Traditional Chinese Medicine James D Adams, Eric J Lien, 2015-10-20 Traditional Chinese medicine has a strong scientific basis but the science of these important preparations is often rarely discussed Western approaches often simplify traditional Chinese medicine to drug discovery in Chinese plants however the majority of traditional Chinese medications use complex mixtures of plant extracts rather than single purified drugs The combination of different extracts is based on yin yang and chi theories which are often poorly understood in the West Yin and yang are known to be the balance of agonists and antagonists whereas chi derives from signalling processes in the body and regulates bodily functions Traditional Chinese medical practitioners understand that yin yang and chi constantly interact in the body to maintain health Western medical practitioners understand how to use agonists and antagonists and how to modify signalling processes but generally do not accept the use of complex plant extracts to perform these functions Aimed at medical scientists and including detailed explanations of the theories behind the science this text may help researchers to understand Chinese medical practitioners and to communicate more effectively with them It will also lead to greater acceptance of traditional medications in the West Presenting a clear rationale for the use of traditional Chinese medications in Western medical facilities it enables scientists to find new directions in experimental design and encourage examination of these useful but often poorly understood preparations in clinical trials A World of Light Floyd Skloot, 2005-01-01 From the winner of the 2004 PEN Center USA Literary Award for Creative Nonfiction In his award winning memoir In the Shadow of Memory Floyd Skloot told the hard story of coming to terms with a brain rayaging virus A World of Light written with the same insight passion and humor that distinguished the earlier volume moves Skloot's story from the reassembly of a self after neurological calamity to the reconstruction of a shattered life More than fifteen years after a viral attack compromised his memory and cognitive powers Skloot now must do the vital work of recreating a cohesive life for himself even as he confronts the late stages of his mother s advancing dementia With tenderness and candor he finds surprising connection with her where it had long been missing transforming the end of her life into a time of unexpected renewal At the same time Skloot and his wife are building a rich new life at the center of a small isolated forest on a hillside in rural Oregon where a dwindling water supply and the bitter assaults of the weather bring an elemental perspective to his attempts to make himself once more at home in the world By turns poignant funny and frightening A World of Light balances the urgency to capture fragmented fleeting memories with Stories and Lessons on Feng Shui Joey Yap, 2004-10-01 Stories and Lessons the necessity of living fully in the present on Feng Shui is a compilation of stories written by leading international Feng Shui and Chinese Astrology Master Trainer Joey Yap This collection of fun entertaining and easy to read stories provides readers with a unique way to learn explore and discover more about Classical Feng Shui and Chinese Astrology This revolutionary book for the Feng Shui enthusiast also
