democracy and democratization to the urgent restructuring that Africa needs in the new globalization Paying attention to the continent s historical experiences and its specificities the contributors draw attention to the importance of grassroots action leadership and the need to constitutionally entrench civil liberties

Political Liberalization and Democratization in the Arab World Rex Brynen,Bahgat Korany,Paul Noble,1995 The Arab world is experiencing a variety of factors internal and external that are leading to change This work examines such factors that are shaping political liberalisation and democratisation in the Arab context as well as the role played by particular social groups Liberation and Democratization Mona Younis,2000-01 Arising in the 1910s and emerging as legitimate governing bodies in the 1990s the South African and the Palestinian national liberation movements have exhibited remarkable parallels over the course of their development The fortunes of the African National Congress and the Palestinian Liberation Organization however have proven strikingly different How the measurements despite similar circumstances and experiences have arrived at such dissimilar outcomes is described in *Liberation and democratization* Younis traces the evolution of the movements from early domination by elites to the ascendancy of mass based forces in their last phases of expansion She shows how this latest shift accompanied by a democratization of the process of liberation made the movements more effective in the 1980s *Liberation and Democratization* also identifies dissimilarities the balance of class forces and resources that led to the A N C s greater success relative to the P L O s achievements The first comprehensive comparison of two of the most significant liberation movements of this century Younis s work brings to light problems and dynamics that will remain work well into the future Routledge Handbook of Democratization Jeffrey Haynes,2012-03-15 This exciting new handbook provides a global overview of the process of democratization offering chapter by chapter discussion at both the country and regional levels and examining the interaction between the domestic and external factors that affect the progression of countries from authoritarian to democratic rule Bringing together 29 key experts in the field the work is designed to contrast

the processes and outcomes of democratic reform in a wide range of different societies evaluating the influence of factors such as religion economic development and financial resources It is structured thematically into four broad sections Section I provides a regional tour d horizon of the current state of democratisation and democracy in eight regions around the world Section II examines key structures processes and outcomes of democratisation and democracy Section III focuses on the relationship between democratisation and international relations through examination of a range of issues and actors including the third and fourth waves of democracy political conditionality the United Nations the European Union the African Union and the Organisation of African States Section IV Examines the interaction between democratisation and development with a focus on poverty and inequality security human rights gender war and conflict resolution A comprehensive survey of democratization across the world this work will be essential reading for scholars and policy makers alike

The Rise and Decline of Modern Democracy Damien Kingsbury, 2023-04-07 The Rise and Decline of Modern Democracy assesses the rise of subsequent political challenges to and decline of contemporary liberal democratic processes in particular since the third wave of democratization from the 1990s Democracy is in global decline Fewer countries are democratic and fewer people globally live in substantive democracies Autocracy is now the dominant political form and the future looks at best challenging for the retention of such democracies that remain As they did a century ago nationalism and populism have again reared their ugly heads and more people are claiming that democracy no longer addresses their most compelling needs or interests This book examines what democracy is and the circumstances that allowed even encouraged it to arise Democracy has been a product of a need to find a political model that mediates between competing interests building on conducive conditions However there have since been fundamental changes to those conditions imbalances within democratic countries and between countries that have diminished the strength of the democratic proposition The question now arises as to whether democracy can continue as a matter of political will Challengers to democracy from the radical Right in developed countries to populist autocracy and state centred authoritarianism in developing countries have increasingly shown this may not be the case Democracy may survive as this book concludes but is likely to do so only with more substantial and conscious commitment to the democratic project with recognition of the need to replenish the fertility of the political soil in which democracy grows This wide ranging and empirically and theoretically rich book will be of interest to students scholars and researchers of political science international relations history and democracy

The Crisis of Democratization in the Greater Horn of Africa Kidane Mengisteab, 2020 Analyses the structural and institutional obstacles to democratization in transitional societies fractured societies fragmented economies and institutions of governance weak or deformed state structures and how to overcome these

The International Politics of Democratization Nuno Severiano Teixeira, 2008-06-30 This book examines the international dimensions of democratization processes showing the degree to which international actors ranging from states to non governmental players have an influence on what were once thought of

as exclusively domestic processes of political change The contributors to the volume look at changes in foreign policy resulting from transitions to democracy in a number of countries and regions Some of the areas covered include Portugal and Spain in Europe in the 1970s Brazil and Argentina in Latin America from the early 1980s Eastern and Central Europe in the 1990s Various countries in the Arab World The chapters adopt a theoretical and empirical perspective while the two introductory chapters of the book place a special emphasis on interpretation and quantitative analysis of regime change and the role of international actors in such processes the remaining chapters examines specific case studies The International Politics of Democratization will be of interest to students and researchers of International Relations Politics and Democracy

