## **Life And Times Of Postmodernity:**

**The Life and Times of Post-modernity** Keith Tester,1993 Postmodernity is often claimed as a great transformation in society and culture But is it In this book Keith Tester casts a cautious eye on such grandiose claims Tester draws on a series of themes and stories from European sociology and literature to show that many of the great statements from postmodernity are misplaced Postmodernity is not the harbinger or expression of a new world It is a reflection of the unresolved paradoxes and possibilities of modernity The author establishes a clearly expressed and stimulating model of modernity to demonstrate the stakes and consequences of postmodernity This book uses a wealth of sources which are usually denigrated or ignored in the debates on postmodernity As such it sheds new light on old claims But it never fails to acknowledge the profound insights of sociologists and other authors The Life and Times of Post Modernity is a continuation of the themes which Tester raised in his earlier books with Routledge The Two Sovereigns and Civil Society      *Postmodernity* David Lyon,1999 In the second edition of this highly successful text postmodernity is seen as the social condition of the twenty first century in which some of the most familiar features of the modern world are not only called into question but actually undermined by novel trends The key carriers of the postmodern new technologies and consumerism emerged in thoroughly modern contexts but so profoundly affect everyday social life that modernity itself is changing shape Postmodernity is a way of describing a new society in the making without supposing that modernity has been entirely left behind While some dub these changes as high or late modern this book argues that postmodernity best captures today s transformations or modernity      **The Life and Times of Post-Modernity** Keith Tester,2002-11-01 Postmodernity is often claimed as a great transformation in society and culture But is it In this book Keith Tester casts a cautious eye on such grandiose claims Tester draws on a series of themes and stories from European sociology and literature to show that many of the great statements from postmodernity are misplaced Postmodernity is not the harbinger or expression of a new world It is a reflection of the unresolved paradoxes and possibilities of modernity The author establishes a clearly expressed and stimulating model of modernity to demonstrate the stakes and consequences of postmodernity This book uses a wealth of sources which are usually denigrated or ignored in the debates on postmodernity As such it sheds new light on old claims But it never fails to acknowledge the profound insights of sociologists and other authors The Life and Times of Post Modernity is a continuation of the themes which Tester raised in his earlier books with Routledge The Two Sovereigns and Civil Society      **Postmodernity and its Discontents** Zygmunt Bauman,2013-05-20 When Freud wrote his classic Civilization and its Discontents he was concerned with repression Modern civilization depends upon the constraint of impulse the limiting of self expression Today in the time of modernity Bauman argues Freud s analysis no longer holds good if it ever did The regulation of desire turns from an irritating necessity into an assault against individual freedom In the postmodern era the liberty of the individual is the overriding value the criterion in terms of which all social rules and regulations are assessed Postmodernity is governed by the will to happiness the result

however is a sacrificing of security The most prominent anxieties in our society today Bauman shows derive from the removal of security The world is experienced as overwhelmingly uncertain uncontrollable and frightening Totalitarian politics frightened by its awesome power the new social disorder frightens by its lack of consistency and direction The very pursuit of individual happiness corrupts and undermines those systems of authority needed for a stable life This book builds imaginatively upon Bauman's earlier contributions to social theory It consolidates his reputation as the interpreter of postmodernity The book will appeal to second year undergraduates and above in sociology cultural studies philosophy and anthropology

Postmodern Time and Space in Fiction and Theory Michael Kane, 2020-01-14 Postmodern Time and Space in Fiction and Theory seeks to place the contemporary transformation of notions of space and time often attributed to the technologies we use in the context of the ongoing transformations of modernity Bringing together examples of modern and contemporary fiction from Defoe to DeLillo Frankenstein to Finnegans Wake and theoretical discussions of the modern and the post modern the author explores the legacy of modern transformations of space and time under five headings The Space of Nature The Space of the City Postmodern or Most Modern Time The Time and Space of the Work of Art in the Age of Digital Reproduction and Travel from Modernity to These five essays re-examine the meanings of modernity and its aftermath in relation to the spaces and times of the natural the urban and the media environment

Postmodernity Paul Lakeland, 2010 More than a guidebook to the postmodernity debate Paul Lakeland's lively and novel volume clarifies the critical impulses behind the cultural intellectual and scientific expressions of postmodern thought He identifies the issues it presents for religion and for Christian theology Concentrating on God Church and Christ Lakeland outlines the church's mission to the postmodern world including a constructive theological apologetics

