Fooling with the Amish Dirk Eitzen, 2022-09-13 Using *Amish Mafia* as a window into the interplay between the real and the imagined this book dissects the peculiar appeals and potential dangers of deception in reality TV and popular entertainment When *Amish Mafia* was released in 2012 viewers were fascinated by the stories of this secret group of Amish and Mennonite enforcers who used threats extortion and violence to keep members of the Amish community in line and to line their own pockets While some of the stories were based loosely on actual events the group itself was a complete fabrication Its members were played by ex Amish and ex Mennonite young

adults acting out scenarios concocted by the show's producers. What is most extraordinary about *Amish Mafia* is that even though it was fictional it was cleverly constructed to appear real. Discovery Channel, which aired it assiduously, maintained that it was real; whole episodes were devoted to proving that it was real, and many viewers, including smart reality TV fans, were fooled into believing it was real. In *Fooling with the Amish*, Dirk Eitzen examines the fakery in *Amish Mafia* and how actual viewers of the show responded to it to discover answers to two questions that have long puzzled media scholars: What is it about the so-called reality of reality shows that appeals to and gratifies viewers? How and why are people taken in by falsehoods in the media? Eitzen's ultimate answer to these questions is that in taking liberties with facts, *Amish Mafia* works very much like gossip. This helps to explain the workings not just of this and other reality TV shows but also of other forms of media fakery, including fake news. The book winds through numerous fascinating case studies of media fakery, from P. T. Barnum's famous humbugs of the nineteenth century to recent TV news scandals. It examines the social and emotional appeals of other forms of entertaining fakery, including professional wrestling and supermarket tabloids. It explains how and why conventions of contrivance evolved in reality TV as well as the ethics of media fakery. And for readers interested in the Amish, it tells how the ex-Amish stars of *Amish Mafia* got involved in the show and the impact that involvement had on their lives.

Crafting Truth Louise Spence, Vinicius Navarro, 2010-12-16 Documentaries such as *Zana Briski* and *Ross Kauffman's Born into Brothels*, Michael Moore's *Fahrenheit 9/11*, Jeffrey Blitz's *Spellbound*, along with *March of the Penguins* and *An Inconvenient Truth* have achieved critical as well as popular success. Although nonfiction film may have captured imaginations, many viewers enter and leave theaters with a naive concept of truth and reality; for them, documentaries are information sources. But is truth or reality readily available, easily acquired, or undisputed? Or do documentaries convey illusions of truth and reality? What aesthetic means are used to build these illusions? A documentary's sounds and images are always the product of selection and choice, and often underscore points the filmmaker wishes to make. *Crafting Truth* illuminates the ways these films tell their stories, how they use the camera, editing, sound, and performance, what rhetorical devices they employ, and what the theoretical, practical, and ethical implications of these choices are. Complex documentary concepts are presented through easily accessible language, images, and a discussion of a wide range of films and videos to encourage new ways of thinking about and seeing nonfiction film.

Semiotics and Documentary Film Hing Tsang, 2013-10-29 Semiotics and Documentary Film The Living Sign in the Cinema engages with very vital problems posed by Peirce's philosophy in an innovative and interdisciplinary fashion by examining how documentary film practice can engage with the question of emergent human agency within a wider biosphere shared by human animals and non human animals alike The book is in many ways a celebration of human inquiry taking liberally from Peirce's semiotic and parallel ideas within recent visual anthropology Through an analysis of the work of three renowned filmmakers Jon Jost Johan Van der Keuken and Rithy Panh Semiotics and Documentary Film The Living Sign in the Cinema reasserts human agency within a global age dominated by philosophical scepticism and an unquestioning subservience to mechanistic military techno culture The author argues that an approach to documentary inquiry broadly derived from Peirce's sign theory phenomenology and overall philosophical outlook has strong advantages over atemporal formal approaches derived from Saussurean semiology Nevertheless this project is also both critical and self critical It also bears direct testament to the many tumultuous and life destroying events of the late 20th century and reminds us of the moral and philosophical problems which we are still grappling with in the early 21st century Hence the Living Sign
