## **Life Extension Companion:**

*The Life Extension Companion* Pearson, Durk, Shaw, Sandy, 1984      **The Life Extension Weight Loss Program** Durk Pearson, Duke Pearson, Sandy Shaw, 1987-05-19 The national bestseller on weight loss from the bestselling authors of Life Extension and The Life Extension Companion now available in paperback Illustrated      *New Nutrition for Athletes* Mitchell V. Kaminski Jr. M.D., Rose Lopez de Vaughan Ph.D.,      **Make Way for the Superhumans** Michael Bess, 2016-07-07

Biomedical research is changing the both the format and the functions of human beings Very soon the human race will be faced with a choice do we join in with the enhancement or not Make Way for the Superhumans looks at how far this technology has come and what aims and ambitions it has From robotic implants that restore sight to the blind to performance enhancing drugs that build muscles improve concentration and maintain erections bio enhancement has already made massive advances Humans have already developed the technology to transmit thoughts and actions brain to brain using only a computer interface By the time our grandchildren are born they will be presented with the option to significantly alter and redesign their bodies Make Way for the Superhumans is the only book that poses the questions that need answering now suggesting real practical ways of dealing with this technology before it reaches a point where it can no longer be controlled

**ASCULAPIUS, Your Owner's Manual** J H Millar, 2006-05 Get it right the first time John Humphrey Millar now in his 103rd year has written a non fiction health booklet a user friendly manual on how to protect one s immune system to ensure a long and healthy life This information has been gathered from his own personal experience His impressive ability to overcome obstacles and achieve results has encouraged him to write this common sense 76 page manual This work entitled ASCULAPIUS Your Owner s Manual is accessible to a mass audience especially people who wish to care and maintain his or her body in good condition It will assist in techniques to increase life span by eating the correct food taking nutritional supplements and daily exercise to protect oneself from illness The purpose of this book is to remind each one of us that we are responsible for planning and carrying out care and maintenance of our body We can slow down the damage and start repairs today We hope that ASCULAPIUS Your Owner s Manual sparks this kind of enthusiasm in our readers and shows them how much all of us can learn about ageing not only from books such as this one but from the intelligence and wisdom of John H Millar a centenarian who has lived a long enjoyable passionate and healthy life      *Deathright* James M. Hoefler, 2019-04-02 Right to die issues are no longer confined to the back corridors of hospitals or the front pages of newspapers that trumpet news of Dr Kevorkian s latest assisted suicide A perverse combination of high tech medicine consumerism demographic trends and economic realities is forcing increasing numbers of Americans and their families to deal with      **Our Grandchildren Redesigned** Michael Bess, 2016-09-06 A panoramic overview of biotechnologies that can endlessly boost human capabilities and the drastic changes these superhuman traits could trigger Biotechnology is moving fast In the coming decades advanced pharmaceuticals bioelectronics and genetic interventions will be used not only to heal

the sick but to boost human physical and mental performance to unprecedented levels People will have access to pills that make them stronger and faster informatic devices will interface seamlessly with the human brain and epigenetic modification may allow people to reshape their own physical and mental identities at will Until recently such major technological watersheds like the development of metal tools or the industrialization of manufacturing came about incrementally over centuries or longer People and social systems had time to adapt they gradually developed new values norms and habits to accommodate the transformed material conditions But contemporary society is dangerously unprepared for the dramatic changes it is about to experience down this road on which it is already advancing at an accelerating pace The results will no doubt be mixed People will live longer healthier lives will fine tune their own thought processes and will generate staggeringly complex and subtle forms of knowledge and insight But these technologies also threaten to widen the rift between rich and poor to generate new forms of social and economic division and to force people to engage in constant cycles of upgrades and boosts merely to keep up Individuals who boost their traits beyond a certain threshold may acquire such extreme capabilities that they will no longer be recognized as unambiguously human In this important and timely book prize winning historian Michael Bess provides a clear nontechnical overview of cutting edge biotechnology and paints a vivid portrait of a near future society in which bioenhancement has become a part of everyday life He surveys the ethical questions raised by the enhancement enterprise and explores the space for human agency in dealing with the challenges that these technologies will present Headed your way over the coming decades new biotechnologies that can powerfully alter your body and mind The possibilities are tantalizing Rejuvenation therapies offering much longer lives 160 and even beyond in full vigor and mental acuity Cognitive enhancement through chemical or bioelectronic means the rough equivalent of doubling or tripling IQ scores Epigenetic tools for altering some of your genetically influenced traits at any point in your lifetime body shape athletic ability intelligence personality Bioelectronic devices for modulating your own brain processes including your pleasure centers a potentially non stop high Direct control of machines by thought and perhaps direct communication with other people brain to brain a new dimension of sharing and intimacy But some of the potential consequences are also alarming A growing rift between the biologically enhanced and those who can t afford such modifications A constant cycle of upgrades and boosts as the bar of normal rises ever higher Humans 95 Humans XP Humans 8 The fragmentation of humankind into rival bioenhancement clusters A gradually blurring boundary between person and product Extreme forms of self modification with some individuals no longer recognized as unambiguously human

**Personal Productivity** John W. Kendrick, J. B. Kendrick, 2016-07-22 The author explores the careers and private lives of the first two African American boxing champions in order to define the history of race relations and the black press at the time The major events and fights are organized around the themes of segregation and the significance to black Americans
