Feminist Inquiry

Deborah P. Dixon

Feminist Inquiry:

Feminist Inquiry M. E. Hawkesworth, 2006 A comprehensive guide to methodological issues within feminist scholarship Drawing upon the debates concerning the incidence of rape public support for reproductive rights and welfare reform the author demonstrates how seemingly abstract questions about the nature of knowledge have palpable effects on the lives of contemporary women and men Handbook of Feminist Research Sharlene Nagy Hesse-Biber, 2012 The second edition of the Handbook of Feminist Research Theory and Praxis presents both a theoretical and practical approach to conducting social science research on for and about women The Handbook enables readers to develop an understanding of feminist research by introducing a range of feminist epistemologies methodologies and methods that have had a significant impact on feminist research practice and women s studies scholarship The Handbook continues to provide a set of clearly defined research concepts that are devoid of as much technical language as possible It continues to engage readers with cutting edge debates in the field as well as the practical applications and issues for those whose research affects social policy and social change It also expands on the wealth of interdisciplinary understanding of feminist research praxis that is grounded in a tight link between epistemology methodology and method The second edition of this Handbook will provide researchers with the tools for excavating subjugated knowledge on women s lives and the lives of other marginalized groups with the goals of empowerment and social change Feminist Geopolitics Deborah P. Dixon, 2016-04-15 What can unfold from an engagement of feminist issues concerns and practices with the geopolitical How does feminism allow for a reconfiguration of how these two elements the geo and the political are understood and related What kinds of objects can be located and put into motion What kinds of relations can be drawn between these What kinds of practice become valued And what is glossed or rendered absent in the process In this thought provoking and original contribution Deborah P Dixon cautions against the exhaustion of feminist geopolitics as a critique of both a classical and a critical geopolitics and points instead to how feminist imaginaries of Self Other and Earth allow for all manner of work to be undertaken Importantly one of the things they provide for is a reservoir of concerns thoughts and practices that can be reappropriated to flesh out what a feminist geopolitics can be While providing a much needed sustained interjection that draws out achievements to date the book thus gestures forward to productive lines of inquiry and method Grounded via a series of globally diverse case studies that traverse time as well as space Feminist Geopolitics feels for the borders of geopolitical thought and practice by navigating four complex and corporeally aware objects of analysis namely flesh bone touch and abhorrence **Feminist Evaluation and Research** Sharon Brisolara, Denise Seigart, Saumitra SenGupta, 2014-03-28 This thought provoking book explores the whats whys and hows of integrating feminist theory and methods into applied research and evaluation practice Illustrative cases drawn from U S and international studies address a range of social and health issues The book provides an overview of feminist theory and research strategies as well as detailed discussions of how to use a feminist lens practical steps and challenges in

implementation and what feminist methods contribute to research and evaluation projects Reflections at the close of each section invite the reader to consider key questions and common themes across the chapters With a focus on social justice models the book covers ways to conduct feminist research and evaluation in effective innovative and culturally competent ways in diverse social and cultural contexts *Encyclopedia of Feminist Theories* Lorraine Code, 2002-06-01 The path breaking *Encyclopedia of Feminist Theories* is an accessible multidisciplinary insight into the complex field of feminist thought The *Encyclopedia* contains over 500 authoritative entries commissioned from an international team of contributors and includes clear concise and provocative explanations of key themes and ideas Each entry contains cross references and a bibliographic guide to further reading over 50 biographical entries provide readers with a sense of how the theories they encounter have developed out of the lives and situations of their authors *Feminism and Science* Nancy Tuana, 1989-11-22 thoughtful critiques of the myriad issues between women and science *Belles Lettres* Outstanding collection of essays that raise the fundamental questions of gender in what we have been taught are objective sciences *WATERwheel* all of the articles are well written informative and convincing Admirable editorial work makes this anthology unusually helpful for scholars and students Highly recommended Choice Questioning the objectivity of scientific inquiry this volume addresses the scope of gender bias in science The contributors examine the ways in which science is affected by and reinforces sexist biases The essays reveal science to be a cultural institution structured by the political social and economic values of the culture within which it is practiced **Contemporary Feminist Pragmatism** Maurice Hamington, Celia Bardwell-Jones, 2012 *Contemporary Feminist Pragmatism* is an interdisciplinary collection of original essays that explores the present implications of feminism and pragmatism for theory policy and action The notion of feminist pragmatism or pragmatist feminism has been around since Charlene Haddock Seigfried introduced it two decades ago however the bulk of the work in this field has been directed toward recovering the feminist strain of classical American philosophy largely through renewed interest in the work of Jane Addams This exploration of the origins of feminism and pragmatism has been fruitful in providing a foundation for theoretical considerations This book takes this work a step further by addressing the modern significance of the nexus of feminism and pragmatism arguing that these fields hold three common commitments and values the importance of context and experience the relationship of politics and values and the production of knowledge and metaphysics and the need for diversity and thus dialogue among differently situated social groups **Feminist Practices** Mary Hawkesworth, 2013-11-01 A classroom resource for instructors that includes full syllabi and teaching modules *Feminist Practices* will be of interest to anyone who teaches in women s gender and sexuality studies *Feminist Practices* is intended for use in classrooms and to spark creative ideas for teaching a diverse array of topics What makes a practice feminist What is at stake in claiming the feminist label Whether within a university context or in larger national and global ones feminist projects involve challenging established relations of power critique envisioning alternative possibilities theory and employing