Future of Liberation Theology Ivan Petrella,2006-06-28 There is a notion amongst some academics that Latin American Liberation Theology has had its day a dream killed off by the Nicaraguan and Salvadoran revolutions the 1989 demise of socialism and the end of history claims of the champions of capitalism However in this book Petrella proves this to be an ill conceived notion and shows that this theology can be reinvented to bring its preferential option for the poor into the real world The actualisation of historical projects is possible by adopting the methods developed by the Brazilian champion of critical legal studies Robert Unger Doing so will entail the rejection of these theologians unitary concepts of a despised and rejected capitalism and a canonized and accepted socialism Petrella argues for a reconstruction of these concepts and those of democracy and property too He closely analyses the differences in democracy and capitalism as practised across the USA and Europe in support for the reconstruction of these concepts bringing about far reaching suggestions for the future of liberation theology

The Transition to Democratic Governance in Africa John Mukum Mbaku Esq.,Julius O. Ihonvbere,2003-04-30 Africa is currently experiencing sociopolitical and economic changes of unprecedented proportions New leaders institutions discourses and methods of political organization and action are shaping a new future Through a case study approach this essay collection provides a comprehensive analysis of the history trajectory actors institutions contradictions failures and opportunities in contemporary efforts at democratization in Africa While presenting the dynamics of democracy and democratization in several African countries they also look at critical issues in Africa s transition projects from political parties and elections through constitutions and constitutionalism to new structures of power and politics A provocative analysis for scholars students researchers and policy makers involved with African political and economic development

Transitions to Democracy Kathryn Stoner,Michael McFaul,2013-04-15 Fifteen case studies by scholars and practitioners demonstrate the synergy between domestic and international influences that can precipitate democratic transitions As demonstrated by current events in Tunisia and Egypt oppressive regimes are rarely immune to their citizens desire for democratic government Of course desire is always tempered by reality therefore how democratic demands are made manifest is a critical source of study for both political scientists and foreign policy makers What issues and consequences surround the fall of a government what type of regime replaces it and to what extent are these efforts

successful Kathryn Stoner and Michael McFaul have created an accessible book of fifteen case studies from around the world that will help students understand these complex issues Their model builds upon Guillermo O Donnell Philippe C Schmitter and Laurence Whitehead s classic work *Transitions from Authoritarian Rule* using a rubric of four identifying factors that can be applied to each case study making comparison relatively easy *Transitions to Democracy* yields strong comparisons and insights For instance the study reveals that efforts led by the elite and involving the military are generally unsuccessful whereas mass mobilization civic groups and new media have become significant factors in supporting and sustaining democratic actors This collection of writings by scholars and practitioners is organized into three parts successful transitions incremental transitions and failed transitions Extensive primary research and a rubric that can be applied to burgeoning democracies offer readers valuable tools and information *National Liberation Movements in Office* Elena

Organization JoAnn Macdonald Foster,2003-08-27 First Published in 1999 Emerging from profound political change in Eastern Europe Latin America and Africa and coupled with a proliferation of market economies and technological and commercial interpenetrations of formerly closed societies the international system has become an interdependent global milieu This study seeks to examine the clear correlation between the present predicament of transnational firms as strangers in an alien land and the communitarian assumptions regarding individuals in societies Until now little attention has been paid to the utility of the communitarian ethic in addressing the cultural conundrums which arise out of the economic and political affinities and antagonism of globalization Proceedings of the International Conference for Democracy and National Resilience 2022 (ICDNR 2022) Gayatri Dyah Suprobowati,Dona Budi Kharisma,Waluyo Waluyo,2023-02-10 This is an open access book National Resilience of Indonesia is a dynamic condition of the Indonesian Nation that includes all aspects of integrated national life defence from disturbances both from outside and from within the country to ensure identity integration survival of the nation and state and the struggle to achieve national goals The existence of digital life a significant modernization greatly influences the implementation of a country s democracy In general the development of digitalization and modern life has affected not only democracy but also all aspects of life People s life dynamics can lead to the rapid growth of democratic appliances where cultural acculturation was affected by a touch of information technology The individual freedom of society in conveying ideas criticisms suggestions and even blasphemy is often encountered through various variants of social media users Digitalization encourages increased problems with people s constitutional rights such as freedom of opinion protection of the rights of other citizens defamation and pollution Ethnicity religion race between groups and so on Another problem that must also be accommodated is the problem of organizing democracy statehood and government policies So there needs to be an optimization of the conception of a country s democracy to create protection for citizens governments and so on to create optimal democratic implementation accountability and the state s principles and

