Form, Individuality and the Novel Clemens Lugowski, 1990-01 *Form, Individuality and the Novel* Clemens Lugowski, 1990 *The Kaiserchronik* Alastair Matthews, 2012-07-26 This book presents a narratological analysis of the Kaiserchronik or chronicle of the emperors the first verse chronicle to have been written in any European vernacular language which provides an account of the Roman and Holy Roman emperors from the foundation of Rome to the eve of the Second Crusade Previous research has concentrated on the structure and sources of the work and emphasized its role as a Christian narrative of history but this study shows that the Kaiserchronik does not simply illustrate a didactic religious message it also provides an example of how story telling techniques in the vernacular were developed and explored in twelfth century Germany Four aspects of narrative are described time and space motivation perspective and narrative strands each of which is examined with reference to the story of a particular emperor Constantine the Great Charlemagne Otto the Great and Henry IV Rather than imposing a single analytical framework on the Kaiserchronik the book takes account of the fact that modern theory cannot always be applied directly to works from premodern periods it draws critically on a variety of approaches including those of Gérard Genette Boris Uspensky and Eberhard Lämmert Throughout the book the narrative techniques described are contextualized by means of comparisons with other texts in both Middle High German and Latin making clear the place of the Kaiserchronik as a literary narrative in the twelfth century **The Other Self** Dēmētrēs Tziovas, 2003-01-01 The Other Self is the first English language book length literary analysis of some of the most celebrated Greek novels of the nineteenth and twentieth centuries A must read for anyone interested in Greek literature and culture it offers both a solid introduction to modern Greek literature and close reading of individual texts Author Dimitris Tziovas focuses on the issues of identity autobiography and social determinism raised in these texts providing a fresh perspective and suggesting new ways of exploring forms of engagement between self and society Greek narratives of self Tziovas suggests are not naked and transparent presentations of existence but articulations of the relationship between the individual and the social world they are negotiations of the past through the otherness of the present A compelling demonstration of the richness and complexity of modern Greek fiction The Other Self provides exciting and challenging interpretations of Greek literature and Greek society **Paper Memory** Matthew Lundin, 2012-10-22 Paper Memory tells of one man's mission to preserve for posterity the memory of everyday life in sixteenth century Germany Lundin takes us inside the mind of an undistinguished German burgher Hermann Weinsberg whose early modern writings sought to make sense of changes that were unsettling the foundations of his world *Bridal-quest Epics in Medieval Germany* Sarah Bowden, 2012 K nig Rother Salman und Morolf the M nchner Oswald and Grauer Rock otherwise known as Orendel have had a troubled position in the literary history of medieval Germany Forced into a normative generic framework as either Minstrel Epic Spielmannsepik or Bridal quest Epic Brautwerbungsepik these texts have been viewed conventionally according to an essentially teleological

classification or a schematic ideal Bowden challenges the premises of such a view with a detailed history of the textual scholarship and reevaluates these so called Bridal quests on their own terms offering detailed and suggestive readings of each work without the distortions or limitations inherent in the traditional interpretative model Sarah Bowden is Powys Roberts Research Fellow at St Hugh's College Oxford

Literary Fiction Geir Farnar, 2014-01-30 Insofar as literary theory has addressed the issue of literature as a means of communication and the function of literary fiction opinions have been sharply divided indicating that the elementary foundations of literary theory and criticism still need clarifying Many of the classical problems that literary theory has been grappling with from Aristotle to our time are still waiting for a satisfactory solution Based on a new cognitive model of literature as communication Farnar systematically explains how literary fiction works providing new solutions to a wide range of literary issues like intention function evaluation delimitation of the literary work as such fictionality suspense and the roles of author and narrator along with such narratological problems as voice point of view and duration Covering a wide range of literary issues central to literary theory offering new theories while also summarising the field as it stands *Literary Fiction* will be a valuable guide and resource for students and scholars of the theory of literature

Literature and Contingency Christina Lupton, Carsten Meiner, 2020-05-21 This collection features leading literary critics and explores the role of language in thinking about the ways in which the world might be otherwise and the history of contingency as a longstanding literary concept The defining feature of contingency lies in the suggestion that things that have already happened might have been otherwise Central to late twentieth century European critical and sociological thinking that argument is at the centre of this volume The contributors to this volume explore subjects including how literature philosophy and history all cope with contingency the existence of contingency in genres as diverse as enlightenment fables Aristotle Hardy Jane Austen and post war American literature the contingency of old age and the poetics of contingency As the chapters here illustrate our efforts to understand each other involve a constant opening onto being otherwise an enterprise in which the role of the literary critic remains key Of interest to scholars across a range of literary genres this volume would also have applications for philosophy researchers exploring the metaphysics of contingency This book was originally published as a special issue of *Textual Practice*

Estructura de la ficción narrativa José Ángel García Landa, 1998-01-01 El objeto inmediato de este libro son las teorías de la narración y a través de ellas los textos narrativos Con un carácter especulativo apunta en la dirección de la semiótica y la lingüística más que hacia la crítica aplicada No se articula en torno a comentarios específicos y sigue un plan estructural

Novel Arguments Richard Walsh, 1995-09-29 *Novel arguments* argues that innovative fiction by which is meant writing that has

been variously labeled postmodern metafictional experimental extends our ways of thinking about the world and rejects the critical consensus that under the rubrics of postmodernism and metafiction homogenizes this fiction as autonomous and self absorbed Play self consciousness and immanence supposed symptoms of innovative fiction s autonomy are here reconsidered as integral to its means of engagement The book advances a concept of the argument of fiction as a construct wedding structure and content into a highly evolved and expressive experimental form Close readings of five important innovative novels by Donald Barthelme Ishmael Reed Robert Coover Walter Abish and Kathy Acker show how they articulate matters of substance social engagement and ideological currency by virtue of the act of innovation Walsh deftly argues for a new understanding of fictional cognition at the theoretical level and in an act of great critical creativity discards altogether the flattening totalities of received postmodern formulations

06-12-2023, **Heinrich Von Kleist: Writing After Kant (Studies in German Literature, Linguistics, and Culture)** Timothy J. Mehigan,2011 Kleist viewed anew as a major contributor to the tradition of post Kantian thought The question of Heinrich von Kleist s reading and reception of Kant s philosophy has never been satisfactorily answered The present study aims to reassess this question particularly in the light of Kant s rising importance for the humanities today It argues not only that Kleist was influenced by Kant but also that he may be understood as a Kantian albeit an unorthodox one The volume integrates material previously published by the author now updated with new chapters to form a greater whole What results is a coherent set of approaches that illuminates the question of Kleist s Kantianism from different points of view Kleist is thereby understood not only as a writer but also as a thinker one whose seriousness of purpose and clarity of design compares with that of other early expositors of Kant s thought such as Reinhold and Fichte Through the locutions and idioms of fiction and the essay Kleist becomes visible for the first time as an original contributor to the tradition of post Kantian ideas Tim Mehigan is Professorial Chair of German in the Department of Languages and Cultures at the University of Otago New Zealand and Honorary Professor in the School of Languages and Comparative Cultural Studies at the University of Queensland Australia