*Subject to Ourselves* Anthony Elliott, 2015-12-22 The revised edition of Subject to Ourselves a lively and provocative book that was a leader on its topic in England uses psychoanalytic theory as the basis for a fresh reassessment of the nature of modernity and postmodernism Analyzing changing experiences of selfhood desire interpersonal relations culture and globalization the author develops a novel account of postmodernity that supplants current understandings of fragmented selves Subject to Ourselves includes a diverse set of case studies including the power of fantasy in military violence and war the debate over sexual seduction in psychoanalysis and the cultural uses of media and new information technologies The book will be essential reading for students and professionals of social and political theory psychoanalytic studies psychology and cultural studies as well as those with an interest in the modernity postmodernity debate Praise for the First Edition This book not only fills an important gap in the literature for it summarises a debate that is scattered across a decade of rather difficult texts but

also offers a resolution that is sensible and grounded in the best current thinking It will be widely read by graduate students faculty and professionals in the humanities and social sciences Choice This is an informative and enjoyable book which will be of use to students and academics It is accessibly written and provides useful summaries of the different theories and debates in cultural and psychoanalytic theory Recommended Radical Philosophy      **Postmodern Welfare** Peter Leonard,1997-05-28 Peter Leonard provides an accessible analysis of debates about the crisis of the welfare state under the contemporary conditions of postmodern scepticism and the triumphs of global market capitalism In the last two decades Western governments have sought to replace the post war welfare compact with neo conservative individualism The prospects for the Left look bleak At the same time postmodern critique raises profound questions about the validity of a mass politics of emancipation based on the universal values of justice reason and progress From a critical perspective founded in Marxism and feminism Leonard uses elements of postmodern deconstruction to consider how we might now re think the present and future of welf      *Kierkegaard in Post/Modernity* Martin Beck Matušík,Martin Joseph Matušík,Merold Westphal,1995-10-22 Covering a diversity of themes this collection still reflects consensus Kierkegaard is to be taken seriously as a philosopher at the turn of the twenty first century      *The Emergence of Post-modernity at the Intersection of Liberalism, Capitalism, and Secularism* Matthew McManus,2022-09-07 This book is a systematic and thorough analysis of what post modernity is and how it emerged It distinguishes between those who regard post modernity as a theoretical approach and those who regard it as a culture and argues that interpreting post modernity as a culture is more fruitful It discusses the three factors which led to its emergence namely liberalism capitalism and secularism highlighting their respective influence in generating the culture of post modernity within neoliberal societies The volume provides a lengthy analysis of neoliberal post modernity in practice arguing that post modernism is the cultural condition of neoliberal societies in the late 20th and early 21st centuries Until recently it seemed that neoliberal post modernity was here to stay framed by relationship to freedom and time which stressed individual agency but precluded the possibility of historical change at the political level However the Great Recession of 2008 opened new spaces for agitation and transformation which has resulted in the discordant politics of the last decade This book will be of interest to scholars working in a number of fields including economic policy cultural analysis political theory and social critique      **Crossing the Postmodern Divide** Albert Borgmann,2013-11-22 In this eloquent guide to the meanings of the postmodern era Albert Borgmann charts the options before us as we seek alternatives to the joyless and artificial culture of consumption Borgmann connects the fundamental ideas driving his understanding of society s ills to every sphere of contemporary social life and goes beyond the language of postmodern discourse to offer a powerfully articulated vision of what this new era at its best has in store This thoughtful book is the first remotely realistic map out of the post modern labyrinth Joseph Coates The Chicago Tribune Rather astoundingly large minded vision of the nature of humanity civilization and science Kirkus Reviews      **The Postmodern**

**Chronotope** Paul Smethurst, 2021-10-18 The Postmodern Chronotope is an innovative interdisciplinary study of the contemporary. It will be of special interest to anyone interested in relations between postmodernism, geography and contemporary fiction. Some claim that postmodernism questions history and historical bases to culture; some say it is about loss of affect, loss of depth, models and superficiality; others claim it follows from the conditions of post-industrial society and others cite commodification of place, Disneyfication, simulation and post-tourist spectacle as evidence that postmodernism is wedded to late capitalism. Whatever postmodernism is or turns out to have been, it is bound up in rethinking and reworking space and time, and Paul Smethurst's intervention here is to introduce the postmodern chronotope as a term through which these spatial and temporal shifts might be apprehended. The postmodern chronotope constitutes a postmodern world view and postmodern way of seeing. In a sense, it is the natural successor to a modernist way of seeing defined through cubism, montage and relativity. The book is arranged as follows: Part 1 is an interdisciplinary study casting a wide net across a range of cultural, social and scientific activity from chaos theory to cinema, from architecture to performance art, from IT to tourism. Part 2 offers original readings of a selection of postmodern novels including Graham Swift's *Waterland* and *Out of this World*, Peter Ackroyd's *Hawksmoor* and *First Light*, Alasdair Gray's *Lanark*, J. M. Coetzee's *Foe*, Marina Warner's *Indigo*, Caryl Phillips' *Cambridge* and Don DeLillo's *The Names* and Ratner's *Star*. *Translation Studies beyond the Postcolony* Ilse