ideals *Contention and Democracy in Europe, 1650-2000* Charles Tilly, 2004 *Contention and Democracy in Europe 1650-2000* is an analysis of the relationship between democratization and contentious politics that builds upon the model set forth in the pathbreaking book *Dynamics of Contention* Using a sustained comparison of French and British histories since 1650 or so as a springboard for more general comparison within Europe *Contention and Democracy* goes on to demonstrate that democratization occurred as result of struggles during which as in 19th century Britain and France few if any of the participants were self consciously trying to create democratic institutions Consequently circumstances for democratization vary from era to era region to region as functions of previous history international environments available models of political organization and predominant patterns of social relations

Towards a Radical Democracy (Routledge Revivals)
Douglas Brown, 2013-12-19 Originally published in 1988 this is the first systematic account of the writings of Hungarian dissidents and former students of George Lukacs collectively known as the Budapest School Dr Brown demonstrates the importance of their work in contributing to a logically consistent yet realistic theory of socialist mixed economies and genuine radical democracies The Budapest School s model of radical democracy represents a critique of both industrial capitalism and existing socialist systems with immediate political as well as philosophical importance Dr Brown is particularly concerned to draw out its significance for the practical realities of political economy and the logical implications for desirable reform of Western mixed economies

The Role of Civil Society in Africa's Quest for Democratization Abadir M. Ibrahim, 2016-12-08 This book tests many of the assumptions hypotheses and conclusions connected with the presumed role of civil society organizations in the democratization of African countries Taking a comparative approach it looks at countries that have successfully democratized those that are stuck between progress and regression those that have regressed into dictatorship and those that are currently in transitional flux and evaluates what role if any civil society has played in each instance The countries discussed South Africa Ghana Nigeria Ethiopia Egypt and Tunisia represent a diverse set of social and political circumstances and different levels of democratic achievement providing a rich set of case studies Each sample state also offers an internal comparison as each has historically experienced different stages of democratization Along the course of each case study the book also considers the effect that other traditionally studied factors such as culture colonization economic development and foreign aid may have had on individual attempts at democratization The first extensive work on civil society and democratization in Africa the book adds new insights to the applicability of democratization theory in a non Western context both filling a gap in and adding to the existing universal scholarship This book will be useful for scholars of political science economics sociology and African studies as well as human rights activists and policy makers in the relevant geographical areas

Challenges and Opportunities for Inclusive Development in Ethiopia Rahmato, Dessalegn, Ayenew, Meheret, 2019-03-25 As part of its on going public dialogue program on progress in Ethiopia s development and public policy the Forum for Social Studies is undertaking a project of research and public dialogue on a

number of selected topics on the theme of Prospects and Challenges for Inclusive and Participatory Development in Ethiopia The aim is to enable researchers and professionals to present evidence based papers to stimulate debate and reflection This first book in the program looks at the impact of development or lack of it on specific social groups namely women young people and vulnerable groups that should be entitled to decent social care

The Kurdish Liberation Movement in Iraq
Yaniv Voller,2014-09-04 Investigating the transformation of the Kurdish liberation movement in Iraq this book explores its development from an armed guerrilla movement engaged in a war for liberation with the government in Baghdad into the government of a de facto Kurdish state known as the Kurdistan Regional Government The book seeks to better explain the nature and evolution of the Kurdish liberation struggle in Iraq which has had important implications over regional geopolitics Despite attracting growing international attention the struggle remains understudied By applying the theoretical framework of de facto statehood to the post 1991 Kurdish liberation movement the book offers a new approach to understanding the struggle with a thorough empirical investigation informed by International Relations theory Identifying international legitimacy interaction and identity as significant themes in the politics of de facto states and important variables shaping the evolution and policies of these actors at both the domestic and international levels this book will be of interest to students and researchers of International Relations Middle East Politics and Political Science

Complementary Democracy Matt Qvortrup,Daniela Vancic,2022-10-03 Democracy is on the run and elected governments are suffering from a legitimacy crisis Legislatures are increasingly seen as unrepresentative To give legitimacy to democratic government experts argue that we need more democracy and more opportunities for direct citizen participation Representative democracy needs to be complemented by forms of direct engagement such as referendums popular votes the recall citizens juries eDemocracy etc This is what we term Complementary Democracy In this book experts from the worlds of practice and theory come together to explain and occasionally critique these complements to representative democracy The volume provides an invaluable starting point for anyone who wants to know more about the new directions of democratic governance and hopes to inspire those who seek to build stronger democracies