activism to change social relations By taking diverse forms of feminist practice as its focal point this course reader investigates how to study the complexity of women s and men s lives in ways that take race gender power ethnicity class and nationality seriously Feminist Practices also shows how the production of such feminist knowledge challenges long established beliefs about the world Topics covered include Gendered labor Commercialization of sexuality and reproduction Love and marriage in the twenty first century Violence against women Varieties of feminist activism and Women s leadership and governance Feminist Practices draws upon articles published in Signs Journal of Women in Culture and Society to explore the nature of feminist practices in the twenty first century and the range of issues these practices address Organized thematically the collection captures the complexity of a global movement that emerges in the context of local struggles over diverse modes of injustice

Feminism and Methodology Sandra G. Harding,1987 Appearing in the feminist social science literature from its beginnings are a series of questions about methodology In this collection Sandra Harding interrogates some of the classic essays from the last fifteen years in order to explore the basic and troubling questions about science and social experience gender and politics

Feminist Morality Virginia Held,1993-11-15 How is feminism changing the way women and men think feel and act Virginia Held explores how feminist theory is changing contemporary views of moral choice She proposes a comprehensive philosophy of feminist ethics arguing persuasively for reconceptualizations of the self of relations between the self and others and of images of birth and death nurturing and violence Held shows how social political and cultural institutions have traditionally been founded upon masculine ideals of morality She then identifies a distinct feminist morality that moves beyond culturally embedded notions about motherhood and female emotionality Examining the effects of this alternative moral and ethical system on changing social values Held discusses its far reaching implications for altering standards of freedom democracy equality and personal development Ultimately she concludes the culture of feminism could provide a fresh perspective on even solutions to contemporary social problems Feminist Morality makes a vital contribution to the ongoing debate in feminist theory on the importance of motherhood For philosophers and other readers outside feminist theory it offers a feminist moral and social critique in clear and accessible terms

Feminism, Defeated Kate M. Phelan,2025-06-09 Feminism has been defeated Once a politics feminism is now a philosophy an epistemology a method Once for women it is now for everyone Once in pursuit of liberation it now seeks only inclusion In *Feminism Defeated* Kate Phelan traces the depoliticization and ultimately the defeat of feminism She recovers the second wave view of men and women as sex classes enemies political kinds a view more radical than the contemporary view of men and women as social constructs She also describes how poststructuralism displaced this view and replaced it with another In this view the sex gender binary constructs men and women and excludes the gender nonconforming As this view replaced the second wave one the injustice of men s oppression of women was replaced by that of exclusion and the goal of women s liberation was replaced by that of inclusion Thus did feminism become the trans inclusionary movement as

which we now know it and Phelan shows that this shift was not the progression of feminism it was the betrayal of it In this highly original and persuasive study she argues that the recent emergence of a new gender critical feminism presents a moment of opportunity to reclaim feminism s political project

Materialist Feminism and the Politics of Discourse

Rosemary Hennessy,2012-10-11 Materialist Feminism and the Politics of Discourseconfronts the impasses in materialist feminist work on rethinking woman as a discursively constructed subject The book looks at the problem of examining critically the social dimensions on which theories of discourse are premised how such theories understand materiality the relation between women s experience and feminist politics and that between history and discourse Rosemary Hennessy considers the work of Kristeva Foucault Laclau and Mouffe and argues for a materialist feminist re articulation of discourse as ideology Concerns over identity and difference are incorporated into a rewriting of materialist feminism s analysis of women s oppression across capitalist and patriarchal structures In adapting postmodernist theories in this way Hennessy develops a project of social change where feminism while maintaining its specificity is necessarily aligned with other emancipatory movements

Feminism, Science, and the Philosophy of Science J. Nelson,2012-12-06

Feminism Science and the Philosophy of Science brings together original essays by both feminist and mainstream philosophers of science that examine issues at the intersections of feminism science and the philosophy of science Contributors explore parallels and tensions between feminist approaches to science and other approaches in the philosophy of science and more general science studies In so doing they explore notions at the heart of the philosophy of science including the nature of objectivity truth evidence cognitive agency scientific method and the relationship between science and values

