Female Woman:

A Woman's View Jeanine Basinger, 1995-06-23 In this highly readable and entertaining book Jeanine Basinger shows how the woman's film of the 30s 40s and 50s sent a potent mixed message to millions of female moviegoers At the same time that such films exhorted women to stick to their proper realm of men marriage and motherhood they portrayed usually with relish strong women playing out liberating fantasies of power romance sexuality luxury even wickedness Basinger examines dozens of films whether melodrama screwball comedy musical film noir western or biopic to make a persuasive case that the woman's film was a rich complicated and subversive genre that recognized and addressed if covertly the problems of women Amazon.com viewed 7/31/2020

The New Woman's Film Hilary Radner, 2017-01-20 With the chick flick arguably in decline film scholars may well ask what has become of the woman's film Little attention has been paid to the proliferation of films often from the independent sector that do not sit comfortably in either the category of popular culture or that of high art films that are perhaps the corollary of the middle brow novel or smart chick flicks This book seeks to fill this void by focusing on the steady stream of films about and for women that emerge out of independent American and European cinema and that are designed to address an international female audience The new woman's film as a genre includes narratives with strong ties to the woman's film of classical Hollywood while constituting a new distinctive cycle of female centered films that in many ways continue the project of second wave feminism albeit in a modified form Topics addressed include *The Bridges of Madison County* Clint Eastwood 1995 the feature length films of Nicole Holofcener 1996 2013 the film roles of Tilda Swinton Rachel Getting Married Jonathan Demme 2008 *Blue Jasmine* Woody Allen 2013 Frances Ha Noah Baumbach 2012 *Belle Amma Asante* 2013 *Fifty Shades of Grey* Sam Taylor Johnson 2015 and Jane Campion's *Top of the Lake* Sundance Channel 2013

Dance, Sex, and Gender Judith Lynne Hanna, 1988-05-15 Ambitious in its scope and interdisciplinary in its purview Without doubt future researchers will want to refer to Hanna's study not simply for its rich bibliographical sources but also for suggestions as to how to proceed with their own work *Dance Sex and Gender* will initiate a discussion that should propel a more methodologically informed study of dance and gender

Randy Martin *Journal of the History of Sexuality* **Women and Power** Olutoyin Mejiuni, 2013-05-15 Education is an important tool for the development of human potential Organizations and individuals interested in development consider knowledge skills and attitudes obtained through formal non formal and incidental learning as invaluable assets Therefore it is necessary to reflect on fundamental elements that shape the process through which education is attained How do people learn and what are the conditions that facilitate effective learning Answers to these questions demonstrate that no education can be politically neutral because there is no value free education The traditional or indigenous education systems in Nigeria which covered and still cover physical training development of character respect for elders and peers development of intellectual skills specific vocational trainings developing a sense of belonging and participation in community affairs and understanding appreciating and promoting the cultural heritage of the community were and are not value free In other words the goals and purpose of education the content the entire process and the procedures chosen for evaluation in education are all value laden This book attempts to show that the teaching learning process in higher education and religion taught and learned through non formal and informal education or the hidden curriculum and other socialization processes within and outside the formal school system all interface to determine the persons that women become This education enhances or limits womens capabilities whether in the civic political sphere or in their attempts to resist violence Hence education and religion have ways of empowering or disempowering women *Overcoming Violence Against Women and Girls* Michael L. Penn, Rahel Nardos, 2003 This book provides university students policy makers activists public health workers clinicians and lay citizens alike with a vivid overview of the scope of the problem of gender based violence worldwide as well as a sense of the important work now underway to eradicate it An integration of a vast range of data and insights from all the major disciplines that have contributed to our understanding of this problem this book is invaluable as a classroom text The authors have been guided throughout this work by the desire to contribute a document that would move the current international discourse along by providing an historical interdisciplinary overview that is at once critical constructive and visionary

