have been written by Northern men Southern men of the Old Regime were not much given to the writing of books and when the man of New England strode forward pen in hand nominated himself custodian of our national archives and began to compile the record nobody seriously contested the office This being so it happened almost inevitably that New England got handsome treatment in our national histories Tended by the reverential hands of her own sons her historical graves have been kept very green indeed The microscope applied to every historical scene and character in New England has let no excellence escape its magnifying power This was very natural The New England author by the sheer strength of environment education heredity inborn prejudice and preference saw everything from a New England point of view and as it appeared to him so he colored the record Nobody denies that New England deserved good treatment in our histories About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

By Samuel M. Smucker Samuel M. Smucker, 1857 The Life and Times of Thomas Jefferson Samuel Smucker, 2014-05-07 The story of the United States of America is one of a nation founded upon the loftiest ideals of representative government attempting to fulfill its goals while encountering competing domestic and global forces From the beginning Americans debated how their national government should govern balancing powers between the federal government and the states which led to the establishment of the first political parties At the same time the nation has struggled to reconcile its guarantee of universal rights and individual liberties with several stark realities including the presence of millions of slaves at the time of the Declaration of Independence Nobody spent more time in the thick of these debates than Thomas Jefferson one of the most famous and revered Americans Jefferson was instrumental in all of the aforementioned debates authoring the Declaration of Independence laying out the ideological groundwork of the notion of states rights leading one of the first political parties and overseeing the expansion of the United States during his presidency But for all of his accomplishments Jefferson's reputation and legacy are still inextricably intertwined with the divisive issues of his own day As the slaveholder who wrote that all men are created equal and his relationship with one of his slaves Sally Hemmings Jefferson's life and career are still sometimes fiercely debated today **The Life and Times of Thomas Jefferson Volume 3** Thomas Edward Watson, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1903 edition Excerpt in the matter of the navy he advised the building of a sufficient number of vessels to protect our commerce in the Mediterranean On account of suggestions like those he made in Paris and during his secretaryship John Adams called Jefferson the father of the American navy CHAPTER XXVII HIS SERVICES ABROAD What did Mr Jefferson do for his country while minister to France To answer fully would certainly be tedious and would probably be useless Whale oil salted fish tobacco rice and salted pork are important items in commerce having much to do with the balance of trade and the prosperity of individuals and of nations but when the reader is assured that Mr Jefferson struggled long hard and with partial success to prevail upon France to be lenient with us upon those subjects he has perhaps learned as much as he cares to know The grip of the protectionist the monopolist was almost irresistible on the France of that day as it is on America now and Mr Jefferson's task was well nigh hopeless Yet by great perseverance and the bringing to bear of the pressure of Lafayette and other personal friends he did manage to loosen the iron bands a little Whale oil and salt fish from New England began to have better treatment so did rice from the South For

tobacco he was not able to do so much that article of commerce being in the control of the Farmers General a corporation which held France by the throat The sum and substance of it all was that Mr Jefferson succeeded in getting the United States treated as the most favored nation France not only yielded to him better trade relations than she had ever conceded to Dr Franklin but she agreed to put her consular arrangements with us on a far more satisfactory basis than Dr **The Life and Times of Thomas Jefferson** Samuel M. 1823-1863 Smucker,2016-05-01 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