Gadamer and the Social

Turn in Epistemology Carolyn Culbertson,2024-06-01 While some take Gadamer s Truth and Method to be a departure from epistemological questions and concerns author Carolyn Culbertson reads Gadamer s work as offering a valuable reflection on the nature of understanding one that is deeply resonant with the recent social turn in epistemology Like social epistemologists Gadamer worries about the epistemic irresponsibility that we encourage when we treat an attitude of objectivity wherein the inquirer lacks any awareness of their social and historical situation as an epistemic ideal Like social epistemologists too Gadamer argues that understanding that one is socially and historically situated does not mean believing that one is fated to simply repeat traditional ideas without critique or modification a concern frequently raised in response to critiques of Enlightenment epistemology By developing such parallels Gadamer and the Social Turn in Epistemology offers seasoned readers of Gadamer a new context in which to appreciate his discussion of understanding in Truth and Method and readers unfamiliar with Gadamer a productive point of access into his major work

Political Economy for the 21st Century

Charles J. Whalen,Hyman P. Minsky,2015-04-15 This text provides an alternative to conventional economics drawing on the neoclassical and non neoclassical insights of Lester Thurow Robert Heilbroner Alice Amsden Barry Bluestone and 11 other prominent economists from America and England It is intended to provide productive analyses of several contemporary

economic problems *Rethinking Feminism in Early Modern Studies* Ania Loomba, Melissa E Sanchez, 2016-07-12 Winner of the Society for the Study of Early Modern Women's Collaborative Book Prize 2017 *Rethinking Feminism in Early Modern Studies* is a volume of essays by leading scholars in the field of early modern studies on the history present state and future possibilities of feminist criticism and theory It responds to current anxieties that feminist criticism is in a state of decline by attending to debates and differences that have emerged in light of ongoing scholarly discussions of race affect sexuality and transnationalism work that compels us continually to reassess our definitions of women and gender *Rethinking Feminism* demonstrates how studies of early modern literature history and culture can contribute to a reimagination of feminist aims methods and objects of study at this historical juncture While the scholars contributing to *Rethinking Feminism* have very different interests and methods they are united in their conviction that early modern studies must be in dialogue with and indeed contribute to larger theoretical and political debates about gender race and sexuality and to the relationship between these areas To this end the essays not only analyze literary texts and cultural practices to shed light on early modern ideology and politics but also address metacritical questions of methodology and theory Taken together they show how a consciousness of the complexity of the past allows us to rethink the genealogies and historical stakes of current scholarly norms and debates *The Bloomsbury Companion to Analytic Feminism* Pieranna Garavaso, 2018-06-14 Applying the tools and methods of analytic philosophy analytic feminism is an approach adopted in discussions of sexism classism and racism *The Bloomsbury Companion to Analytic Feminism* presents the first comprehensive reference resource to the nature history and significance of this growing tradition and the forms of social discrimination widely covered in feminist writings Through individual sections on metaphysics epistemology and value theory a team of esteemed philosophers examine the relationship between analytic feminism and the main areas of philosophical reflection Their engaging and original contributions explore how analytic feminists define their concepts and use logic to support their claims Each section provides concise overviews of the main debates in feminist literature within that particular area of research as well as introductions to each of the chapters Together with a glossary and an annotated bibliography this companion features an overview of the basic tools used in reading analytic philosophy The result is an in depth and authoritative guide to understanding analytic feminist's characteristic methods *Feminism/Postmodernism* Linda Nicholson, 2013-04-15 *Feminism Postmodernism* asks the question is a postmodern feminist politics possible This anthology draws on prominent contemporary theorists to attempt a response The contributors examine the meaning of postmodernism both as a position of method and a diagnosis of the times They consider issues such as the nature of personal and social identity today the relevance of location in constituting theory the political implications of recent aesthetic trends and the consequence of changing work and family relations on women's lives *Linguistic Diversity and Discrimination* Sender Dovchin, Qian Gong, Toni Dobinson, Maggie McAlinden, 2023-12-11 This collection explores the ways in which women in academia from culturally and linguistically diverse backgrounds mediate

the negotiation of linguistic discrimination and linguistic diversity in higher education using autoethnography to make visible their lived experiences The volume shows how women in academia from CaLD backgrounds particularly those living or working in the Global South draw on their multivalent complex linguistic backgrounds and cultural repertoires to cope with and manage linguistic and systemic gender discrimination In adopting autoethnography as its key methodology the book encourages these academics to write themselves beyond the conventions from which women in academia have traditionally been forced to speak and write The collection features perspectives from women across geographic contexts sub fields and levels of experience whose stories are not often told putting at the fore their narratives lived experiences and career trajectories in mediating issues around power ideology language policy social justice teaching and learning and identity construction In so doing the book challenges the wider field to expand the borders of discussions on linguistic discrimination and higher education institutions to critically engage with these issues This book will be of interest to scholars in applied linguistics sociolinguistics and cultural studies

Filipino Peasant Women Ligaya Lindio-McGovern, 1997-09-29 A Filipina from the peasant class herself the author has unprecedented access to women workers in this militarized society as well as rich insights into the lives of Third World women Her interviews with members of the National Federation of Peasant Women in the Philippines and its local chapter Peasant Women of Mindoro detail women s landlessness poverty and disempowerment