Feinauer, Kobus Marais, 2017-01-06 This edited volume explores the role of postcolonial translation studies in addressing issues of the postcolony. It investigates the retention of the notion of postcolonial translation studies and whether one could reconsider or adapt the assumptions and methodologies of postcolonial translation studies to a new understanding of the postcolony to question the impact of postcolonial translation studies in Africa to address pertinent issues. The book also places the postcolony in historical perspective and takes a critical look at the failures of postcolonial approaches to translation studies. The book brings together 12 chapters which are divided into three sections: namely Africa, the Global South and the Global North. As such, the volume is able to consider the postcolony and even conceptualisations beyond the postcolony in a variety of settings worldwide. **Thinking Reality and Time through Film** José Manuel Martins, Christine

Reeh, 2017-03-07 Over the last few decades, film has increasingly become an issue of philosophical reflection from an ontological and epistemological perspective, and the claim of doing philosophy through film has raised extensive discussion about its meaning. The mechanical reproduction of reality is one of the most prominent philosophical questions raised by the emergence of film at the end of the nineteenth century, inquiring into the ontological nature of both reality and film. Yet the nature of this audio-photographic and moving reproduction of reality constitutes an ontological puzzle which has widely been disregarded as a main line of enquiry with direct consequences for philosophy. Regarding this background, this volume brings together the best papers from the Lisbon Conference on Philosophy and Film *Thinking Reality and Time through Film* held in 2014. What they all have in common is the discussion of new aspects and approaches of how philosophy relates to film.

Whether by philosophizing through concrete examples of films or whether looking at film's ontological reliance on time and image or its intra active entanglement with reality or truth this book explores grasp film's nature philosophically and provides new insights for the film philosopher and the filmmaker as well as for the freshman fascinated by film for philosophical reasons

*A Time for Mission* Samuel Escobar, 2013-07-14 Christian mission in the twenty first century has become the responsibility of a global church The heart of mission is the drive to cross geographical cultural and social barriers in order to share the good news of Jesus Christ with all peoples Drawing on his involvement in missionary work over many years Samuel Escobar explores how the church spreads the Christian faith God's Word forms the foundation for his reflections while he uses insights from theological and historical studies as well as from the social sciences to gain a clearer understanding of the church's missionary calling His stimulating and challenging analysis contributes significantly to a global evangelical dialogue on mission today and in the future

*Ecclesiology and Postmodernity* Gerard Mannion, 2017-01-13 What in the world is postmodernity Is it the dominant reality today If it is what does it mean to be a church in a postmodern world It seems that the church had a difficult time coming to terms with a modern world an era ruled by the claims of scientific certainty Having done so more or less it is now confronted by the claims of postmodernity which seem to reverse the whole equation to say that certainty and objectivity are chimeras What is truth Pilate asked and postmodernity at least as caricatured by its opponents responds There's no such thing Gerard Mannion in *Ecclesiology and Postmodernity* addresses the situation of the church in a postmodern world The fundamental changes in human society and culture wrought by the twentieth century require the church to consider its response in the twenty first century What is the church's moral Vision how does its practice look what is the nature of its aspiration toward holiness in our times Mannion believes that since Vatican II the Catholic Church has been in a kind of limbo awaiting a Vision of its own life for the future Rather than focusing on specific controversies Mannion offers concrete suggestions about how the church can create a better harmony between its own self understanding its ecclesiological Vision and its day to day life its ecclesial practice Gerard Mannion PhD educated at King's College Cambridge University and New College Oxford University is Associate Professor of Ecclesiology and Ethics in the Department of Theology and Religious Studies at Liverpool Hope University UK He is also the director of Church In Our Times Centre for the Study of Contemporary Ecclesiology co director of the Applied Ethics Initiative at Liverpool Hope co chair of the AAR American Academy of Religion Ecclesiological Investigations Program Unit and co ordinator of the Ecclesiological Investigations International Research Network Mannion is the author of *Schopenhauer Religion and Morality* and co editor of *Readings in Church Authority Gifts and Challenges for Contemporary Catholicism* both published by Ashgate in 2003 and co editor of the forthcoming volumes *The Routledge Companion to the Christian Church and Catholic Social Justice Theological and Practical Explorations*
