Death and Dying Sudhir Kakar, 2014-07-01 Billions have died in the thousands of years since human beings first developed language but we do not have a single credible account of the subjective experience of dying and the afterlife This is why death continues to be an immense mystery and a subject of eternal fascination In Death and Dying scholars and intellectuals illumine the major issues raised by the inevitable ending to life The range is wide from the dread that accompanies all notions of mortality to the objective evidence for the existence of an afterlife from an exploration of the spiritual dimensions of mourning to analyses of how death was perceived and interpreted by geniuses like John Keats Rabindranath Tagore and Carl Jung Utterly compelling these essays prompt us to question our fears and notions of death while enabling us to perceive this phenomenon with greater understanding and intelligence

When Parents Die Edward Myers, 1997-03-01 The topics range from the psychological responses to a parent's death such as shock depression and guilt to the practical consequences such as dealing with estates and funerals

Grief and Its Transcendence Adele Tutter, Léon Wurmser, 2015-09-16 Grief and its Transcendence Memory Identity Creativity is a landmark contribution that provides fresh insights into the experience and process of mourning It includes fourteen original essays by pre eminent psychoanalysts historians classicists theologians architects art historians and artists that take on the subject of normal rather than pathological mourning In particular it considers the diversity of the mourning process the bereavement of ordinary vs extraordinary loss the contribution of mourning to personal and creative growth and individual social and cultural means of transcending grief The book is divided into three parts each including two to four essays followed by one or two critical discussions Co editor Adele Tutter's Prologue outlines the salient themes and tensions that emerge from the volume Part I juxtaposes the consideration of grief in antiquity with an examination of the contemporary use of memorials to facilitate communal remembrance Part II offers intimate first person accounts of mourning from four renowned psychoanalysts that challenge long held psychoanalytic formulations of mourning Part III contains deeply personal essays that explore the use of sculpture photography and music to withstand mourn and transcend loss on individual cultural and political levels Drawing on the humanistic wisdom that

underlies psychoanalytic thought co editor L on Wurmser s Epilogue closes the volume Grief and its Transcendence will be a must for psychoanalysts psychotherapists psychiatrists and scholars within other disciplines who are interested in the topics of grief bereavement and creativity *Happy Again* Harriet Hodgson,2012-05-20 Will I survive Will I ever be happy again Questions that Harriet Hodgson asked herself after she was left to raise her twin grandchildren while grieving for four family members including her daughter Harriet reminds us that we are not alone in our grief and though losses may define our lives they will not destroy them *Jesus Wept* Gregory Wynot,2006-11 One of the less formal but most important functions of parish ministry entails providing counseling to parishioners in need of sympathetic hearing and understanding advice from someone they personally know and trust *Jesus Wept* provides a theological psychological and doctrinal foundation of the Eastern Orthodox Christian view of death that counselors can pass along to help the bereaved place the decedent s passing into proper spiritual context It also discusses the psychological functional and spiritual aspects of the Eastern Orthodox funeral services Author Gregory P Wynot Sr focuses on the especially traumatic circumstances connected with the death of a family member or loved one and details the stages of dying and the grieving process He also discusses how to diagnose and categorize different kinds of grief as well as how best to approach specific situations Finally Wynot looks at the impact of bereavement counseling on the counselor who must find a delicate balance between being a spiritual father and psychological caregiver Also included are resource appendices and a bibliography for further reading *Jesus Wept* is an invaluable resource that can ease the burden of what is certainly one of the most challenging tasks any counselor is called upon to perform **The Heart of What Matters** Anthony Cunningham,2001-09-11 The Heart of What Matters shows that literature has a powerful and unique role to play in understanding life s deepest ethical problems Anthony Cunningham provides a rigorous critique of Kantian ethics which has enjoyed a preeminent place in moral philosophy in the United States arguing that it does not do justice to the reality of our lives He demonstrates how fine literature can play an important role in honing our capacity to see clearly and choose wisely as he develops a moral philosophy that engages with our intimate emotional concerns Written in an accessible style and drawing from a provocative body of contemporary literature this book shows how moral philosophy can reach a far wider audience than it has In part one of this book Cunningham sketches out the theoretical basis for a redefined conception of moral philosophy In part two he engages in extended analyses of novels that address significant life and character issues specifically Kazuo Ishiguro s *The Remains of the Day* Toni Morrison s *Beloved* and Zora Neale Hurston s *Their Eyes Were Watching God* and Seraph on the Suwanee Cunningham shows exactly how works like these can inform moral philosophy Drawing from film history psychology and other social sciences in addition to literature this book adds to the growing number of works that use literature for ethical analysis and to the growing controversy over Kantian ethics **University of Virginia Alumni News** ,1991-10 *A Song Interrupted: Resuming Life After Loss* Michael Burns,2024-05-06 *A Song Interrupted Resuming Life After Loss* a guide crafted to navigate the profound

and complex journey of losing a mother This book is born from a place of deep empathy and understanding aiming to serve as a companion through the silent void left by such an irreplaceable loss The loss of a mother is unlike any other it is an interruption of the most fundamental melody of our lives a song that begins with our first breath and is expected to continue through the ebbs and flows of our existence The purpose of this book is not just to explore the caverns of grief but to light a path towards healing and resuming life with a new understanding and appreciation for its fragility and beauty It seeks to acknowledge the pain the emptiness and the myriad of emotions that come with this loss while also offering guidance on how to weave these feelings into the fabric of our being allowing us to carry forward with strength grace and resilience

Affective Communities in World Politics Emma Hutchison,2016-03-11 Emotions underpin how political communities are formed and function Nowhere is this more pronounced than in times of trauma The emotions associated with suffering caused by war terrorism natural disasters famine and poverty can play a pivotal role in shaping communities and orientating their politics This book investigates how affective communities emerge after trauma Drawing on several case studies and an unusually broad set of interdisciplinary sources it examines the role played by representations from media images to historical narratives and political speeches Representations of traumatic events are crucial because they generate socially embedded emotional meanings which in turn enable direct victims and distant witnesses to share the injury as well as the associated loss in a manner that affirms a particular notion of collective identity While ensuing political orders often re establish old patterns traumatic events can also generate new emotional cultures that genuinely transform national and transnational communities

Beyond Inhumanity Scherto Gill,2025-04-21 Collective efforts to address the legacies of slavery and colonialism tend to orient solely towards dealing with material compensation such as reducing economic disparity and levelling access to public services However communities directly impacted by the dehumanizing legacies have insisted on a broader reckoning one that recognizes all dimensions of the harms including the spiritual injury and the relevant psychosocial trauma inflicted across the generations They remind us that harms of structural injustice extend beyond the material the physical and the psychological also entangling the moral relational and spiritual fabric of human life Understanding harms of inhumanity brings to light the layers of damage and is key to identifying interdisciplinary approaches to collective healing social transformation and the well being of all This book emerges from the ongoing intellectual dialogue as part of the UNESCO Collective Healing Initiative The Initiative focuses on healing the wounds of inhumanity co creating just societies and enhancing the flourishing of current and future generations
