God Forbid Kathleen M. Sands, 2000 Since the 1980s religion has been most visible in American public life when issues of sexuality and reproduction are at stake Paradoxically however the voices that speak most loudly in the name of religion are often unschooled in religious history world religions theology or ethics As a result religion in America is misrepresented as anxiously and obsessively concerned with sex and as uniformly supporting the conservative agenda of family values This volume corrects that distortion in American public discourse Its thirteen previously unpublished articles introduce scholarly perspectives on issues including the family gay rights abortion welfare policy prostitution and assisted reproduction They richly display the complexities and conflicts that exist not only between but within America's various religious traditions for example the pro choice strain within Christian history the support of many religious denominations for gay rights and the criticism of patriarchal family structures within religious communities past and present In these essays contributors put forth views of sexual ethics that are just and compassionate respectful of cultural pluralism and attentive to democratic processes Thoroughly researched lucidly written and carefully argues this anthology will debunk the claims of the Religious Right to be the only religious word on sexuality in America

The War on Sex David M. Halperin, Trevor Hoppe, 2017-03-09 The past fifty years are conventionally understood to have witnessed an uninterrupted expansion of sexual rights and liberties in the United States This state of the art collection tells a different story while progress has been made in marriage equality reproductive rights access to birth control and other areas government and civil society are waging a war on stigmatized sex by means of law surveillance and social control The contributors document the history and operation of sex offender registries and the criminalization of HIV as well as highly punitive measures against sex work that do more to harm women than to combat human trafficking They reveal that sex crimes are punished more harshly than other crimes while new legal and administrative regulations drastically restrict who is permitted to have sex By examining how the ever intensifying war on sex affects both privileged and marginalized communities the essays collected here show why sexual liberation is indispensable to social justice and human rights Contributors Alexis Agathocleous Elizabeth Bernstein J Wallace Borchert Mary Anne Case Owen Daniel McCarter Scott De Orio David M Halperin Amber Hollibaugh Trevor Hoppe Hans Tao Ming Huang Regina Kunzel Roger N Lancaster Judith Levine Laura Mansnerus Erica R Meiners R Noll Melissa Petro Carol Queen Penelope Saunders Sean Strub Maurice Tomlinson Gregory Tomso

Feminism and Families Hilde Lindemann Nelson, 2016-02-04 A ground breaking volume of all new essays covering the conjunction of two topics feminism and families that for all their centrality in our culture have not been adequately examined in light of one another While the family has suffered feminist neglect most women are in fact members of families living their lives within the social context of families even at a time when the concept of family has become bewilderingly unstable The intersection of families and feminism is thus one in need of philosophical reflection as a basis both for good public policy and for the ethical relationships of intimate life **Confucianism, Law, and Democracy in Contemporary Korea** Sungmoon Kim, 2015-03-26 Comparative political theory has grown into a recognized discipline in its own right in the last two decades Yet little has been done to explore how political theory engages with the actual social legal and political reality of a particular polity East Asians are complexly conditioned by traditional Confucian norms and habits despite significant social economic and political changes in their contemporary lives This volume seeks to address this important issue by developing a specifically Confucian political and legal theory The volume focuses on South Korea whose traditional society was and remains the most Confucianized among pre modern East Asian countries It offers an interesting case for thinking about Confucian democracy and constitutionalism because its liberal democratic institutions are compatible with and profoundly influenced by the Confucian habit of the heart The book wrestles with the practical meaning of liberal rights under the Korean Confucian societal culture and illuminates a way in which traditional Confucianism can be transformed through legal and political processes into a new Confucianism relevant to democratic practices in contemporary Korea **Women without Class** Julie Bettie, 2014-09-18 In this ethnographic examination of Mexican American and white girls coming of age in California's Central Valley Julie Bettie turns class theory on its head asking what cultural gestures are involved in the

performance of class and how class subjectivity is constructed in relationship to color ethnicity gender and sexuality A new introduction contextualizes the book for the contemporary moment and situates it within current directions in cultural theory Investigating the cultural politics of how inequalities are both reproduced and challenged Bettie examines the discursive formations that provide a context for the complex identity performances of contemporary girls The book s title refers at once to young working class women who have little cultural capital to enable class mobility to the fact that analyses of class too often remain insufficiently transformed by feminist ethnic and queer studies and to the failure of some feminist theory itself to theorize women as class subjects Women without Class makes a case for analytical and political attention to class but not at the expense of attention to other social formations

Radical Relations Daniel Winunwe Rivers,2013-09-03 In *Radical Relations* Daniel Winunwe Rivers offers a previously untold story of the American family the first history of lesbian and gay parents and their children in the United States Beginning in the postwar era a period marked by both intense repression and dynamic change for lesbians and gay men Rivers argues that by forging new kinds of family and childrearing relations gay and lesbian parents have successfully challenged legal and cultural definitions of family as heterosexual These efforts have paved the way for the contemporary focus on family and domestic rights in lesbian and gay political movements Based on extensive archival research and 130 interviews conducted nationwide *Radical Relations* includes the stories of lesbian mothers and gay fathers in the 1950s lesbian and gay parental activist networks and custody battles families struggling with the AIDS epidemic and children growing up in lesbian feminist communities Rivers also addresses changes in gay and lesbian parenthood in the 1980s and 1990s brought about by increased awareness of insemination technologies and changes in custody and adoption law