Woman's Work in America Various Authors, 1856-01-01 A comprehensive view of the attainments made by American women in this century and especially during the last fifteen years cannot but be of great importance and value The cruel kindness of the old doctrine that women should be worked for and should not work that their influence should be felt but not recognized that they should hear and see but neither appear nor speak all this belongs now to the record of things which

once measurably true have become fabulous The theory that women should not be workers is a corruption of the old aristocratic system Slaves and servants whether male or female always worked Women of rank in the old world were not necessarily idle The eastern monarch who refused an army to a queen sent her a golden distaff The extremes of despotism and of luxury undermining society and state can alone have introduced the theory that it becomes the highly born and bred to be idle With this unnatural paralysis of woman's active nature came ennui the bane of the so called privileged classes From ennui spring morbid passions fostered by fantastic imaginations A respect for labor lies at the very foundation of a true democracy The changes which our country has seen in this respect and the great uprising of industries among women are then not important to women alone but of momentous import to society at large The new activities sap the foundation of vicious and degraded life From the factory to the palace the quickening impulse is felt and the social level rises To the larger intellectual outlook is added the growing sympathy of women with each other which does more than anything else to make united action possible among them A growing good will and esteem of women toward women makes itself happily felt and will do even more and more to refine away what is harsh and unjust in social and class distinctions and to render all alike heirs of truth servants of justice The initiative is now largely taken by women in departments in which they were formerly if admitted at all entirely and often unwillingly under the dictation of men Philanthropists of both sexes indeed work harmoniously together but in their joint undertakings the women now have their say and instead of waiting to be told what men would have them think feel obliged to think for themselves The result is not discord but a fuller and freer harmony of action and intention In industrial undertakings they still have far to go but women will enter more and more into them and with happy results The professions indeed supply the keystone to the arch of woman's liberty Not the intellectual training alone which fits for them but the practical technical knowledge which must accompany their exercise puts women in a position of sure defense against fraud and imposition In the volume now given to the public the progress of women in all of these departments is presented by persons who have made each of them a special study and who have done good and helpful work in them with moreover the outlook ahead which is the important element in all labor and service The world even the American world is not yet wholly converted to the doctrine of the new womanhood Men and women who prize the ease of the status quo and the imaginary importance conferred by exemption from the necessities which prompt to active exertion often show great ignorance of all that this book is intended to teach They will aver men and women of them that women have never shown any but secondary capacities and qualities Women who take this ground often secretly flatter themselves that what they thus say of other women does not apply to themselves A speaker representing this class lately asked at a legislative hearing in Massachusetts why women did not enter the professions why they did not become healers of the sick ministers lawyers One might ask how he could escape knowing that in all of these fields so lately opened to them women are doing laborious work and with excellent results A book like the present will furnish chapter and verse to substantiate what is

claimed for the attainments of women It will not indeed put an end to foolish depreciative argument based upon erroneous suppositions but it will furnish evidence to confute calumny to convince the doubtful **Myth and materiality in a woman's world** Lynn Abrams, 2013-07-19 Shetland has a history unique in Europe for over the past two centuries it was a place where women dominated the family economy and the cultural imagination Women ran households and crofts without men They maintained families and communities because men were absent And they constructed in their minds an identity of themselves as liberated long before organised feminism was invented And yet Shetland is a place which was made by the most masculine of societies those of the Picts Scots and above all the Vikings and its contemporary identity still draws on the heroic exploits and sagas of medieval Norsemen This book examines how against this tradition Shetland became a female place and offers answers as to how in this most isolated island community the inhabitants transgressed and reversed their traditional gender roles Reconstructing this woman's world from fragments of cultural experience captured in written and oral sources this book will appeal to scholars in the fields of social and cultural history social anthropology gender and women's studies

Arab Women in Arab News Amal Al-Malki, David Kaufer, Suguru Ishizaki, Kira Dreher, 2012-03-15 This book addresses east west understandings of Arab women as portrayed through translated media The vast majority of media studies on Arab women are western based They study the effect of western stereotypes in western media depictions of Arab women There is a vast scholarly literature tracing western stereotypes of Arab women from medieval times to the present From 1800 the dominant western stereotype of Arab women depicts them as passive and oppressed Thirty years of social science media research in the west has shown that media images of Arab women reinforce this two hundred year old stereotype Much of this research has studied silent image bites of Arab women where women are pictured in veils and their own voices are replaced by western captions or voice overs This book sets out to answer this question To answer it we contracted with a global news translation service from the Middle East to collect and translate a sample of 22 months of new summaries from 103 Arab media sources belonging to 22 Arab countries Filtering the summaries that contained one or more female keywords e g woman mother aunt sister she yielded 2 061 summaries between September 2005 and June of 2007 Using the 2 061 summaries as input data a coding scheme was developed for active and passive female behaviors based on verb phrase analysis and conventions of English language news reporting
